Mount Morris Summer Soccer

Once again we had a successful year of summer soccer. I would like to thank the players, parents and especially the coaches: Jennifer Young, Joel Clester, Joan Mann, Amanda Lonsberry, Greg Palermo, Lenny Palermo, Dale Browne, Janelle Mathey, Alecia Torcello, Joan Mann, Alecia Browne, Danee Gomez, Colin Brickwood, Maddy Regal, Liz Corbet, and Bubba Maldonado. I appreciate your commitment to the program.

Also, a big thanks to Superintendent Chris Young and his crew for keeping the fields clean, mowed, and striped.

Finally, I would like to thank The Leaning Tower and Regal Hots for their generous donations.

I hope to see you all next year.

Sincerely,

Geoff Pagano, Village Trustee

Positively! West Sparta

New Hope Methodist Church Transformed

During the last week of July, the West Sparta New Hope Methodist Church was transformed into an ocean and a beach Surf Shack! Children from the surrounding communities gathered to "Catch the wave of God's amazing LOVE!!!"

The teachers provided lessons about how God creates, helps, loves, calms and sends. The children enjoyed recreation, science corner, crafts, snacks, singing and playing. What a wonderful week they had! The youth leaders were helpful in so many ways; it would have been near impossible to do the program without them.

The mission for the week had a "water" theme. Children learned how important water is for human, animal and crop survival. They even brought bottles and cans to recycle. The mountain of bottles grew all week. At the end, the children were able to purchase two water pumps for the International Heifer Project. What a great joy to see the children rejoice in their efforts for the week!

A GREAT THANK YOU goes to all those who helped to make this year's program a rocking success! So many dedicated their time, talent and effort.

God's Love is Amazing!

Forty Year Anniversary

The Restored Historic Mills Mansion

40 years ago, a few ambitious citizens with a great deal of foresight approached the Rotary Club with the idea of purchasing the home of General Mills, a founder of Mount Morris, with the purpose of restoring it to its former glory. The intent was to keep our Village's amazing past alive and it was only done due to the financial and physical support of our citizens. The excitement spread throughout the Village!!! Everybody stepped forward to help.

It's 40 years later and we are still alive and well. But,

WE NEED YOUR HELP.

We have a critical need for major repairs:

- The fence
- Pillars and decking on our front porch
- Pillars at front entrance
- Chimney and foundation repair

It's time for annual membership renewals. The Board respectfully requests that our current members, friends and all citizens please renew, upgrade, begin or reinstate your membership. Join the Mount Morris Historical Society for the 2016 – 2017 year (July 1, 2016 through June 30, 2017)

PROTECT YOUR CHILD FROM THE HAZARDS OF LEAD

The Livingston County Department of Health continues to strive to protect the health and safety of Livingston County residents. In response to the high lead levels in water at schools in Flint, Michigan, the Department sent a letter to local school superintendents encouraging them to voluntarily test the water for lead levels in their school districts. Livonia Central School District conducted the tests and notified the community regarding the results as some locations in the school district tested above the standard for safe amounts of lead in the water.

The Livingston County Department of Health is working to support Livonia Central School District. The Department continues to be a lead resource in lead poisoning prevention. "The health of the community remains our top priority and we are pleased with Livonia's efforts on testing and remediation process to achieve and sustain the highest quality drinking water for the community", stated Jennifer Rodriquez, Public Health Director. According to the Livonia School District Superintendent, the district will be replacing the parts of the water fountains and sinks at the elementary school that had high levels of lead. The District will then retest the water to ensure the water is safe to consume.

The Livingston County Department of Health provides information regarding lead poisoning prevention and testing to the community throughout the year. The only way to know if your child has lead poisoning is to get a blood lead test. In New York State, all children must be tested for lead exposure at or around age one and again at age two.

In addition to testing, prevention efforts include frequent washing of children's hands, toys, and pacifiers is helping in keeping lead from accumulating. The Livingston County Department of Health also recommends cleaning floors often with a damp mop, and use damp cloths to clean windowsills.

For the latest toy recalls from lead contents, please visit our website at www.livingstoncounty.us/doh.htm to be sure your child does not have these toys. For more information on how to protect children from lead exposure, please call the Livingston County Department of Health at 243-7299 or visit www.livingstoncounty.us/doh.htm.

**FIRE EXTINGUISHERS • Part 1 – How They Work**From fireextinguishers101.com

Flames need fuel, oxygen and heat in order to burn. Fire extinguishers are designed to remove one of these elements by applying an agent that either cools the burning fuel or removes or displaces the surrounding oxygen. Fire extinguishers contain either water or a smothering material such as CO₂ (Carbon Dioxide). By pulling the safety pin and depressing the lever at the top of the cylinder, the fire extinguisher material is released under high amounts of pressure. At the top of the cylinder, there is a smaller cylindrical container filled with compressed gas. A release valve acts as locking mechanism and prevents the gas from escaping. When you pull the safety pin and squeeze the lever, the lever pushes out an actuating rod that presses the valve down to open a passage to the nozzle. The compressed gas is released, applying a downward pressure on the fire extinguishing material, and pushing it out the nozzle under tremendous force. Although the temptation is to aim the extinguisher material at the flames, the proper way is to aim it directly at the fuel.

PROGRAMS

RESTORE Sexual Assault Services is currently recruiting Volunteer Advocates for the upcoming training cycle during October 17-27. There is an urgent need in Monroe, Genesee, Livingston, Orleans and Wyoming counties for volunteers.

Those interested in volunteering for RESTORE must be at least 20 years of age and be comfortable working with victims in a crisis situation. RESTORE is seeking volunteers who can take phone calls from their home as well as volunteers who are able to accompany victims to the hospital or police station, which will require access to transportation. The time commitment is flexible, and at the volunteer's discretion. All applicants will be screened and must complete 32 hours of training during October 17-27 before taking calls.

RESTORE, a program of Planned Parenthood of Central and Western New York, leads the community response to sexual violence through advocacy and education by providing the safety, support and validation that changes the lives of all those affected by sexual assault.

Trained counselors are available 24-hours a day, seven days a week to provide information and support, enabling clients to make informed choices concerning medical, legal and counseling needs, while offering advocacy and information about their rights. Counselors also offer short-term counseling sessions and legal and medical accompaniment. Services are free and confidential.

For further information about volunteering with RESTORE, email volunteer@ppcwny.org or call 585-658-2370.
