Heat Stress Considerations

PIGS:
Signs: Panting, open-mouth breathing, high rectal temperature (>104°F).
Help: Offer shade, fans, plenty of drinking water, sprinklers that provide large droplets. Do not use sprinklers continuously (Cycle 2 minutes on 2 minutes off).

SHEEP & GOATS:
Signs: Rapid breathing rate, panting, weakness, high rectal temperature (>104°F).
Help: Offer shade & drinking water. Use rubbing alcohol on wool-less areas. DO NOT SPRAY SHEEP WITH WATER, if wool becomes wet, air cannot flow properly over the skin for evaporative cooling. For goats run cool water over back of head.

CATTLE:
Signs: Panting, open-mouth breathing, excessive salivation, lack of coordination, trembling, high rectal temperature (>104°F).
Help: Offer shade, fans, plenty of drinking water, sprinklers that provide large droplets. Sprinklers throwing out a mist only contribute to humidity.

HORSES:
Signs: Profuse sweating, rapid breathing, rapid heart rate, high rectal temperature (>104°F).
Help: Offer shade, fans, run cool water on legs, offer frequent small amounts of drinking water.

DEAR FRIENDS, FAMILY, FELLOW FARMERS, COMMUNITY MEMBERS, & CHURCH ORGANIZATIONS,

We would like to express heartfelt gratitude for all you have done in the aftermath of the tornado that affected our property. We are so incredibly humbled by the generosity of those in our community. We have received support in so many ways, all of which have had a profound effect on our family. **We thank those who helped with the clean-up efforts, prepared food, delivered supplies, or kept us in their thoughts & prayers.** Our family has been truly inspired. We live in a community like few others, & we are proud to call Davis County our home. In spite of the devastation the storm brought, we feel as though we gained many new friends & a sincere respect for others.
