Mix 30
THE HIGH ENERGY LIQUID FEED

**8 IMPORTANT ECONOMIC REASONS FOR
FEEDING MIX 30 YEAR ROUND IN YOUR
COW-CALF OPERATION**

1. Improvements in timely breed back (with supplements containing high lineoleic fatty acid).
2. Improved pregnancy retention rates by lowering physical body temps of cows. A very large University breeding trail documented a 30% improvement in conception & retention on highly Endofite infected pastures.
3. 25-100# heavier weaning weights on calves.
4. Improved body condition scores of cows.
5. 10-30% improvement in stocking rates in the summer or 10-30% less hay in winter.
6. 25-75% lower mineral consumption year around.
7. Less fly pressure (research documents of 50% reduction of flies during heavy fly season). (Producers report a 30-90% reduction in fly pressure).
8. Reduced potential for bloat in cows and stockers. The fat in MIX30 reduces surface tension of rumen contents disallowing gas build up in rumen.
