BLUE TAG SPECIALS:

We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:

Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Are you a MEDICARE patient with a CPAP?

Do you feel like this poor guy looks? If you can't wear your CPAP because of its bulkiness or discomfort, it's definitely not helping your sleep apnea. Dr Timothy Smith offers a comfortable and convenient alternative: a custom designed oral appliance to move the jaw forward and open the airway. Many of our patients report feeling better and more rested than they have in years. Call us at (256) 287-1250 about a sleep apnea consultation today.

At least half of Parkinson's disease patients experience psychosis at some point during the course of their illness, and physicians commonly prescribe antipsychotic drugs, such as quetiapine, to treat the condition. However, a new study in JAMA Neurology suggests that these drugs may do significantly more harm in a subset of patients. The researchers' analysis of about 15,000 patient records in a VA database found that Parkinson's patients who began using antipsychotic drugs were more than twice as likely to die during the following six months, compared to a matched set of Parkinson's patients who did not use such drugs.

Vitamin D supplementation during pregnancy may lead to stronger bones in babies born during the winter months, a new study published in The Lancet Diabetes and Endocrinology has shown.

The cancer treatment drug Imatinib, otherwise known as Gleevec, is approved to treat various forms of cancer, most notably chronic myeloid leukemia (CML). However, researchers have stumbled onto another possible use for it, curing type 2 diabetes. Gleevec lowers the level of insulin resistance, thereby reducing the risk of both hyperglycemia and obesity according to a study published in the journal Diabetes.

Antidepressant use with selective serotonin reuptake inhibitors (SSRIs) during pregnancy and breast-feeding causes decreased bone density in mothers that may put them at higher risk of broken bones later in life, a new study presented at the Endocrine Society's annual meeting suggests.

The Holy Father, The Word (Jn 1:1-14) and The Holy Ghost are the absolute Truth and are one (1Jn 5:7) and have not changed (Mal 3:6, Heb 13:8). The devil is the father of lies (Jn 8:44) and steals from The Holy Father's House. When our deeds prove we do not love The Holy Father (Jn 5:42), we are a servant of the devil, and going to a church does not change it. Many claim to be Christians, yet most cannot raise the dead, or give hearing, sight, etc, as given to the disciples. Calling Christ Lord, then refusing to obey Him (Lk 6:46), reveals Satan's temptation (2Cor 11:13-15) not to love Truth (Jn 14:6,15)! (Ecclesiastes 12:13-14) So Be It! Ron & Jeri
