## BRIDGESTONE ECOPIA™ EP422 Plus

### All-Season Touring

The Ecopia EP422 Plus featuring T-speed rated sizes is one of Bridgestone's ecologically oriented Standard Touring All-Season tires developed for the drivers of coupes, sedans, minivans and small crossover vehicles looking to combine year-round traction, handling and comfort with reduced environmental impact. Ecopia EP422 tires are designed to enhance vehicle fuel economy by reducing tire rolling resistance along with the vehicle's carbon dioxide (CO2) emissions while delivering year-round, all-season traction, even in light snow.

The Ecopia EP422 uses an all-season tread compound featuring Bridgestone's unique NanoPro-Tech (Nanostructure-Oriented Properties Control Technology) to reduce rolling resistance and energy loss while maintaining dry, wet and wintertime traction. This compound is molded into a symmetric tread design that combines notched shoulders and intermediate ribs with independent center blocks for dry road tracking and traction. Four circumferential grooves are designed to help water flow from under the footprint to resist hydroplaning and enhance wet traction while notches and sipes increase the edges that bite into light snow. The tire sidewalls feature Bridgestone's Fuel Saver compound to further increase efficiency. The tire's internal structure includes twin steel belts reinforced by spirally wrapped nylon on top of a polyester casing to blend ride comfort and durability.

## READER'S Recipe

### CARAMEL APPLE BARS

1 C. Packed Brown Sugar	1 Tsp. Salt
1/2 C. Butter, Softened	1/2 Tsp. Baking Soda
1/4 C. Shortening	4-1/2 C. Apple - Peeled, Cored & Chopped
1-3/4 C. All-Purpose Flour	1 Tbsp. Lemon Juice
1-1/2 C. Quick Cooking Oats	3 Tbsp. All-Purpose Flour
1 (14 oz.) Package Individually Wrapped Caramels, Unwrapped	

Preheat the oven to 400 degrees F (200 degrees C). In a large bowl, cream together the brown sugar, butter and shortening until smooth. Combine 1-3/4 cups flour, oats, baking soda and salt; stir into the creamed mixture until well blended. Set aside 2 cups of this mixture. Press the remaining mixture into the bottom of an ungreased 9x13 inch baking pan. In a medium bowl, toss apples with lemon juice, then toss them with the 3 tablespoons of flour. Spread the apple mixture evenly over the prepared crust. In a small saucepan over medium heat, melt caramels, stirring frequently until smooth. Pour the melted caramels evenly over the apples. Sprinkle the reserved oat mixture over the top of the apple layer. Press down lightly. Bake for 25 to 30 minutes in the preheated oven, until the top is golden brown and the apples are tender. Cut while slightly warm and refrigerate any leftover bars.

# I Don't Need To Advertise

You're Right... There is a time **NOT** to advertise, when...

1. You have no competition.
2. You have all the business in town.
3. There are no new people moving into your area.
4. You want to keep your large inventory.
5. You have more business than you can handle.
6. The birth rate is zero.
7. You have more than enough friends that shop your business, keeping you far to busy.
8. You've netted your third million (after taxes).
9. You have no desire to work hard.
10. You would have to hire more people to handle the additional business advertising brings.

**The time to start advertising is...**  
When you don't agree with all the above.

**The place to start advertising is...**  
The one that has a combined circulation of 71,500 homes.
