Serta Select Twin Mattress \$99

Add a Pivot Head Up Box for \$544 on most models

- Helps reduce tossing and turning**
ComfortRight™ Layers
This advanced system of foams and fluffy fibers is designed to provide instant comfort. This helps reduce the pressure points that can cause tossing and turning so you can sleep more comfortably through the night.
- Minimize impact from partner movement**
TrueSense™ Design
Serta's exclusive design helps minimize the impact of partner movements, working to isolate motion at its source so you can enjoy a peaceful night's sleep with fewer disruptions.
- Encourages proper back support & alignment**
Custom Support™ System
Every Perfect Sleeper features a system of durable, yet flexible carbon steel coils that work to promote proper support and alignment across the entire body.
- Resists sagging & edge roll-off**
ComfortLast™ Construction
Designed to enhance durability of the mattress and is thoroughly tested beyond industry standards to make sure it can resist sagging and edge roll-off. This enhanced durability can help extend the comfort life of your mattress.
- Promotes a balanced sleep temperature**
CoolBalance™ Technology
A unique combination of high-performance heat and moisture-regulating fabric and an overall mattress design that helps promote airflow. Together, these help provide a comfortable, balanced sleep temperature.

International Newspaper
Carrier Day, October 8, 2016

On this annual day of recognition,
join us in thanking this special group
of hardworking Americans!

Did You Know?
96% of U.S. newspaper
carriers are adults. While once
primarily carried out by youth
as their first job, adults now
often deliver newspapers in
addition to their full-time jobs.

FALL CAR CARE

Fall Driving Tips

Fall driving can be unpredictable because of weather changes and the end of daylight saving time. To be safe and aware on the roads this fall, follow these guidelines:

Watch out for leaves

Once leaves become wet, they can present slippery and dangerous driving conditions. Be sure to watch for patches of wet leaves on the road or on road lines. Dry leaves can also present a problem to your vehicle. Avoid parking your vehicle near leaf piles to prevent fires that could start from your vehicle's catalytic converter.

Stay alert on the road

The end of daylight saving time means reduced visibility on the roads, which can create unfamiliar driving conditions. Even on familiar roads, it's important that motorists use additional caution and adjust their driving habits to watch for pedestrians, cyclists and other roadway users who will be less visible, especially during the first week of the change.

Check your tire pressure

With frequent weather and temperature changes, tires can expand and contract, causing them to lose air pressure. Make sure tires are properly inflated and have plenty of tread.

Avoid sun glare

With the change in time you may need to adjust to the different morning or late afternoon glare from the sun. The glare can cause reflections off car windows and hoods and decrease your visibility. Have a good pair of sunglasses readily available to counter daytime glare, and consider lenses with anti-reflective coating to reduce glare when night driving can't be avoided.

Plan ahead for wet conditions

Fall often brings rainfall, which can decrease visibility and cause hydroplaning. Make sure your windshield wipers are in good working condition. If driving on a road with excess water, slow down and avoid sudden movements with the steering wheel or brake pedal. If you feel like you're floating, steer straight and gently release

Low beams in the fog

When driving in fog, high beams will reflect off the fog, creating a "white wall" effect, so set your headlight to low beam. This setting aims the beam of light down toward the roadway. Also reduce your speed and watch your speedometer. Fog creates a visual illusion of slow motion when you may actually be speeding. If fog becomes really thick use your road markers to guide you and help you to stay in your lane.

Watch out for deer

Deer collisions account for hundreds of accidents each year in Mississippi. Deer are more apt to run into the roadway especially at dawn and dusk since the fall is an active breeding time. If you see a deer cross the roadway, proceed very slowly as they often travel in groups. You can not only harm the deer but do great damage to your car as well.

HEAR What Our Customers Say!

One of the best decisions that I have made in a long time was when I decided to open the door at Long's Hearing Care in Cadillac Michigan. I went in for a hearing test. I was treated with respect from the second that walked in the door. Melissa met me at the front counter and took care of my needs in a very professional manner. I was tested and diagnosed for hearing aids. I was then fitted and when I returned back in 3 days my hearing life was changed. I now don't have to ask people to repeat what they said or have to guess an answer to a question that I really didn't even hear. Today I hear everything loud and clear. Life has completely changed for me. Thank you to Melissa and Mike at Long's Hearing Care!!
