Rosie The Riveter Costume Contest

Saturday, November 5
11 a.m. at Cullman Airport

\$250 prize for best costume

\$150 for second place

\$100 for third place

Saturday Evening Post cover by Norman Rockwell, 1943.

At the beginning of World War II, millions of men left their jobs for military service. During the next four years, over 6,000,000 women replaced them in the workforce. For the first time, women worked in shipyards, lumber mills, steel mills. They repaired the railroads. They became electricians, boilermakers, mechanics. They operated streetcars, buses, cranes and locomotives. They drove the tractors on the farms. And they did much more.

"Rosie The Riveter" became a term to represent all of the women workers, whatever their job.

So ... choose your occupation. Dress for the job as a "Rosie" would have done in the 1940s, come to the airport and join the fun.

Call Frances at 256-734-1532 (days) for more information. And watch the Shopper's Guide for a detailed schedule of all of the events going on in Cullman in honor of our Veterans.

Signature Smiles OF CULLMAN

L to R: Tammy, Anna, Dr. Marshall, Dr. Stidham, Sherri and Diane

In honor of breast cancer awareness month, Signature Smiles of Cullman is raising money in hopes of finding a cure through breast cancer research. During the month of October, Dr Marshall and Dr. Stidham will be having a friendly competition to raise

these donations. Each doctor will have a donation jar at the office, and whoever raises the least money will participate in a fun activity chosen by the other doctor, which will be recorded and posted on social media. Thank you in advance for your support!!!

BLUE TAG SPECIALS:
 We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
 Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Why do many so called Christians call Christ Lord (Rom 10:13) and worship doctrines that He taught against (Mt 15:9) when He is The Holy Truth (Jn 14:6) and changeth never (Heb 13:8)? Why call it Bible study and use verses against The Holy Father's Word, or call it Sunday school and teach of Christ, yet not believe His Words (Mt 5:17-19, 7:21-27, 16:22-24)? Why is it taught Christ knows man cannot live without sin when Christ said sin no more (1Jn 3:8-9)? Why are lies used to strengthen the hands of the wicked, that he should not return from his wicked way, by promising him life (Eze 13:22)? Why is Satan himself transformed into an angel of light and no great thing if his ministers also be transformed as ministers of righteousness (2Cor 11:13-15). So Be It!

Breast cancer patients undergoing treatment with trastuzumab - containing regimens should be monitored for heart damage regardless of age. This is among the findings of a new study published yesterday in the Journal of Clinical Oncology. Trastuzumab - containing regimens (commonly marketed as Herceptin) for breast cancer have significantly improved survival for breast cancer patients. However, this treatment is known to carry a risk of congestive heart failure which is particularly of concern when used along with anthracyclines (another class of drugs). Accordingly, treatment guidelines generally advise careful monitoring of older patients who are assumed to be at higher risk of heart events.

The U.S. Food and Drug Administration has approved Adlyxin (lixisenatide), a once - daily injection to improve glycemic control (blood sugar levels), along with diet and exercise, in adults with type 2 diabetes. Type 2 diabetes affects more than 29 million people and accounts for more than 90 percent of diabetes cases diagnosed in the United States. Over time, high blood sugar levels can increase the risk for serious complications, including heart disease, blindness and nerve and kidney damage.

Women under go more cesarean sections each year in the United States than any other major surgery, with the procedure carrying a significant rate of infection at the incision site. A new study in The New England Journal of Medicine suggests that rather than prepping patients with iodine-alcohol-a common antiseptic combination in C-sections-the research indicates that chlorhexidine-alcohol is significantly more effective. The researchers argue that the evidence is strong enough to change standard skin-prep practices for C-sections.

BLUE TAG SPECIALS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
