RANGER™ LIMITER

CANTRIL FEED & GRAIN

NOW CARRYING RANGER LIMITER FEED!!!

The RANGER™ Advantage...

- Predictable daily intake control system.
- Works great in self feeders.
- Keeps cattle green while they are growing.
- Provides economical gains when supplementing abundant, low quality forage.
- **New Technology...NO FISHMEAL!**

Use Ranger™ Limiter in nearly any cattle feeding operation where limiting intakes.

Condition Bulls • Replacement Heifers • Growing Calves • Cows • Creep Feeds

"We've been feeding Ranger™ Limiter for 4 years now. Accuration and Exact Beef just got too expensive for us. When you start out feeding 25% then have to up it to 35% to limit intakes it kind of defeats the purpose. Since the switch we haven't lost any weight at the sale barn and now more than ever customers are rewarding us for keeping them green. It was a miserable winter to feed and we lost zero calves out of 117 head. No bloat death loss also helps on the wallet."
