Cardiovascular Care

Drs. Cole, Naidu Celebrate New location at 2095 Florence Blvd.

by Patsy Glenn for the Courier Journal

There was a time when some folks felt they needed to leave the area to get quality heart care. However, with the partnership of Doctors Naidu and Cole, that's no longer true.

These highly-skilled interventional cardiologists joined forces in 2014 to offer the Tennessee Valley first rate care for not only heart issues, but vein and artery problems as well. What a relief it is not to have to visit one doctor for heart

issues and another for leg pain! After all, those problems are so often closely related. An interventional cardiologist is pro-active, seeking out the root causes of problems. He is not satisfied to merely collapse a

Straight Vote PLUS Three

SHOALS- Area voters who would normally vote a straight ticket in the general election if not for an exception or two in the other party can actually do both.

Voters CAN choose a straight Democratic or Republican ticket and also vote for up to three candidates that represent the other party, according to John Bennett, director of communications and deputy chief of staff for the Alabama Secretary of State.

Up to three exceptions to the straight ticket will count as individual votes for your few candidates of choice. All your remaining votes will go toward the candidates representing your preferred political party.

In the event you mistakenly select four or more candidates in the other party, your ballot will be rejected and you will have to start over.

Cardiovascular Institute...

Continued from Page 1

varicose vein; he wants to correct the underlying problem. He isn't willing to settle for handing his patient a pill for a heart flutter. Rather, he wants to repair it.

Dr. Cole and Dr. Naidu are the only doctors in this area who specialize in both leg pain and cardiology. In addition, they're the only cardiologists who are on staff at both ECM and Helen Keller.

These two are true pioneers. They introduced outpatient cardiac catheterization here

and were the first to implant MRI compatible pacemakers among other premier offerings. Dr. Naidu was the first in the Shoals to do vein compression and cardiac cath going in through the wrist instead of the groin. This cuts down on potential groin injuries and requires nothing more elaborate than a band-aid for healing.

The Cardiovascular Institute offers a wide range of services to meet the needs of its patients. They include cardiac stress tests, echo cardiograms, ultrasounds, and vein surgeries. They're also fully equipped to deal with wound care so many diabetics are among their patients. They have a full lab which enables all blood draws to be done in the office. These skilled physicians are able to test for neuropathy in arms and legs. Because neuropathy is not the only cause for discomfort, they also treat legs that cramp, swell, burn, or ache. They also aggressively treat deep vein thrombosis (DVT).

Dr. Cole graduated from Vanderbilt Medical School and Dr. Naidu graduated from City Medical College of New York. Both trained in Houma, Louisiana at what is considered the world's premiere cardiovascular center. Additionally, Dr. Naidu is a sought-after international speaker in his field.

Besides a trained physician, the things patients need more than anything are compassion and caring. They need to know their doctors are listening to them and respecting them. It only takes a few minutes of sitting down with Dr. Cole or Dr. Naidu for a patient to feel they're truly being heard.

No referral is necessary, so new patients are welcome to make an appointment for an office visit or a second opinion. Check out their website at www.shoalsheart.com or call 256-766-2310. Like them on Facebook at Cardiovascular Institute of

the Shoals.

Most insurances are accepted including Medicaid and TennCare.

They're the only ones who can connect everything and do it all - right here in the Shoals.

group of volunteer coaches who take time away from their families and their personal lives to spend three evenings per week and every Saturday during the football season to coach, support, and encourage their players. On September 14, 2016 the Baby Falcons held their first annual homecoming pep rally which was a great success.

The Baby Falcons Sophomore (8 & under) and Senior (12 & under) Football Teams are currently ranked #1 in the Tennessee Valley Youth Football League. Both teams are also ranked #5 in the State of Alabama. They have earned an automatic bid to compete in the SEC Youth National Championship in Atlanta, GA on December 9-11. We are currently holding fundraisers and seeking donations from local businesses and individuals to assist with expenses related to this trip including transportation, lodging, and food for the players. Our overall goal is \$8,000.

Your contribution is tax deductible and will assist in getting our boys the continuous recognition that they deserve and have worked so hard for. Checks can be made payable to the Florence Baby Falcons and may be picked up or mailed to 103 Britt St, Florence, AL 35630. Donations can also be made online via gofundme.com/FlorenceBabyFalcons. 10 Tips to Help Fight Fraud or Stolen Identity

B. Grant McNutt
Managing Attorney

The world we live in has changed vastly over the past 25 years or so since we were introduced to the Internet. Many if not most of the changes were for the better, but as with anything there are also downsides. Unfortunately, the criminals of the world (or as my 6 year old calls them "bad men" of the world) have access to it as well and they have come up with many new ways to steal your hard earned money.

Here are just a few tips to help fight fraud and your identity from being stolen as follows:

1. Immediately report lost or stolen debit/credit cards to your bank, credit union, or credit card company.
2. When using an ATM, make sure you cover the PIN pad when entering your number.
3. When choosing a credit and/or debit card PIN number make sure that it is difficult to guess, but also easy for you to remember.
4. Do not reply to any e-mail, text, or phone requests for your social security number, credit or debit account number or any other personal information unless you trust the source.
5. Monitor your credit report, credit and debit card accounts, and statements for any unauthorized transactions.
6. Make sure you shred all your credit and debit card statements or financial documents before you throw them away.
7. Before making purchases online with your credit or debit card, make sure the website is secure and the company is reputable.
8. Update your computer anti-virus and spyware software regularly.
9. Please do not wire money at any time in response to on-line employment advertisements such as "secret shopper" or other "work at home" opportunities.
10. If you receive a check in the mail in response to an internet sale or any other internet transaction, do not deposit the check into your account. The check generally proves to be fraudulent and it may take days or weeks to discover. But once discovered, your bank will want the full amount of the funds you spent reimbursed to them. There are many variations of this scam, but please be wary of any funds that come in the mail from unexplained sources.

If your identity has been stolen, your credit ruined, or if you have any questions regarding Chapter 7 Bankruptcy, Chapter 13 Bankruptcy, stopping a foreclosure or wage garnishment, avoiding liens, stopping law suits, discharging debt, etc., we can help you!

Dennis and Judy Haygood in Huntsville had been considering a second location.

Hunt's officially became that second Bob Wallace location in September.

"Bob Wallace Appliance runs a good business with great people in Huntsville," said Bill Hunt. "They have the same philosophy that we did here. Customers who buy from them will be taken care of."

"Bill opened up the opportunity for us and we thought it was a great opportunity," Dennis Haygood said. "He has been successful there for 33 years, and we thought we could build upon that foundation."

The staff at Hunt's TV remains the same and so does the customer-first focus. "Their way of doing business fit our way of doing business," Hunt said.

"Our customers will be taken care of if they have any problems. It just seemed like we had the right people interested at the right time."

Dennis Haygood is a Florence native. He said Hunt's and Bob Wallace used similar means in weathering the influx of big-box stores.

"We're part of a nationwide independent group that has come together, and we get some pretty good deals from some vendors. That helps us tremendously to compete with the bigger box stores."

"The major thing is customer service," Haygood added. "We go the second mile."

The added volume of the second location will give Bob Wallace greater buying power as part of the independent group.

The Huntsville location is at 3005 Bob Wallace Avenue in Huntsville.

Celestial Thoughts

Ladies, this is going to be a little secret to help you with your relationship with your guy. The secret is: men need respect like we need to be loved. Sometimes we may not feel like doling out respect, but there are times the man in our life doesn't feel like acting in love toward us. Do it anyway. What does respect look like? Cooking a delicious meal, bringing him a drink when he's working outside, thanking him for providing for the family, praising his efforts when he helps around the house, etc. If you have a mentally healthy (not toxic) man in your life, he will respond to you in wonderful ways when you meet his need for respect. Next time, I'll have a little secret for the men. Until then...

Commentary

It's Challenging, But Not Difficult

The 45th President of the United States is not going to be excessively popular early-term no matter which one is elected. Those of opposing ideologies will be inconsolable. Many with similar ideologies will be equally thankful and apprehensive regarding what awaits this country in the next four years.

Ninety percent of voters understand we have some seriously flawed options.

With all that has transpired in the last few months, it appears evident that Trump's proud history of sexual advances and the resulting array of accusers (legitimate or not), are more salacious than the continued daily revelations of Hillary's corruption and dishonesty.

We live in a warped world when it has become monotonous to hear another example of fraud, perjury, or treason by a presidential front-runner. The public can be enthralled as the media throws another barb at Trump for sexual advances, many of which are being debunked as quickly as they surface.

I'm not sure what is so surprising about the accusations against either candidate.

So much sleaze and dishonesty at the highest level has forever skewed our perception of right versus wrong and acceptable versus unacceptable. It's not like we needed that high-profile boost. We were already on an

White is a Great Patriot

To Editor:

This letter is a response to the recent letter writer who wanted Euell White to man up about who he was voting for.

First, let me say Major Euell White is a highly decorated veteran of the Vietnam War. He served two tours in Vietnam and was so severely wounded that it almost cost him his life. He spent several weeks in a military hospital recuperating from his wounds. Major White is a master parachutist with over one hundred jumps to his credit.

Major White is one of the greatest patriots I have ever known. He also holds a doctorate degree in Christian

counseling. I would gladly go into combat with Euell White at my side. I too am a veteran - of the Korean War. So I don't think Euell White would have any problem with manning up about anything.

I wish our country had more people like Major Euell White.

He's Your Grown Child

Editor:

Republicans, Conservatives, and Tea Party Baggers lend me your ears. I have

not come to condemn Donald Trump, but to praise him and yourselves. You have conceived a child and birthed him. You nurtured him throughout his childhood and on into adulthood. You alone set the stage for his position at the head of your party, and your family. You have encouraged him in his failures and stood beside him during his most outrageous moments, actions, and comments. This is your child. All grown up. He is yours.

No one can deny your defense of him in what was called the Clown Car Primaries. You put your worst people forward in your party to make Trump look like a leader. Well, you have succeeded. Too bad you gave him no direction, no map, and no guidance when he was but a child. This is now the best of you. Your pick. Your Promise to America to make an already great nation 'Great Again'.

And now I see that some of you are embarrassed by him with what he says and does, and what he may have

You have created the biggest oxygen breathing jerk in the history of this country.

IN MY BUSINESS, WE GET the same questions day after day. I thought I'd share some of those with you guys. So without further adieu:

Q: Why did my hard drive die?

A: Hard drives are mechanical devices utilizing a spinning platter that has a read/write "head." It operates similar to an old-school record player but uses a magnet instead of a needle. The bearings in the platter can wear out making the hard drive spin slower which can make your old computer seem slow. Sometimes, the motor gives out and the platter just doesn't spin at all. This is very bad news for your data. Then the platter itself can also develop bad spots

Fisher

JUST THE FAQs

by "The Computer Skeptic"

over time. Your computer then "trips" over these bad spots making the computer lock-up or run very slow. Those of you with laptops should stop moving your computer around while it is on. Moving the laptop while it is on causes bad spots on the spinning platter. Once you have enough of them, bad things happen. Always make backups only of the stuff you want to keep.

Q: I have a big message on my display that says I need to call Microsoft or bad things will happen.

A: Turn your computer off. You may have to press and

hold the power button for a few seconds if your computer is locked up. Turn it back on and I bet the problem is gone. In our experience, this annoyance is only temporary and leaves nothing on your computer that you should worry about. To avoid this in the future, stop visiting whatever website you were on when the "error" appeared. Above all, **DO NOT CALL THESE PEOPLE** (see next question).

Q: I let someone take remote control of my computer before I realized it was a scam. What do I do?

A: As long as you didn't give them your money, you're probably OK. In our experience, the scammers do no harm to your computer other than trying to convince you that your computer has horrible problems in repairs. Everything they will tell you is a lie designed to scare you.

Q: Why do people make viruses? Can't we send them to prison?

A: A few years ago, hackers sought recognition and fame-sort of the digital equivalent of smashing mailboxes when I was a stupid teenager. Today, these criminals use malicious software to steal money from their victims. Viruses and worms are usually used to take control of your computer with the aim of using it for fraud without your knowledge. They will also install spyware to gather your

personal information when you surf the Internet. A hacker could obtain your password to access your bank accounts, or your credit card number when you make online purchases. Unfortunately, these people are pretty savvy at hiding their identity so prosecution is difficult. The worldwide internet also makes it easy for a criminal in Russia to rob your computer in the US, making prosecution difficult or impossible.

ASK THE ATTORNEY

Thomas McCutcheon

Ask the Attorney is sponsored by local attorneys, McCutcheon & Hammer, PC, as a service to the residents of NW Alabama.

Q My husband is an electrician and was recently injured on the job. He was working on scaffolding inside a plant when another contractor operating a forklift ran into the scaffolding knocking it over and injuring my husband. My husband's employer's workers compensation insurance has paid all of his medical bills and is paying a portion of his wage while he is off work. Recently, we were contacted by the adjuster and asked if we were going to pursue a claim against the person operating the forklift. The adjuster told us that we have a third party case. Can you please explain what the adjuster is talking about?

Peggy, Tuscumbia, AL

A Peggy, thank you for your question and I hope your husband is making a speedy recovery. Most of the time when a person is injured on the job, they only have a claim for workers compensation

benefits. This is called the "exclusive remedy." In other words, Alabama law only allows an injured employee to sue his employer for workers compensation. If, however the employee's injuries are caused by a third party, i.e. someone other than a co-employee, the injured worker may pursue a traditional case of negligence.

An injured worker's recovery under Alabama's Workers Compensation Act is very limited. The injured worker is only entitled to payment of medical bills, payment of 67% of his average weekly wage while recuperating, and payment of permanent partial or permanent total disability benefits based upon the workers future loss of earning capacity. Permanent partial disability benefits are capped at a maximum of \$66,000.00. Permanent total disability benefits means that the injured worker will recover 67% of his gross average weekly wage for the remainder of his disability or life. There is no recovery for lost wages, pain and suffering, or any other form of compensatory or punitive damages, if warranted.

In a third party case, however, the injured worker's damages are not subject to a cap. The injured worker may recover compensatory damages such as lost wages, loss of enjoyment of life, loss of future earning capacity, pain and suffering, and mental anguish just to name a few. In addition, if the conduct of the person who caused the accident was so bad, for example, they were intoxicated, punitive damages may apply. As you can see, the monetary recovery is so much greater than anything one can expect to receive from workers compensation.

Based upon the details of your husband's accident that you provided in your letter, it would appear from first glance that he definitely has a "third party" case against the driver of the forklift. Tom and I have handled these type cases throughout Alabama and the Southeast. If you and your husband have not spoken to an attorney who has considerable experience handling these type cases, I would encourage you to do so as soon as possible. Remember, you only have two years from the date of his accident to have either filed suit or settled the case or it may be barred forever by the applicable statute of limitations.

Remember, buckle up and drive safely.

Please send the questions to:
"Ask the Attorney,"
P. O. Box 38, Florence, Alabama 35631
or visit our website at: www.mhatty.com
facebook: McCutcheon and Hamner, P.C.

We will not print your full name in the article. We will not be able to return any written or preprinted items which are submitted.

THE BOLD AND THE BEAUTIFUL Steffy and Wyatt shared an awkward moment as they came face-to-face for the first time since their breakup. Despite her fight with Zende, Nicole was determined to follow through with her decision to assist Maya and Rick in having another child. Sasha tried to cheer up a heartbroken Zende, but his thoughts were solely on Nicole. Now living under the same roof, Wyatt and Ivy put their negative history behind in support of Eric and Quinn. Steffy took drastic steps to move forward from her life with Wyatt and moving in with Liam. Maya gave her

sister an chance to change her mind about being her surrogate. *Wait to See: An olive branch is extended between rivals, but with strings attached.*
DAYS OF OUR LIVES Chad confronted Hope about killing his father. Time started to run out for Marlena and Kayla. Andre unexpectedly offered a helping hand. Jennifer and Adrienne decided to buy "The Spectator." Theresa received an unexpected visit from Shane. Philip shared some stunning news with Nicole. Deimos tracked down Nancy, demanding information about Chloe. Theresa realized that she had a difficult decision to make. Justin was angry when he

found out about Jennifer and Adrienne's latest business venture. Nicole called Chloe, demanding answers. Philip realized that he wanted to be with Chloe. *Wait to See: Chloe confesses her secret to Philip.*

GENERAL HOSPITAL Alexis continued her downward spiral. Nelle was shocked by a letter from her past. Griffin turned to Anna for help. Hayden made her feelings clear to Finn. Franco struggled to contain his jealous nature. Alexis had an unexpected visitor and later revealed her private intentions to Sam. Anna took matters into her own hands. Nelle misinterpreted something she overheard. Nathan and Maxie were floored by Nina's news. Carly was not impressed with Sonny's gesture. Jason resolved to get some answers regarding Morgan. Ava received a chilling message. *Wait to See: Ava is stunned when she learns who sent her the mysterious text.*

THE YOUNG AND THE RESTLESS Chloe encouraged Chelsea to move forward and live the life she deserved. Natalie told Kevin that she wasn't doing anymore computer hacking while she worked for Victor. Sharon was worried about Nick since it was the anniversary of Sully's death. Ashley tried to convince Stitch that he and Abby might still have a chance together. Abby was mortified when Stitch confronted Travis at the restaurant in front of her. A drunken Natalie told Billy that Victor was setting up Jack with the leaked documents. Meanwhile, Phyllis tells Jack that Victor is setting them up. *Wait to See: Ashley reconnects with someone from her past.*

Medicare Minute

"Medicare Advantage Plans Part 3"

A Medicare Advantage Plan (MA) is a type of Medicare health plan offered by a private insurance company that contracts with Medicare to provide you with all your Part A and Part B benefits. There are six things to consider when choosing a MA plan. We discussed three of those things last week; the premium, copays and coinsurance of the plan. This week we will talk about deductibles, provider networks and drug formularies.

A deductible is the amount you are required to pay for your health care services before your health insurance begins to pay. Most MA plans do not have a deductible on services as long as you receive the services from an in network provider. If you receive the services from an out of network provider you may have to meet a deductible before the plan pays or you may not have coverage at all depending on the type of plan you have.

The provider network of the plan is a list of doctors or health care facilities that have agreed to accept the plan. If you are considering a MA plan for the first time you will want to verify with your agent that any doctor or facility you may want to visit is in your plan's network. If you are already in a MA plan you will want to verify with your doctor that they will accept the plan in 2017.

A MA plan's drug formulary is a list of drugs that are covered by the plan. This will include the tiers and copays of the drugs and any deductible you may have to meet on the prescriptions you are taking. Don't overlook the formulary of the plan because MA plans do not cover every prescription drug that is manufactured.

If you have questions regarding any aspect of Medicare or Medicare health plans feel free call us at Alabama Health Guidance (256-284-7249), stop by our office at 879 Florence Blvd (Four Lane Shopping Center) or email me at ikey@alabamahealthguidance.com. done in the past. How can this be? You raised him without discipline. You gave him a huge allowance to do with as he pleased. You put him into a 'special school' and now you run from him. Mom and dad conservative, this is your son. You have created the biggest oxygen breathing jerk in the history of this country. You deserve him. And if you vote for him and he wins, I indeed hope you reap what you have sown. As for the rest of us, it's our country too. And I hope you damn well never forget it.

What Difference Does Your Vote Make?

Editor:

Many statements have been made about both Hillary Clinton and Donald Trump. We know many to be true. However, many are just accusations, innuendos, etc. Disregarding this and much of the political hyperbole, Americans should vote for the Constitution.

The future of the Republic and freedoms guaranteed under the Bill of Rights:

Freedom of Religion (a secular society is on the agenda), The right to bear arms (whether you wish to do so or not), the Supreme Court interpreting laws in progressive terms (Hillary has stated, it is a living document, thus subject to interpretation to fit the times) is what your vote on November 8 is really about. The appointees to Supreme Court by the next President by their decisions will determine the future of this country! Consider this when you cast your vote.

The Alternative is the 'Crap'

Editor:

I don't know Euell White, but, I believe I have read almost all his articles and letters over the past two years and I have to say that I agree with almost everything I have read. I am very grateful to him for reminding us of the extreme importance of who will lead our country for the next four years.

Mike Hester has challenged him to endorse Donald Trump since he opposes Hillary Clinton based on what Mike calls

Euell's religious reasons/crap. I can't speak for Mr. White, but I know that I don't endorse Donald Trump. I am going to vote for him because the only alternative we have would be more disastrous to our country and to Christianity.

Our President said several years ago that the United States is no longer a Christian nation. Since then he has kept one of his many promises that he will fundamentally change America. We have seen the results with much sorrow and helplessness.

I will never place my allegiance to a political party above the commitment I have to my Creator. I am not pleased with Mr. Trump's alleged lifestyle of decades ago, but it is far less offensive than Bill Clinton's. However, the prospect of Hillary's appointment of several Supreme Court justices and hundreds of Federal Court judges across America would end any meaning to our Constitution. The corruption of the Clintons over the past 35 years would continue and be the last nail in the coffin.

I plead with all Christians to read the Democratic platform to see if it conforms to your beliefs or to God's instructions to His people. What we don't know about Donald Trump is far outweighed by what we DO KNOW about Hillary Clinton.

Please, for the sake of our families and our country, vote for the only choice we have.

No Power With the People

Editor:

There is no doubt as we look forward to election day that we are a divided nation. Yet, with these divisions on so many issues, there are unifying issues, too. That's why I, a long-time conservative political strategist, and Tom Butler, a former Democrat State Senator, gathered in Huntsville on Thursday to talk about how we can return influence to the people. At a time when politics becomes more and more polarizing and personal, there are core issues on which all of us can agree - campaign finance reform and keeping the power of government with the people. Power needs to rest with the people so that legislators and candidates alike serve people over special interests. However, voter turnout continues to drop. Yes, there are issues with the candidates, fatigue over broken promises from Washington, and a general frustration with the system. Yet, we have found that none of those is the primary driver of voter malaise. What if we learned the

Wake Up America!

We are seeing today the efforts of the Super-Rich to control America. Their goals are the number one threat to America, closely followed by the national debt, which is closely tied to the first threat.

This control is being done through control of the news media, through foundations and liberal non-profit organizations which act as their surrogates so their masters can stay in the shadows, and through organized social media—particularly twitter—whereby “virtual flash mobs” can be used to quickly intimidate anyone that dares to oppose them. Due to its instant messaging, virtually no cost, and widespread use by vulnerable young people, social media has become even more important than the traditional news media.

But the traditional news media still holds sway with the older generations. In the lead in this effort are billionaires Warren Buffett, Tom Steyer (hedge fund manager), Michael Bloomberg, Pierre Omidyar (eBay founder), and George Soros's son Jonathon who since 2000 have collectively contributed \$2.7 BILLION to liberal groups. Together they represent \$109 BILLION in assets.

Buffett owns 75 small and mid-sized newspapers in the US. Omidyar and Bloomberg also own similar media empires. Steyer and Soros have heavily funded liberal media including Media Matters, Think Progress, and Mother Jones. In the election swing states, this group controls 88 total media outlets.

Buffett started buying up newspapers in 2012, paying over \$344 million for 28 of the 75 papers he purchased. As of July 2014, 46 of his 75 papers were located in strategic markets in the swing states of Florida, North Carolina, Virginia, and Iowa. Why would a smart investor makes major investments in an industry that was considered to be dying? In fact, Buffett even told his shareholders “the circulation, advertising and profits of the newspaper industry overall are certain to decline.” Buffett went on to say that the reason for his investment was “news, to put it simply, is what people don't know that they want to know.”

However, the key to much of the current social, civil, and political turmoil in the US can be traced to one person—George Soros—who has a net worth over \$23 billion. So far, none of the five liberal donors listed above have matched Soros' overall charity contributions of more than \$9 billion. Soros funds at least 180 media-related organizations that reach more than 330 million people each month. The website “Introducing George Soros” lists roughly 80 liberal organizations that Soros supports with hundreds of millions of dollars (<http://www.discovethenetworks.org/individualProfile.asp?indid=977>).

Among the beneficiaries of Soros's money and influence are such entities as ABC, ACLU, MSNBC, National Association of Hispanic Journalists, NPR, NBC, New York Times, Washington Post; the Occupy Wall Street and Black Lives Matter (\$33million) movements, and others. Soros's funding has also gone to individual newscasters, journalists and journalism schools, as well as to various media organizations as shown in the above website. According to the Capital Research Center, “Through his philanthropies Soros has given more than \$100 million to U.S.-based groups that support “immigrant rights,” immigration amnesty, and open borders since 1997.”

Soros makes little effort to conceal his contempt for America. He openly favors the collapse of the greenback and the decline of America in general. “The main obstacle to a stable and just world order is the United States,” he has said. “One can see on YouTube some results of Soros's work in building the Black Live Matter (BLM) movement. Videos taken in Milwaukee and Charlotte during BLM “protests” graphically show blacks looting stores and severely assaulting innocent white people who happen to be in the area.

USA News Insider posted a Soros interview on its website on September 18, 2016 stated that “Soros has said of himself that ‘normal rules do not apply’ to him and that he is a ‘self-centered’ god.” He has made similar statements about himself in other venues.

Soros became one of the biggest names in liberal fundraising circles after donating \$24 million to Democratic groups working to oust President George W. Bush in 2004. Frustrated by his inability to block the re-election of Bush, in April 2005 Soros led a group of 70 millionaires and billionaires in Phoenix, Arizona, for a secret long-term strategy session in which the Democracy Alliance was born. For those in attendance, “84 percent thought the conservative movement was ‘a fundamental threat to the American way of life.’”

A briefing book from the Democracy Alliance lays out there agenda to fundamentally change the American political system over such things as who can vote, what courts should look like, and the role of money in politics. One of the Democracy Alliance's goals is to channel the donations of wealthy liberals into 172 liberal groups that make up a “Progressive Infrastructure Map.”

Soros is also a member of the Council of Foreign Relations (CFR). According to Admiral Chester Ward, former Judge Advocate of the U.S. Navy, and a former CFR member for 16 years before resigning in disgust stated “The main purpose of the Council on Foreign Relations is promoting the disarmament of U.S. sovereignty and national independence, and submergence into an all-powerful one-world government.”

In an article published in The New American in July 2009, the effect of the CFR was summarized as follows: “As long as the CFR controls our government, we can anticipate more of the same: diminishing national sovereignty; free flow of immigration (which confuses national identity and weakens national loyalties); increasing jobs losses through multinational trade agreements; further internationalization of law (Law of the Sea Treaty, Kyoto Protocol, World Court, global taxation, etc.); increasing loss of freedoms in a “surveillance society”; progressive organization of the United States, Mexico, and Canada into a North American Union; and ultimately, broader merger into a world government where all power will be concentrated in the hands of the elite.” Remember Hillary's leaked emails talking about her desire for a Western Hemisphere free trade zone. “Economic integration” is the predecessor of political integration.

The article goes on to state: “Two major means the establishment employs for controlling government policy: (1) through its influence within the two major parties and the mass media, it can usually assure that both the Republican and Democratic presidential candidates will be its own hand-picked men; (2) by stacking presidential cabinets with CFR members at key positions — especially those involving defense, finance, foreign policy, and national security — it can assure that America will move in the direction it wants.

Now Soros has decided that he is going to use his wealth to control America through the Clintons, who are long-time friends and beneficiaries of Soros. In 2013 it was announced that Soros would serve as a co-chair of the Ready for Hillary super PAC's national finance council. WikiLeaks recently reported that Soros issued directives on foreign policy to Clinton when she was Secretary of State, and that Hillary followed them to the letter. Soros has also been to the Obama White House at least 10 times.

The Clintons have modeled the Clinton Foundation after Soros's many Open Society Foundations and have learned well. Anybody that reads about the corruption detailed in the books Clinton Cash (author Peter Schweizer) and Crisis of Character will never vote for Hillary. The latter book was written by Gary J. Byrne, a Secret Service Uniformed Division Officer who was stationed at the door to the Oval Office during the Bill Clinton presidency and was in a position to see the corruption firsthand.

Regardless of whether Democrat or Republican, race, gender, ethnicity, age, religion, or any other classification, every voter needs to be aware of the serious consequences of their vote on November 8. Trump's misdeeds, although serious, pale in comparison to the goals of the elite to take over America.

of the dangerous myths surrounding it.

“Food soothed an ache I couldn't name, a pain I couldn't describe,” says Lee in her book. It was not until she was diagnosed with binge eating disorder (BED) in 1998 that she began to understand that her destructive eating pattern was not the result of some shameful character flaw.

Binge eating disorder affects more than eight million Americans and is the most prevalent eating disorder in the United States. It is more common that anorexia and bulimia combined. For more information about this event, call 256-764-6564, ext. 28.

Mars Hill Superstar

There have been many great athletes to come through Mars Hill Bible School in their illustrious athletic history. Tony Willis left a legacy at the school that eventually landed him in the Lauderdale County Sports Hall of Fame. Willis competed in both basketball and track for the Panthers.

As a senior, he won three gold medals at the state track meet in the 400-meter dash, the 300-meter hurdles and the 4X400 meter relay. He also captured a bronze medal in the high jump. As a senior, he was ranked No. 1 in the 1A-6A decathlon the entire year. Willis will be most remembered by Panthers fans as one of the all-time greatest basketball players at the school.

His achievements included earning All-State, All-Region, All-Area and All-County honors. The TimesDaily named him to their All-Area team in 1988 and 1989. Willis scored over 1,000 points in his career and during his senior season, he averaged

19 points and 10.4 rebounds per game. He is one of only a few players in Mars Hill Bible School history to average a basketball double-double.

He signed a basketball scholarship with the UNA Lions. After college, Willis coached at Mars Hill for 12 years and recorded over 250 wins. His resume includes coaching eight area champions, two county champions, six regional tournament bids and one state runner-up team. He was selected to coach the 2001 North team in the North-South All-Star game.

Willis also coached one track State Championship team in 1999 and three state track runner-up teams in addition to one cross-country state runner-up team. As a player and coach, Tony Willis' legacy will always be among the best in the history of Mars Hill Bible School.

by DAVE RAMSEY

**RETAINED EARNINGS
 ARE A MUST**

Dear Dave,
 My husband owns a small landscaping and masonry company. His profits over the last couple of years have been about \$80,000 annually. We were wondering if we should be setting aside some retained earnings.

Kim

Dear Kim,
 Yes, all businesses should have retained earnings. In the personal finance world, we would call that an emergency fund. It can be difficult in the business world sometimes though. You're talking about running a business, making a profit, feeding your family, and saving money in the business. This isn't an easy process no matter how long you've

been in business.

One way to solve the problem, though, is to take a percentage of your profits at the end of the month and set it aside for retained earnings first. Do this before you take any profits home or distribute them under a profit sharing plan. It doesn't have to be a big percentage, but you should be setting money aside every month for the company.

The beauty of doing this is you'll have money sitting there to replace equipment and other expenditures down the road. Just remember that it's all taxable. Whether you're in an LLC, Sub S Corp or sole proprietorship, any money you make as profit — whether you take it home or not — is taxable. So your retained earnings may be saved, but they will be reduced by the taxes on it each year.

Anything you do in business requires money, and to avoid going into debt you're going to need retained earnings. Good question, Kim!

— Dave

BE PROFESSIONAL

Dear Dave,
 I'm about to turn in my two-week notice after 17 years with my company. It's a small business, and everyone is like family, but the last raise I received was 50 cents and that was 10 years ago. I've always worked hard and done my job well, but I need to move on to a better-paying position I've found. Do you have any advice on how to handle this situation?

JT

Dear JT,
 Leaving people you care about is always hard. It sounds like they could have treated you better in terms of financial compensation, but things might have been just too tight. Regardless, this is a situation where you have to put yourself and your family first.

First, accentuate the positive. Let them know that your time there has been like working with family and you appreciate everything they've done for you. If they ask you why you're leaving, be honest but kind. Let them know that your income wasn't changing for the better, and you have to take another position with better pay. Let them know, too, that you fully intend to honor your two-week notice unless they would rather you didn't.

It does no good to throw stones over your shoulder as you leave, JT. That kind of thing says more about you than it does about them. So just show a lot of gratitude

and kindness. It's going to be a tough situation emotionally for all concerned, so do your best to make it professional, honest and friendly.

Commentary

But Not Difficult...

Continued from Page 14

accelerated pace in that regard.

This election comes down to what we need as a country to survive. It's about Americans' gainful employment, maintaining national security, controlled immigration, disemboweling the core of the larva-infested so-called Department of Justice, and reestablishing some constitutional integrity. That includes making sure the Supreme Court follows the established Constitution and not the living, breathing version of their utopian dreams.

One of the top presidential candidates may be a little crazy, a hyperbolic blowhard, an ego-maniacal womanizer with his wife du-jour who thinks he is in his forties. He has never had to struggle in life and places himself well above others on the plateau of importance, fabricating often for statistical emphasis.

Trump may have left others holding the bag on his bankruptcies. I don't like it one bit. However, claiming bankruptcy or taking a tax break on a failed business venture is legal. People do it every day to various degrees. Some of us may have taken advantage of those laws and loopholes as well to a lesser extent.

Just because we are not famous, we're just as guilty... and we're just as legal. Now, if we don't like the law we should change it rather than demonize someone who follows the law and takes advantage of the opportunity to expand in another direction.

The other top candidate is a vengeful, ruthless, profiteer, who does whatever it takes to win and get ahead whether legal or

illegal. She plays on class warfare and fomenting distrust between the various political constituencies. She simultaneously criticizes affluent Americans for not sharing with neighbors while she knowingly undercuts funds to earthquake and storm ravaged countries from her own family's 501-c foundation.

For thirty years there has been no shortage of former administration and Secret Service officials who have been harshly critical of Clinton. They have referred to her as a volcanic, vindictive, hatemonger who steps on people like insects to get where she wants and doesn't have the temperament or integrity to work with others.

Only one candidate is focused on America's needs

and inspiring excellence and productivity at every level. Neither can be considered a practicing Christian, but only one won't try to penalize you for faithfully being one.

Donald Trump is also staunchly opposed by the national media and the Hollywood left - both of which are firmly in bed with the Clintons. He is also opposed by lukewarm conservatives and hard left progressives. His campaign is largely self-funded, so he has his own skin in the game AND he owes no one for anything.

That's a striking variation from the norm, and it scares a lot of lobbyists and corporate big-wigs to their core. That alone makes Trump an interesting option, one who deserves a serious look.

Remember, It's your choice, so ask for us by name!

No Power With the People

Continued from Page 29

reason people had lost faith in American democracy was money?

Increasingly, voters feel overwhelmed. They are convinced that their vote makes little to no difference. Sadly, many see their officials chasing dollars, swearing fidelity to the special interests capable of funding their campaigns, and forgetting to cherish the voters who bestowed their trust upon them.

We are committed to finding a solution. Dozens of proposals have been put forward, from strengthening enforcement to reducing the length of our election season, from public campaign financing to incentivizing small individual donations. As advocates on the right and left, we don't agree on all of them. However, we do agree on the need to begin the discussions to get the people back into the process. One such proposal is hopefully on its way to becoming law. HR 4177 amends the Federal Election Campaign Act of 1971 to prohibit elected officials and campaign committees from accepting any internet credit card contribution unless they can be identified as coming from a United States citizen. HR 4177 is gaining support from those congressmen who believe in preventing the selling out of our Democracy.

Not long ago, politicians believed that votes won elections. Now, the accepted thinking is that money wins' elections. Fundraising has replaced vote totals as the new yardstick for measuring the strength of campaigns. This is exactly why so many Americans find themselves irrelevant to the electoral system. Therefore, they've walked away. To save our democracy, we must bring them back.

So Grateful for the Outpouring

To the Editor:

We have been deeply touched at the out pouring of love from our family, friends and community during the recent loss of our precious D-Rock. We want to thank you all for your words of comfort and acts of kindness during this difficult time. As some of you are aware, he didn't have insurance of any kind. He has left two young children and a large medical bill behind. The family asked in lieu of flowers a donation be made to a memorial fund to help with

expenses. At the time of his service we had not been able to accomplish setting up the fund and had several people ask we let you know when it was established. We have finally set that up at Listerhill Credit Unions where D-Rock was a member. Any donations will be greatly appreciated. Please make checks payable to "Derek Green Memorial Fund. Again, thank you all for being there during this time. Your kindness has been greatly appreciated. Please continue to keep us in your prayers.

Florence Housing Authority Housing Choice Voucher Program Wait List Announcement of Opening & Guidance and Instructions

Florence Housing Authority Housing Choice Voucher Department will accept preliminary applications for the Housing Choice Voucher program (formerly Section 8 Existing Housing) through the Authority's Applicant Portal which is located on the Authority's website, www.flohousing.org. The open period for preliminary applications shall be 12:01 a.m., Tuesday, November 1, 2016 to 11:59 p.m., Tuesday, November 15, 2016. The Authority reserves the right to extend the open period for any time frame deemed necessary without additional notice. This is a "date and time" created Wait List. There is an advantage to returning a preliminary application at a specific time. Please visit the Authority's website prior to the open date to familiarize yourself with the "Apply Online" button located on the front page of the website.

Once the wait list opens, the portal will be available 24 hours per day until the Wait List closes. The preliminary application can be completed from any computer or cell phone with Internet access (e.g. home, library, community-based organizations). There are also computers available in the lobbies of all of the Authority's Property Management Offices and the lobby of the Housing Choice Voucher Department located at Magnolia Gardens I, 110 South Cypress Street, Florence, AL. The Authority receives many more requests for

assistance than the number of vouchers available. All applicants are placed on a Wait List. A determination of program eligibility will be made at the time the applicant is selected from the Wait List. The Authority will choose names from the Wait List in order of their placement and according to HUD guidelines. Only one preliminary application per applicant will be accepted. Incomplete preliminary applications will be rejected and not entered on the Wait List. It is the sole responsibility of the applicant to maintain a current address with the Housing Choice Voucher Department to continue eligibility. Once the applicant completes and submits their preliminary application online through the portal the applicant is prompted to print their confirmation page which includes the confirmation number. The confirmation number is not emailed but is presented on the screen for either printing, taking a screen shot of or writing down by the applicant. It is strongly recommended that the applicant do this and keep it in their possession until being contacted by the Authority when they reach the top of the Wait List.

Once a voucher becomes available, the next applicant at the top of the Wait List will be contacted by the Authority with further steps in the process. If assistance is required to complete the preliminary application, resources for assistance will be available through the Housing Choice Voucher Department.
