Propane Prices Got You Down?

Yank the Tank!

Natural Gas will save you money!

• Dependability: Since the vast majority of the natural gas system is underground, it is not typically affected by inclement weather or other transportation problems. Always there when you need it.

• Monthly billing: No more large bills due when the tank is filled, you will receive a monthly bill.

• More economical: Operating cost for Natural gas equipment is substantially less than propane.

▶ If you used 800 gallons of propane last year at \$1.50 per gallon, you spent \$1200 for fuel alone.

▶ Using natural gas, your fuel cost for the same amount of energy would have been approximately \$519
