# SPEAK OUT

Dear Speak Out,

The time of the year has come to celebrate the Birth of Jesus Christ. Christ is Christmas and what a birthday to celebrate. Let's remember this is the most special birthday of all, and a Merry Christmas that's always remembered.

Holidays are all year long. Please, my dear people, wish anyone a Merry Christmas, not Happy Holidays. This is a precious birthday of our Lord Jesus Christ who made this world, everyone, and everything in this world. Where would we be without "Jesus".

Remember, God is a good God and a loving God, to us all that have a great love and care for Him. He forgives us all our wrongs and blesses us.

"Jesus" is the reason for this season and nothing else. Through Him all things are possible. Remember "For unto us a Child is born, unto us a Son is given, and His name will be called Wonderful, Counselor, Mighty God, Everlasting Father, Prince of Peace". Isaiah 9:6. So, please my dear friends, let's celebrate the Birthday of Jesus Christ and a Merry Christmas. May you all have a Blessed Merry Christmas with the Love of Jesus in all your hearts.

God Bless you all  
and Merry Christmas,  
Dorothea DioGuardi

Deborah Palermo Brown

## An Author Among Us

Deborah Palermo Brown's journey has been one with many adventures. A 1971 Mount Morris Central School graduate, Debbie then earned a Bachelor's Degree in Nursing from Alfred University. She later met her husband in Henrietta, New York, where they were both fire fighters. Currently, Debbie is an active member of the Mount Morris Fire Department.

In 2016, Debbie added the title of "authoress" to her resume when she completed her new book "Bonnie and Red." The book was written in honor of Bonnie Foote Turner, her deceased cousin. Not only is the book a poignant tribute to an unforgettable lady, it's an entertaining reminiscence of the madcap adventures of two young girls.

In addition to writing her book, Debbie self-published the manuscript. As a result, she created **Red Spider Books**. When needing illustrations for her tale, she immediately thought of Gary Better, a 1967 graduate of Mount Morris Central School and a prominent local artist. Gary's paintings and signs can be viewed throughout Livingston and Wyoming Counties.

Since its publication in June of 2016, Debbie's creation has sold many copies. She's considering future writing endeavors as well, but for now, "Bonnie and Red" remains dear to her because of the eternal bond she shared with her beloved cousin Bonnie Foote Turner.

A great Christmas gift for both young and old, books are \$10 each and may be purchased at the Mount Morris Shopper or by calling Deb directly at 704-2175.

## WISDOM TEETH

Wisdom teeth, also known as "third molars," are the last teeth to develop and erupt into the mouth. Unfortunately, they are the most common teeth to be 'impacted' or unable to fully erupt between the ages of 15-20, but can be seen earlier or appear much later in life. Impacted teeth are not able to erupt through the gum tissue fully or at all. This can be due to many reasons, including lack of room for the teeth (jaw growth), malposition of teeth or pathology. Nearly everyone has at least 1 impacted wisdom tooth.

### Why are wisdom teeth removed?

There are many reasons wisdom teeth require removal; These include pain, swelling, infection, orthodontic treatment, periodontal disease, cavities, shifting of teeth, age and pathology (such as cyst development). If not removed, impacted wisdom teeth could lead to damage of adjacent teeth or cause infection, which is a very common reason that they are removed. If they do erupt fully, they often are difficult to clean and maintain, have bacteria associated with them which can lead to systemic infection and illness that can affect the heart and make management of other illnesses such as diabetes more difficult. If the teeth remain impacted as people age, other pathology can develop, such as cysts and tumors. Management of these situations is often compromised by anatomy and other medical concerns. Pain-free does not mean problem-free or pathology-free. If the wisdom teeth erupt fully, are hygienic and without pathology, proper follow up is in order with periodic exam and x-rays.

### What is the best age to remove wisdom teeth?

Studies have consistently shown that removing wisdom teeth in the teen years is by far easier for patients. This is due to bone being softer, roots not being fully developed, better healing process, and an essentially uncomplicated or benign medical history.

### Oral & Maxillofacial Surgeons and Wisdom Teeth

If you have been recommended to have your wisdom teeth removed, you will most likely be referred to an Oral Surgeon (OMS) for evaluation. OMS's remove thousands of teeth, including wisdom teeth, every year. They perform hundreds of anesthetics for various reasons every year, have advanced training in surgical and anesthetic complications and employ a team that is certified in anesthetic care giving. There are various types of anesthetics that an OMS can administer in a very safe and controlled environment. Most often, as a result of their extensive training and experience, teeth removed by an OMS results in less pain, swelling, infection and other complications.
