“ IF I CAN’T REDUCE OR RESOLVE YOUR PAIN WITHIN THE FIRST TWO VISITS THEN I WILL NOT ACCEPT YOUR CASE ”

- DR. PICARD, D.C. RTP, DAAIM

Non Surgical Pain Relief

WITH DEEP TISSUE LASER

KNEE PAIN

“I could barely stand and I couldn’t walk a certain distance. I felt the pain in my lower back and in both knees. My pain level was at a 10 or sometimes more! I had tried going to therapy, taking all kind of medications and going to the gym. The last straw was when they told me they were going to do injections and I did not want that and was looking for something that was less invasive. It was very debilitating to go out somewhere. I couldn’t bend and if I dropped something I couldn’t bend over to pick it up. After receiving Dr. Picard’s care now I’m able to bend. I’m able to go up the stairs. I can walk. It has just made a tremendous difference in my life. I don’t have to sit down when I cook. I can go out now because I don’t have to worry about having to walk fast with the crowds because now I am able to do that. I’m able to go on vacation to places that in the past I wouldn’t go to because I wasn’t able to move around like I am now.” -Barbara, Oak Park, MI

BACK PAIN

“I was having difficulty walking any distance. I had burning in my knees, legs and ankles. I didn’t have the energy that I used to have. I did less and it took me longer. I was depressed. My son was very concerned. I had knee replacement along time ago and was told that pain management was necessary. I tried the epidural injections but they were not successful. The orthopedic doctor told me that I was looking at back surgery down the road. Prior to beginning care with Dr. Picard I was on a trip and needed a wheelchair to use at the airport. After 3 weeks of care with Dr. Picard I was able to walk 5 flights of stairs and 3 blocks all in the same day.” -Sarah, Warren, MI

SHOULDER PAIN

“Since 2006 I could hardly lift my shoulder. It was going numb. I was constantly dropping stuff. I could hardly rotate it. I couldn’t work because nobody would hire me because of the condition of my shoulder. When I would try holding my little baby, my arm would go numb. I had been to 28 different doctors. Nobody said they could do anything for it. All they wanted to do was to give me different pain medications and steroid shots in my arm. Within a couple of weeks of care with Dr. Picard, I was able to lift my shoulder above my head again. It no longer aches or goes numb. Now I can work more and I can go out and play with my daughter. Since I have been coming here I haven’t been taking any medications.” -Charles, Southgate, MI

PERIPHERAL NEUROPATHY

“I had peripheral neuropathy in my feet. My toes had become completely numb. It was hard to walk. I couldn’t feel rocks or anything if I was barefooted. It made me end up burning my feet in the shower. I can now feel my toes. The hard skin around my toes is gone. This is like a miracle!” -Tammi, Oakland Township

We understand how much pain can negatively impact your life. Pain can completely change the way you interact with your spouse, your family, your kids and your grandkids. Even your hobbies which you once enjoyed, can no longer be tolerated because of the constant nagging pain. PAIN CAN COMPLETELY CHANGE YOUR LIFE!!! If you are currently living in pain and it’s keeping you from living, loving and enjoying your life, we may be the answer you’ve been praying for. Life is just too short not to be able to do all the things you want to do.

A Unique Approach Allows Incredible Results:

I have to be honest. I get calls from other doctors wondering why they don’t get the same results with their patients. It’s important for anyone reading this article to understand that there are some secrets I need to share. The laser I use is the best on the market. Most doctors are not willing to spend the money to get the very best. But the biggest secret I will share with you is the fact that it’s not all about the laser. Even doctors who are willing to spend the money for the very best equipment, do not get the same results. The reason is simple. The laser is a tool. It’s one of many that I use specifically for those who suffer with pain. I have received specialized training in drugless, non-surgical forms of techniques, procedures, and other forms of therapies that surpass anything that you have previously received. This is why I am able to get amazing results in such a short period of time. My screening exam is what allows me to determine what specific forms of care will be necessary for you to either drastically reduce your pain or totally resolve the pain. It doesn’t matter what is causing your pain. I can get the job done and I will prove it!

Call today and take advantage of our special offer so you can see for yourself what our laser treatments can do for you!!!
