Propane Prices Got You Down?
Yank the Tank!
 Natural Gas will save you money!

- **Dependability:** Since the vast majority of the natural gas system is underground, it is not typically affected by inclement weather or other transportation problems. Always there when you need it.
- **Monthly billing:** No more large bills due when the tank is filled, you will receive a monthly bill.
- **More economical:** Operating cost for Natural gas equipment is substantially less than propane. Consider this:
 - If you used 800 gallons of propane last year at \$1.50 per gallon, you spent \$1200 for fuel alone.
 - Using natural gas, your fuel cost for the same amount of energy would have been approximately \$519 on our heat only rate or only \$445 for year round use.

For more information on the availability of clean efficient NATURAL Gas please call or drop by today!

"I put an ad in the Exchange one time, a year later this guy calls and I go do an estimate for him. I always ask how people found out about me. He said he found my number in the Exchange, cut it out and kept my number for over a year until he needed it. He's been a good customer of mine for about 10 years now. So, one of my best jobs came from the Exchange. At a time when I couldn't afford a lot of advertising, the Exchange really came through for me." Larry's Lawn Care.
