Wallace State Plans Group Tour To Ireland in May -- Sign Up Now!

Area residents with a little Irish blood running through their veins or anyone who would like to visit the Emerald Isle may want to consider signing up to travel to Ireland with the Wallace State Abroad travel program offered through the Evelyn Burrow Museum.

This trip offers a week's adventure in Ireland, with an option for a three-day extension to Belfast. The cost of the trip includes round-trip airfare, accommodations, on-tour transportation, regional-style meals, full-time tour director, expert local guides, guided sightseeing, entrances to attractions on the itinerary, and end-to-end support for travelers. The cost starts at \$3,210 and can be split into monthly payments.

After an overnight flight to Dublin (voted one of the top 10 cities to visit in 2016 by Lonely Planet), the itinerary begins with a walking tour of the city, including Grafton Street shopping district and Temple Bar, the cultural heart of Dublin. A guided tour of Dublin continues the next day with visits to the Georgian squares, O'Connell Street, St. Stephen's Green, Phoenix Park, Trinity College to see the Book of Kells and St. Patrick's Cathedral.

Day four of the trip will be spent in Cork, with a visit to the Queenstown Experience. The next day will find you in Killarney, with an en excursion to Kinsale and a visit to Blarney Castle, home of the famous Blarney Stone. A second day in Killarney includes an excursion to the Ring of Kerry and a visit to the Bog Museum.

The next day it's a visit to Cashel Rock in Killarney before returning to Dublin for a final day that includes a walking tour focusing on the 1916 rebellion and free time to explore on your own.

A three-day extension to Belfast is available at an additional cost. That itinerary includes a sightseeing tour of Belfast, the Giant's Causeway, Carrick-a-Rede Rope Bridge, and Bushmills Distillery.

The trip is scheduled to depart on May 16, with a return date of May 24 unless the three-day extension is added.

To avoid a late fee, sign up by February 10. Currently spots are filling up, and many students and community members have expressed interest.

For more information about the trip, contact Kristen Holmes at 256.352.8118 or kristen.holmes@wallacestate.edu

PHARMACY TOPICS

The U.S. Food and Drug Administration recently approved Vaxchora, a vaccine for the prevention of cholera caused by serogroup O1 in adults 18 through 64 years of age traveling to cholera-affected areas. Vaxchora is the only FDA-approved vaccine for the prevention of cholera. Vaxchora is a live, weakened vaccine that is taken as a single, oral liquid dose of approximately three fluid ounces at least 10 days before travel to a cholera-affected area. Cholera, a disease caused by Vibrio cholerae bacteria, is acquired by ingesting contaminated water or food and causes a watery diarrhea that can range from mild to extremely severe. Often the infection is mild; however, severe cholera is characterized by profuse diarrhea and vomiting, leading to dehydration. It is potentially life threatening if treatment with antibiotics and fluid replacement is not initiated promptly. According to the World Health Organization, serogroup O1 is the predominant cause of cholera globally. While cholera is rare in the U.S., travelers to parts of the world with inadequate water and sewage treatment and poor sanitation are at risk for infection. Travelers to cholera-affected areas have relied on preventive strategies recommended by the CDC to protect themselves against cholera, including safe food and water practices and frequent hand washing.

 The U.S. Food and Drug Administration has granted accelerated approval for Ocaliva (obeticholic acid) for the treatment of primary biliary cholangitis (PBC) in combination with ursodeoxycholic acid (UDCA) in adults with an inadequate response to UDCA, or as a single therapy in adults unable to tolerate UDCA. PBC is a chronic, or long lasting, disease that causes the small bile ducts in the liver to become inflamed, damaged and ultimately destroyed. This causes bile to remain in the liver, which damages the liver cells over time, and results in cirrhosis, or scarring of the liver. As cirrhosis progresses, and the amount of scar tissue in the liver increases, the liver loses its ability to function.

HANCEVILLE DRUG COMPANY

Customer Appreciation and Retirement Celebration

February 4, 2017

Hanceville Drug Company, the oldest drugstore in Cullman County was purchased by Carlie Burkart in 1926. After 50 years of service he sold out to his son Eddie Burkart in 1976. Eddie owned and operated the pharmacy for 41 years until January of this year when he retired and sold the business to his son, Benjamin Burkart, who operates it now. Ethelene Cone, who worked with all three generations of Burkarts during the past 65 years, retired with Eddie in January.

We will celebrate Eddie and Ethelene's retirement with a Customer Appreciation Day and a time for reminiscing on Saturday, the 4th of February. Three generations and 91 years brings with it much history and many memories. Our past and present patients, customers, employees, sales representatives, business and community friends are all a part of that history. We appreciate you like family and invite you to stop by the Soda Fountain at Hanceville Drug Company for a complimentary ice cream cone and cookies. Eddie and Ethelene will be there from 10 am until 2 pm to share memories and well wishes. If you have an interesting story or historical information about the drugstore write it down and bring it with you along with any pictures you might have. Come reminisce about the past, make new memories for the future, and enjoy an ice cream cone from the old-fashioned soda fountain.

A tree is known by it's fruit (Mt 7:16), whether it be good or evil. The tree that claims to teach The Gospel of Christ, yet is contrary to Christ's fruit cannot be of the Holy Elohim's tree. Some trees claim a Christian can willfully sin (Heb 10:26-31), which is of the devil (1Jn 3:8). Would that tree belong to the beast (Dan 7:25)? Christ did not change the law (Mat 5:17-19) for sin is transgression of the law (1Jn 3:4, Jam 2:8-12) and He said sin no more (Jn 5:14,8:11). Christ was manifested to destroy the devil's works and who sins is of the devil (1Jn 3:8-9). A tree that teaches you can know Christ by name not by works (1Jn 2:3-4), is contrary to the fruit which was shown to John's disciples (Mt 11:4). The Holy Master's tree bears only perfect fruit and should be followed (1Pet 2:21-22). So Be It! Ron & Jeri
