FURNITURE REFINISHING by Tom Maracle. Make your old wood furniture and kitchen cabinets look new again. Dansville, (585) 335-3556.

Dear Village Board Members:

For the past 2 years I have made formal complaints on boarding houses and single family homes being rented as multi-family. My concerns have not been addressed. In one board meeting the Mayor actually told me he crumpled my letter up and threw it away. During the monthly meeting on January 23, 2017, Kenny Mignemi was asked directly about owning a boarding house. Kenny admitted he had a boarding house. I was shocked to the reaction of the board as they seemed to not know this was going on. I know that this board was aware of Mignemi and Zambito's illegal boarding house as it has been discussed at previous board meetings. I am also concerned about leaving messages for elected officials. For the past 2 months I have come in and left a message for someone to call me to set up a meeting to discuss this issue. No one has called me. I think it was very unprofessional to give me a "meeting" at a monthly board meeting. I also am concerned that after applauding the Judge for addressing the board with his concerns, which I believe is the same concerns the residents, including myself have; Trustee Galvin and Deputy Mayor Brickwood lashed out at me. This again shows this board's professionalism. With this being said, I would like a phone call about the actions that are going to be taken on the illegal boarding house at 22½ Démonville, as well as the single family residence at 50 Murray Street.

Thank you,
Derek LaMoy

Thank You

To the residents of Mount Morris and surrounding communities that I have come to know and interact with over the past 7 and a half years, I want to say thank you for allowing me to serve your families. I have met many people that I will never forget. Rite Aid has decided to terminate my employment due to conflict of interest. My wife opened an independent pharmacy, Honeoye Falls Pharmacy, in Honeoye Falls NY, on December 1st, 2016.

It was not my choice to leave Rite Aid at this time, as we have 2 young children to support while the new pharmacy gets off the ground, but the decision was made for me. I encourage you to shop local, as these are the businesses that truly support your community. Nunda Family Pharmacy and Livonia Lakeville Pharmacy are two locally owned pharmacies that would love your business and treat you right. Or, if you are interested in once monthly delivery, please give my wife Erica a call at Honeoye Falls Pharmacy, 624-2000, to discuss your options. Thank you again.

FOR IMMEDIATE RELEASE

The Livingston County Board of Supervisors is pleased to announce the Transition Phase of a multi-year, multi-discipline, communications upgrade project at the Livingston County Emergency Communications Center (911). On January 19th at approximately 6:00am the Sheriff's Office Communications Division will officially transition all public safety agencies over to the new radio communications system.

Motorola Solutions was awarded the contract to transition Livingston County to a state of the art, Astro 25 Phase II TDMA VHF Trunked Radio System in 2015. Over the course of the last two years, the project management team has assisted in the design, construction, and procurement of a system that will place all public safety entities on one radio system, with the ability to communicate across all public safety disciplines.

"These upgrades will transition all first responders within the county onto one radio solution that will vastly improve abilities to respond to emergencies, and communicate effectively, both within the county and regionally," Sheriff Dougherty said. "I am proud of the project management team the county has assembled to undertake this critical task. The relationships we enjoy with our federal, state, county, town and public safety agency partners are essential for our continued success. It is because of these relationships that we continue to see positive progress for our community."

The ability to fund a project of this magnitude comes from the awards that were distributed through a State-funded competitive grant program supporting regional communications partnerships throughout New York State. Over the past three years Livingston County has received approximately \$10 million from the New York State Division of Homeland Security and Emergency Services to complete the needed upgrades. Over \$2.3 million was dedicated to radios and subscriber equipment for first responders operating in Livingston County.

"This is exciting news, years in the making", stated County Administrator Ian Coyle. Interoperability and clear communication channels are must-haves for public safety in 2017. Funding was crucial to the success of this program as our county would not have been able to undertake this effort without significant state grant support. Kudos to our Project Management Team as they collaborated on the herculean task of managing this system change. Finally, a special thanks to the local fire, ambulance, police and highway professionals who use this system daily to communicate regarding public safety responses. We are extremely fortunate to have such dedicated public servants in our community."

Mr. Eric Gott, Chairman of the Livingston County Board of Supervisors said, "Our 911 system upgrade is a classic example of Livingston County government, in conjunction with local volunteers and others in the public safety community, coming together in a cooperative effort to both improve services and save taxpayer dollars. Emergency response technology is not a nicety, it's a necessity, and I am pleased to report that these system updates will position our first responders with the technology and information infrastructure backbone they need to support crucial boots-on-the-ground services and programs."

Although this transition is a milestone for the county, the county will continue to move forward in keeping up with the technology available. "This this is a proud day, and we are committed to continued progress," Undersheriff Matthew Bean said. The Sheriff's Office is also in the beginning stages of upgrading its computer systems and Computer Aided Dispatching, while moving towards NG911 capabilities.

"Fully transitioning to Next Generation 911 across the state is expected to exceed \$2.2 billion over the coming years", stated Undersheriff Bean. "Unfortunately, not all the fees charged on home or cell phone bills comes back to the local PSAP, and not all cell phone users are charged this fee. Our citizens deserve a dedicated revenue stream from our state government to fully fund and maintain these critical systems."
