**MOVING
NEWBORN
CALVES WITH EASE**

Calf Sleds

Calf Sleds

To minimize stress when moving a new mother and her calf try one of these. These calf sleds are designed and built by Daryl with quality steel. The long skids and heavy framework make it stable and durable. The sleds help make moving and working calves easy and efficient, eliminating wearing the newborn calf out and putting some protection between you and the cow while you work the calf.
