All scripture is given by inspiration of Elohim, for doctrines, instruction in righteousness (2Tim 3:16). History reveals a Roman emperor and church elders established a religion by changing Biblical times and laws to man's times and laws, and called it Christianity (homonyms). So diverse from Christ's teaching to love thy enemy, (etc), millions who contradicted their teachings were killed for heresy, the hands of the wicked were strengthened by promising him life (Ezek 13:22) by grace, not law. Scripture is used against scripture, Christ commands are denied, yet He is claimed to be known (1Jn 2:3-4, Gal 1:7). Through hearsay, not scripture, the church religion of changed times and laws became traditional, which is the way of the beast (Dan 7:25). The Holy Father has certainly shown mercy on us (Ezek 33:11)! Santa has the same letters as Satan! So Be It!

A study published in JAMA Cardiology estimates that almost 28,500 deaths could be prevented each year in the U.S. through use of a new FDA-approved class of cardiovascular medication that helps reduce mortality in patients diagnosed with heart failure and reduced ejection fraction, the percentage of blood pumped from the heart with each contraction. Previous studies have demonstrated that 'angiotensin receptor neprilysin inhibitor' (ARNI) therapy using a new class of medication (generic name: sacubitril and valsartan) reduces mortality in patients with heart failure and reduced ejection fraction. The therapy works by enhancing the body's protective hormonal systems while simultaneously inhibiting the overactive hormones that harm the heart. More than 2.7 million patients in the United States have been diagnosed with heart failure and reduced ejection fraction. Of these patients, 84 percent (almost 2.3 million) are potential candidates for ARNI therapy. This study showed that, if ARNI therapy were comprehensively applied to eligible patients, it could potentially prevent 28,484 deaths each year.

According to new research published in the scientific journal Hepatology, cromolyn sodium, a drug commonly used for the prevention of allergies and asthma, successfully blocked a series of cells that trigger liver scarring (known as fibrosis), which in advanced cases can lead to cirrhosis. The finding could most impact patients with primary sclerosing cholangitis (PSC), a chronic disease that damages bile ducts and causes serious liver damage. The disease has no effective treatments and leaves patients with few options beyond a liver transplant.

**BLUE TAG SPECIALS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

## Wallace State's Adult Education Program Offering Nontraditional High School Diploma

Wallace State's Adult Education program has added a new alternative for students who didn't complete their high school education.

The nontraditional high school diploma, which was recently approved by the Alabama Community College System and the Alabama State Department of Education, allows students who either dropped out of high school without earning the essential number of credits to graduate or who failed certain sections of the former Alabama High School Graduation Exam to complete their high school diploma.

Students must be 17 years old to be eligible for the nontraditional diploma and must have attended an Alabama public high school.

"I think we are going to see a lot of positive responses from people, who for whatever reasons decided to drop out of high school and put off getting their GED (General Education Development). They can now see this as an option that will hopefully change their lives," said John Glasscock, Wallace State's Adult Education Coordinator. "It's a perfect opportunity for a student to go back and get the diploma they thought was never possible."

Students interested in the nontraditional diploma are required to contact the high school they attended, and complete a transcript request for the nontraditional diploma program and notify the school they plan to pursue a nontraditional diploma. The school will then send an official transcript and transcript audit form directly to Wallace State. The nontraditional diploma classes are taken on Wallace State's campus.

"We determine the best path for the students once we receive all of the paperwork and once we have an opportunity to speak with them. Once they complete the program, the high schools issue the diplomas just as if they had been completed 10 years ago," Glasscock said. "This should provide students with a lot of motivation."

Alabama Community College System Adult Education Director Dr. David Walters recently said in an AL.com article that more than 500,000 adults in Alabama lack a high school diploma or its equivalent in the GED. The nontraditional diploma was initiated with hopes of decreasing the number.

"Students who have slipped through the cracks for whatever reason can take advantage of this diploma and ultimately find themselves eligible for jobs with family-sustaining wages," Glasscock said.

For more information about the nontraditional high school diploma and the Wallace State Adult Education program, contact Glasscock at 256.352.8077 or 256.352.8078.

## WAREHOUSE DISCOUNT GROCERIES

# Saving You MONEY

**BLUE TAG SPECIALS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
