The Origins Of Groundhog Day

Every year on February 2nd, people anxiously await the appearance of a medium-sized furry mammal who they believe can predict if winter weather will rage on or if spring will arrive sooner than later. Although it's a rather strange means of prognostication, millions of people celebrate Groundhog Day, a tradition that is older than many people may know. The first official Groundhog Day took place on February 2, 1887 at Gobbler's Knob in Punxsutawney, Pennsylvania. In the ensuing 130 years, individuals have gathered in Pennsylvania and other areas around the United States to find out if the groundhog will see his shadow. If the groundhog sees his shadow, winter will continue for six more weeks. If the groundhog does not see his shadow, then spring will arrive early. Although the Groundhog Day of today is relatively new, the concept is actually quite old and dates back to the ancient Christian tradition of Candlemas. Candlemas is a Christian holiday commemorating the presentation of Jesus at the Temple. Candlemas falls on the 40th day of the Christmas/Epiphany period and is one of the oldest feasts of the Christian Church, celebrated since the 4th century in Jerusalem. Around the 14th century in Europe, Candlemas began to overshadow Pagan holidays like Lupercalia (Romans) and Imbolc (Celts). Rather than torches and blessings from goddesses, on Candlemas custom called for members of the clergy to bless candles and distribute them to the people to symbolize that Christ was the light of the world. Weather played a role in the celebration of Candlemas. Rainy, wet weather was preferable because it suggested spring's arrival was on the horizon. Candlemas was celebrated in many parts of Europe and eventually spread to Germany, where animals were involved in the ceremony. Hedgehogs were plentiful in the area, and celebrants believed if they cast a shadow during fair weather on Candlemas, more bad weather was in store. Pennsylvania's earliest settlers were German, and these immigrants brought their Candlemas traditions with them. But hedgehogs were not common in Pennsylvania, so settlers used groundhogs instead. Thus, the groundhog was seen as a wise and suitable substitute for prognostication. Today's celebrations include tens of thousands of visitors from all around the world who travel to Pennsylvania to see Punxsutawney Phil in person. Phil has become a celebrity of sorts and has appeared on various television shows, on a jumbo screen in Times Square and as the star of the 1993 movie "Groundhog Day." (Although the real Phil was not allowed to be in the movie because it was filmed in Illinois instead of Pennsylvania, and the Groundhog Day organizers were notably upset.) Boasting a deeper history than many people may know, Groundhog Day will continue to delight revelers for years to come.

Salome's Stars

ARIES (March 21 to April 19) You don't like rejection. But instead of trying to "ram" your ideas through to an unreceptive audience, stand back and wait for a more favorable environment later this month.

TAURUS (April 20 to May 20) Job commitments call for the tidy Taurean to charge into those problem-plagued projects and get them into shape. Then go ahead and enjoy the fun and friendships of your expanding social life.

GEMINI (May 21 to June 20) The pressures of the workplace are beginning to ease. While you still need to stay connected to your ongoing commitments, you'll be able to take more time to relax with family and friends.

CANCER (June 21 to July 22) You might feel that you need to prove how much you can do. But be careful not to take on more than you can handle, or you risk being bogged down. An Aries has a message for you.

LEO (July 23 to August 22) Financially it could be a little tight for a while. So resist the urge to splurge on things you don't really need. There will be time enough to indulge yourself when the money squeeze eases later this month.

VIRGO (August 23 to September 22) You demand trust from others. But someone is creating a situation that could put your own trustworthiness in question. Be sure to keep all lines of communication open.

LIBRA (September 23 to October 22) A problem delays the recognition that you hoped to receive for your hard work. But all will soon be resolved. Remember to make patience your watchword this week.

SCORPIO (October 23 to November 21) Those wonderful ideas could expand your workplace prospects and ultimately lead you on a new career path. Your personal life also opens up new vistas.

SAGITTARIUS (November 22 to December 21) So much seems to be swirling around you these days that you might find it hard to focus on priorities. Best advice: Take things one at a time, and you'll get through them all.

CAPRICORN (December 22 to January 19) Work out situations with what you have, and avoid the temptation to create complications where they don't exist. This applies both at home and in the workplace.

AQUARIUS (January 20 to February 18) Keep your keen senses open to possible changes in personal and/or professional situations. Knowing what might lie ahead gives you an edge on how to handle it.

PISCES (February 19 to March 20) Personal pressures at work could create a problem with your performance. Best advice: Focus on the job ahead of you. If necessary, you can deal with the other issue later.

BORN THIS WEEK: Like your fellow Aquarian Abraham Lincoln, you have a way of handling the most difficult situations with grace and conviction.

Lunch Break On The Dan

Thank You to Danville Native, Amanda Searce, for submitting this wonderful scene of the area wildlife along the Dan River. Amanda took this picture while on her lunch break the week of "The Big Snow" here in Danville, VA. Not a bad view!

February Is Black History Month

FEBRUARY FACTS

February is notable for many reasons and packs quite a number of activities into its few weeks.

- Despite being the shortest month of the calendar year, February has an interesting history. Early calendars marked the start of the new year in March, but when the second king of Rome, Numa Pompilius, rose to the throne in 713 BC, he synchronized the calendar to the lunar year. That required the addition of January and February.
- February was named after an end-of-year celebration called "Februa," also known as "Februalia" or "Februatio." Februa was a Roman festival of ritual purification and washing — a spring cleaning of sorts. This festival was later incorporated into Lupercalia, another Roman celebration that has ties to Groundhog Day. January was actually added after February and was named after Janus, the Roman god of beginnings and endings.
 - Both January and February originally had 28 days. However, at the time, even numbers were considered to bring bad luck, so Pompilius added another day to January. However, February was left with 28 days and had long been considered an unlucky month.
 - February was the last month of the year for around 200 years, until the Gregorian calendar designated January the start of the new year.
 - Julius Caesar is responsible for adjusting the calendar and the length of February's length. In the Julian calendar, 10 days were added to the calendar year in various months, and February was increased every four years (leap year) to 29 days to coordinate the calendar year to the solar cycle of roughly 365.2425 days.
 - During common years, February can pass by without a single full moon.
 - British mathematician John Conway determined that some dates inevitably share the same weekday within any given year. The last day of February will be on the same weekday as March 7, April 4, May 9, June 6, July 11, August 8, September 5, October 10, November 7, and December 12.
 - In the northern hemisphere, February is the equivalent to the third month of winter. In the southern hemisphere, it is the third month of summer.
 - In Finnish, February is called "helmikuu," meaning "month of the pearl," which refers to the snow melting on tree branches.
 - During leap years, February will end on the same day that it begins.
 - February's birthstone is the amethyst, which symbolizes piety, sincerity and spiritual wisdom.
 - Residents of St. Lucia celebrate their independence on February 22.
 - Aside from being the shortest month of the year, February is packed with events. In addition to Valentine's Day, Groundhog Day, World Marriage Day, and Presidents' Day, February is when Flag Day is celebrated in both Canada and Mexico. February also serves as Black History Month.

* The best time to shop for your 4th of July and Christmas tableware is after Valentine's Day. Red is abundant and very well-priced.

* "Clean, shiny china is easy with this simple recipe! Use a half-cup of Borax powder in a sinkful of warm water. Dip the china in the sink and rinse with cool water." -- F.T. in Louisiana

* Keep a pumice stone in the shower or bath. Once a week, plug up the bath while you shower and, if you want a real treat, add a little Epsom salts to the tub. When you have finished showering, your feet will have had a nice soak and will be ready for scrubbing. After you dry off, make sure to moisturize well, and your feet will stay looking great and be ready for sandal season again (if it ever comes back!)." -- C.T. in Maryland

* Sweaters don't belong on hangers, but they can be bulky and take over your drawers. Try this storage trick this winter: Roll sweaters and display them in the sections of a hanging bin organizer in your closet. You also may find that they do well in the slots of a shoe rack.

* This is an old carpenter's trick, but so very useful: Use a clothespin to hold a nail you are about to hammer. It works especially well if you need to nail in an awkward place. This way, you will not pound your fingers or thumb.

* Need to secure a small amount of cash? Try this traveler's trick: Stick the cash inside a clean sanitary napkin wrapper and reseal. No one will suspect a thing!

Piedmont Shopper FAVORITE RECIPES

Roasted Salmon with Pomegranate Butter Sauce

1 (2-pound) center-cut salmon fillet, with skin
1 teaspoon salt
1 teaspoon black pepper

Pomegranate Butter Sauce:
1/2 cup bottled pomegranate juice
1/4 cup good-quality balsamic vinegar
1/4 cup orange juice
2 tablespoons honey
2 tablespoons minced shallots
1/2 teaspoon chopped fresh rosemary or 1/4 teaspoon crumbled dried rosemary
8 tablespoons (1 stick) unsalted butter, chilled, cut into 8 equal portions
1 teaspoon salt
1 teaspoon freshly ground pepper

1. Heat oven to 400 F. Lightly oil a large, rimmed baking sheet.
2. Run your fingers over the cut side of the salmon, feeling for any pin bones. If necessary, pull out bones with sterilized tweezers. Season salmon on both sides with the salt and pepper. Place the salmon on baking sheet, flesh side up. Cut the salmon vertically into 6 equal portions, but do not separate the pieces. (This makes the salmon easier to serve after cooking.)
3. Roast until the salmon shows just a hint of bright pink when prodded in the center of the fillet at one of the cuts with the tip of a knife, 12 to 15 minutes.
4. Meanwhile, make the butter sauce. Bring the pomegranate juice, balsamic vinegar, orange juice, honey, shallots, rosemary, salt and pepper to a boil in a non-reactive medium saucepan over high heat. Cook until liquid is reduced to 1/4 cup, about 8 minutes. Reduce heat to very low.
5. Remove pan from heat and whisk in the tablespoon of butter. Whisk until the butter softens into a creamy texture, occasionally returning pan to the heat to keep it warm, but not hot. Repeat with the remaining butter, one tablespoon at a time. Season with salt and pepper to taste. Don't bother to try to keep the sauce piping hot; it will be heated by the warmth of the salmon.
6. Remove skin and any fat from the salmon and discard. Serve the salmon on individual dinner plates, and spoon the sauce on top. Serve immediately. Makes 6 servings.

Find comfort at URW!

“No” is a lonely word.

Every day it seems more and more that banks are saying “no” to good hardworking people. That’s because when it comes to loans, most banks focus on one thing, your credit score. What’s so great about URW Community Federal? We’re not a bank – we’re better. We look at more than your score. We want to hear your story and look for reasons to say “YES!” And if we aren’t able to help you right away, we’ll work with you on a plan so that we can help you in the near future.

Let URW help you “move on” from your bank, and move forward with your life!

Isn't it time you experienced the URW Difference

Settings Financial Goals...

The Wikipedia definition: A goal is a desired result a person or a system envisions, plans and commits to achieve a personal or organizational desired end-point in some sort of assumed development. Many people endeavor to reach goals within a finite time by setting deadlines. I have always believed in setting goals. In many of the seminars that I do I talk about setting short term and long term goals for your finances. It is also important that you set deadlines and make them attainable goals. When it comes to finances some of your goals might be to improve your credit score, pay down debt, have money in savings, or start planning for retirement. Whatever your goal is, it is important to educate yourself on the best way to achieve that goal and then take action. Reaching a short term goal of \$100 in a savings account will motivate you toward a long term goal of \$1,000.00. When it comes to reaching your financial goals URW Community Federal Credit Union is always here to help.
