Pallet Assembly and Recycling Solutions from Mona Tracy...

NAIL-MATE Automatic Nailing Jig

- Auto firing, one-man operation
- Handles 3 or 4-stringer pallets, wing pallets or others up to 50" by 50" at a rate of 1-2 pallets per minute!

Over 14 Years of
Proven Nailing Experience!

ONE OPERATOR
can make
300+ Pallets
per day!

The "NAIL EASE" Jig

- Assembles all size pallets (up to 50" x 50") with easy adjustments
- For New & Recycled lumber

"If you're going to produce one or two sizes, the Nail-Ease is a great machine to boost production over what an operator can do with a nail gun alone."
— Dominick Davi, president of Greenway Products & Services, LLC

Pallet Recycling's Heavyweight Champion...

The RUN-A-GADE Bandsaw Pallet Disassembly System

- "The Tank" handles even heavy-duty pallets
- The take away conveyor saves the cost of one operator
- Your savings in blade cost alone pays for the machine!

FAVETTEVILLE, TN 37334

YOU ASKED FOR IT!

INTRODUCING A NEW WAY TO EDGE YOUR PALLET BOARDS TO DECREASE WASTE & INCREASE YIELD.

The Baker Pallet Board Edger is a simple system that upgrades #2 material into #1 pallet boards. Two small circular saws re-rip boards to remove waney edges or to re-size the width of your material. This Baker Pallet Board Edger adds value to your #2 boards and decreases waste at the same time.

TO MAKE EVERY DOLLAR COUNT— YOU HAVE TO MAKE EVERY CUT COUNT

Selecut® V with **Inline Squeeze**

- For prime lumber cut to length or Precision End Trimming needs, our Selecut®-V uses a Fixed Frame Assembly with a moveable cutting platform to meet your production needs in a limited space environment and is available with our Inline Power-Squeeze Package Alignment system.
- For high-volume automated crosscutting of industrial length stock, our Autocut®-V uses a computerized carriage assembly with PLC controls enabling you to process lumber without an operator present.

Transcut® II Station
from **\$26,999***

Transcut® II Portable
from **\$7,999***

Autocut® V

- For custom manufacturers, our Transcut® II Station will cleanly cut through a unit of hardwood or softwood in less than a minute using generic chain-saw chain and with a precision of +/- 1/16th" or better*.
- For simple crosscutting of EWP or lumber, our versatile Transcut® Portable saws are priced and designed to offer a significantly safer and faster alternative to hand-held chain saws.

We're proud of the fact that HOLTEC pioneered the concept of precise package cutting over 40 years ago. Today our industry's technological and manufacturing advances have enabled us to achieve the fastest cut in the industry and an unmatched precision on every cut. So, if you're considering investing in a package-crosscut saw, consider these facts*:

- At 55 seconds per cut HOLTEC systems cut up to twice as fast as other systems available today;
- With our own team of dedicated Field Technicians and service vehicles, HOLTEC is the only company that provides you a service response time of 24 hours or less on-site and on-time;
- Our state of the art Germany manufacturing facilities are ISO-9001 certified, ensuring that you're getting the highest quality manufacturing standards available today;
- With an unmatched precision of +/- 1mm (.040"), HOLTEC systems exceed precision-end-trim tolerances;
- HOLTEC systems are designed with the highest safety standards in the world, ensuring that your employees are working in the safest environment for package-crosscutting available today;
- HOLTEC has almost 2,000 systems in North America and over 8,000 systems delivered worldwide, ensuring that we'll be here for you in the future as we have been for the last 40 years

WE ENSURE EVERY DOLLAR COUNTS BY ENSURING EVERY CUT COUNTS

Search: **LM Corporate Video**

Precision. Performance. Production. Profit.

Perfect for Rig Mat & Truss Stock, L-M's Verticut P4 consistently delivers a P.E.T. cutting tolerance of $\pm 1/32"$ and a trim end finish that is as good or better than conventional trim saws.

Built to Provide Service, NOT Require It

The Verticut P4 is one great machine in the L-M family of efficient, cost effective package lumber cutters. With 60 years in the business, L-M Equipment has more package cross cut systems in operation than any other manufacturer in North America. We serve customers around the world.

Contact L-M Equipment for more information!

Features include:

- Programmable touch screen
- Automated PLC controls
- Remote starting
- Operator weather protection
- FACT™—Fast Advance Cutting Technology to substantially reduce cutting cycle time.

BIOLUBE Lube Master Spray System for Cool, Resin Free Saws.

Lube Master is the most economical, reliable, easy to operate, maintenance free lubricating system on the market. With BIOLUBE lubricants, this system will keep saw blades and woodworking tooling cool and clean.

- Keeps all saws, bands and tooling cool and resin free
- Accurate and economical to operate
- Simple to install, operate and adjust
- Rugged for an industrial or mill environment
- All pneumatic, no electrical components
- Large 5 gallon reservoir
- Supported by a nationwide distributor network
- Everything included; brackets, nozzles, tubing, air pressure regulator, filter and gage
- Adaptable for all machinery; head saws, resaws, gang rips, package saws and moulders

SMART PRODUCTS

Is Your Answer! For Pallet Lumber Recovery and Repair Solutions.

"The Difference is Engineering"

Leasing & Financing Alternatives Available

Dismantlers

One-Man Dismantler

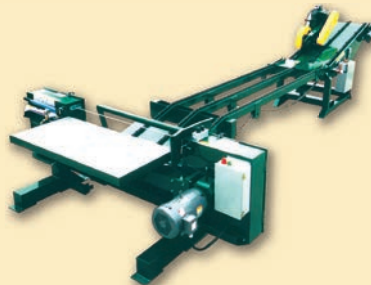

- 52" or 64" capacity
- 10 HP, 3-phase, electric motor standard (2200 FPM blade speed) (single phase available)
- Optional 15 HP, 3-phase (4400 FPM blade speed) electric motor available
- 18 HP gas-powered electric start on Portable Dismantler
- Gear reduction drive
- Self-contained hydraulic blade tensioning
- Low maintenance durable blade guide bearings
- Push button operated table height adjustment

Two-Man Dismantler

Pallet Dismantler System

- 64" capacity **Front Discharge** Dismantler
- Linear accumulating conveyor feeds boards easily to operator of Inclined Power Trim Saw
- Add additional dismantlers for higher production

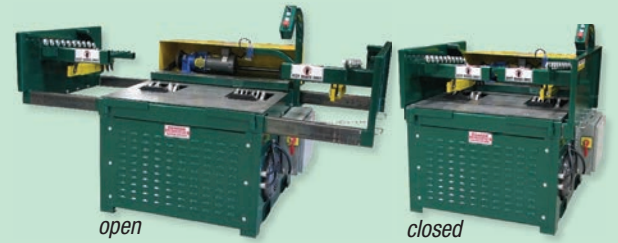

Portable Dismantler

Notchers

Double Head Notcher

- Two, 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterheads
- One-person operation/1,000 double notched stringers per hour
- Notches new or recycled lumber
- 48" to 96" stringer capacity standard
- 9" x 1-1/2" notches, with 18" between notches
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Single Head Notcher

- 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterhead
- One-man operation/500 double notched stringers per hour
- Notches new or recycled lumber
- 72" stringer capacity standard
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Pallet Prep

- Commonly referred to as the "SmartSaw"
- Smart Saw is **multifunctional**: designed for repair (1 person) or recycling (2 person) operations of BLOCK or GMA/STRINGER pallets
- Standard 10 HP, 3-phase, electric motor with gear reduction drive
- 20' standard **M42 bi-metal** band saw blade
- Air actuated, 3-position, roller table and table extension easily positions pallet for board removal
- Machine provided with **advanced safety measures** in place, including interlock switches for perimeter guarding and cabinet doors
- Improved **canopy guarding**, with front and rear portions that move up and down with the roller table

- Specifically designed to QUICKLY (as a **1-person** operation) cut out damaged boards, including **top and bottom** deck boards, as well as **connector** and **stringer** boards
- Also designed, as a **2-person** operation, to process the disassembly / tear-down of block or stringer pallets for **INCREASED LUMBER RECOVERY**. For block style machine, includes a specially designed **Block Recovery Tool** (or BRT) that **salvages blocks** now being scrapped with other machines and processes

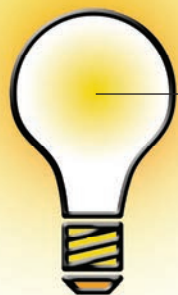

Double End Power Feed Trim Saw

Trim Saws

- Power Feed Trim Saws trim boards 2" thick from 18" - 60" in length on the single end, and 18" - 66" in length on the double end
- Inclined board feed and overhead saw design help eliminate board kickback
- Manual Trim Saw handles boards up to 6" thick and 6" wide
- 18" diameter nail resistant saw blades and 10 HP motors
- Heavy duty steel tube construction
- Multiple adjustable board stops on Single End and on Manual Feed Trim Saws
- Easy blade change
- Easily moved with built-in fork lift pockets
- Right saw head on double end easily adjusts to cut desired board length

Single End Power Feed Trim Saw

NEW Tech[®] PCN-55M

TECH

The better alternative for pallet recyclers
More power, less weight & better durability.

For driving nails 1-3/4" to 2" with diameters .083" to .090", we proudly introduce the new Tech PCN-55M nailer.

After many years of experience working with pallet recyclers, we've designed our new tool with features like a thicker reinforced nose and contact arm for extra durability, and air flow that is optimized to generate more power with less weight - a third to a half a pound lighter than competitive tools.

Our customers also report that the new PCN-55M holds up better in colder winter temperatures.

Although nail pricing is one component when choosing a company, an even greater consideration for us is the nail guns. Being a recycler, wood density varies from softwood to rock hardwood. The Tech 55M handled all materials with ease. It has increased production by approximately 30%. A single individual was able to increase his output from 200 to 300 pallets per day, very impressive. Overall its proven itself as a money maker for the company.

PORTABLE YARD SAW
This portable chain saw is for cutting logs or packages of lumber. It is available with electric drive or 20 HP gas engine with centrifugal clutch. It features manual or electric start.

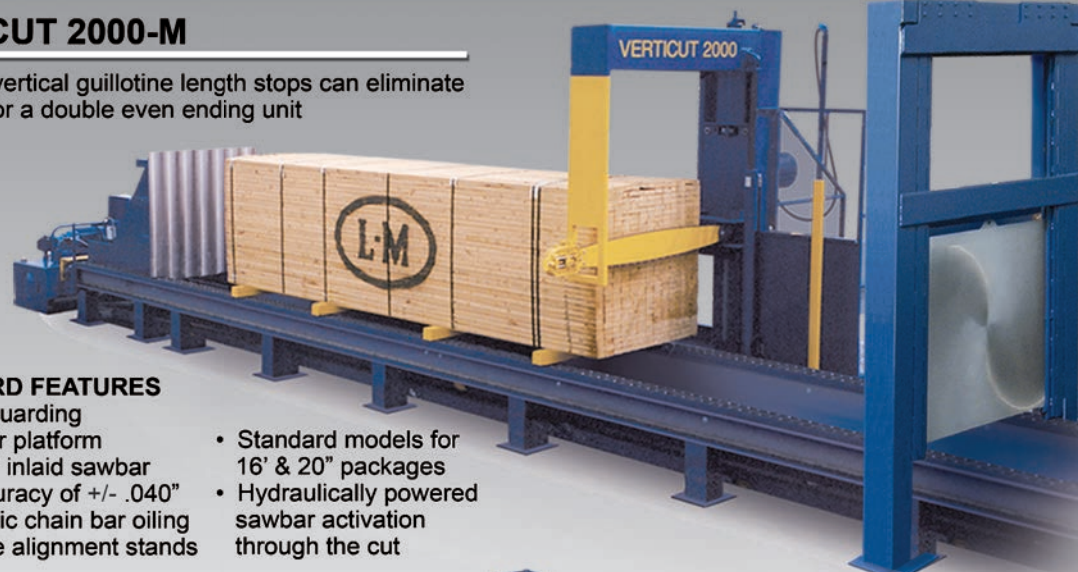

HIGH SPEED CHOP SAW
L-M high speed chop saw is available in standard sizes from 48 to 84 inches in diameter. It features a heavy-duty construction frame and saw ladder.

DECK SAW
Deck saw with sawbars of up to 12 feet in length are used to cut the largest of logs, and are also used to split logs length-ways.

VERTICUT 2000-M

Hydraulic vertical guillotine length stops can eliminate the need for a double even ending unit

STANDARD FEATURES

- Safety guarding
- Operator platform
- "Stellite" inlaid sawbar
- Cut accuracy of +/- .040"
- Automatic chain bar oiling
- Package alignment stands
- Standard models for 16' & 20" packages
- Hydraulically powered sawbar activation through the cut

LS SYSTEM 2000 LOG SPLITTER

- Heavy duty Hydraulically powered splitter using onboard HPU.
- Adjustable travel speed using gear reduction for high torque and low power requirements.
- Splits logs up to 60" diameter by 20ft. long
- 54" vertical adjustment capability for slabs-quartering or sizing to mill capacity.

- OPTIONS AVAILABLE**
- Laser light saw guide
 - Modular package end squeeze
 - Modular even ending system
 - Automatic strapping system
 - Modular infeed/outfeed decks
 - Electronic length measurement with digital readout
 - Powered carriage positioning

OUR UNIQUE & INNOVATIVE WOOD DRYING PROCESS DELIVERS RESULTS

BRIGHTER LUMBER MEANS HIGHER SALES

Nova Dry Kiln's innovative technology offers a unique drying method that is kinder and gentler to the wood drying process. This process results in brighter lumber and gives our customers higher sales. Nova Dry Kiln builds and designs medium and large kilns ranging from 5,500 to 120,000 or more board feet.

TIMBER DRY MANAGEMENT CONTROLS OFFER FLEXIBILITY AND EASE OF USE

When using the Timber Dry Management System kiln operators have a straight forward, simple to use, flexible program. Kiln operators can make instant changes on the touch screen interface that is provided for each individual kiln. This drying control technology uses the exclusive proven and cost-saving Nova Dry Kiln methodology.

CONTACT US FOR FURTHER DETAILS

We provide turnkey construction services along with excellent customer service as part of our dry solutions. Call our technical staff today for further information about Nova Dry Kiln and our Timber Dry Management system.

INNOVATIVE TECHNOLOGY SAVES MONEY ON UTILITIES AND DEGRADE

Our kilns not only save money on utilities but our customers experience end results of only a 1 to 1 1/2% degrade. Using the combination of a thermal blanket created from our heated floors, with fans that do not reverse rewetting the lumber surface, also moisture is not reintroduced into the drying chamber for humidity control or conditioning, to the aluminum-lined walls that offer a superbly insulated chamber, the Nova Dry Kiln saves you money on your utilities and provides you with a superior end product and in most cases only a 1 to 1 1/2% degrade.

Morbark Demo Days

Coming August 20-21, 2015

Vendor displays, networking, food and entertainment — and, of course, live equipment demonstrations at our dedicated demonstration site — make Morbark's 2015 Demo Days the "must attend" event of the year!

During Demo Days, you will get to explore Morbark's manufacturing facilities and learn firsthand about the cutting-edge technologies, materials and processes used to manufacture our industrial equipment lines. In addition, we'll be offering educational and interactive experiences designed to help our customers learn more about our equipment and opportunities to expand their businesses.

We look forward to seeing you soon at our 2015 Demo Days!

Registration for Morbark's 2015 Demo Days is limited and will be filled on a first-come, first-served basis, so register today!

"SAWMILL SMART/ SAWMILL TOUGH!"

A-C-T® ACCURATE CHIPPING / CUTTING TECHNOLOGY

SFPA Announces 2014 Sawmill Safety Awards

Four Southern Pine sawmills – all members of the Southern Forest Products Association (SFPA) – are recent recipients of the 2014 Sawmill Safety Award. SFPA lumber manufacturer members are considered for the award based on information submitted regarding occupational injuries and illnesses. Safety performance is judged by how each mill's safety record stacks up against facilities with comparable lumber output throughout the year. Division I includes sawmills that produce 50 million board feet or less; Division II covers facilities that produce 51 to 150 million board feet; and Division III includes mills that produce more than 150 million board feet annually. The four sawmills being honored for outstanding safety records during 2014:

- Division I** Almond Brothers Lumber Co. – Coushatta, LA
- Division II** Weyerhaeuser Company – Holden, LA and Millport, AL
- Division III** Anthony Forest Products – Urbana, AR

"On behalf of all members, I want to commend these companies that excel at making safety in the workplace a priority," said SFPA Executive Director Tami Kessler.

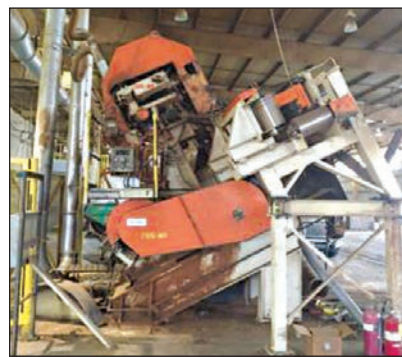

The awards were presented recently at the opening ceremony of EXPO 2015 in Atlanta.

(Pictured, L-R):
 Tami Kessler, SFPA Executive Director;
 William Almond,
 Almond Brothers Lumber Company;
 Jim Krauseneck, Weyerhaeuser Company;
 Kerlin Drake, Anthony Forest Products;
 Scott Vande Linde, SFPA Board Chairman.

SFPA has represented manufacturers of Southern Pine lumber since 1915. Today, SFPA member companies produce about half of the nation's Southern Pine lumber. SFPA is headquartered in suburban New Orleans and can be reached at 504-443-4464 or by visiting www.sfpa.org.

Simonds Saws Are The Best!

For over 180 years Simonds has thrived in the saw business by manufacturing the best saws in the industry.

Simonds Trademark Series Inserted Tooth Saws are produced using Nickel Alloy plate that is processed in our new heat treat facility. Our new on-site heat treatment is producing plates with a consistent hardness and uniform flatness that is not available from 3rd party plate suppliers. Simonds' saws keep maintenance costs down, maximize saw run time and add profit to your bottom line.

The Trademark Series Saw features:

- Finest Quality Nickel Alloy plate manufactured in Big Rapids, MI.
- Precision Laser Cutting and CNC milling
- Computer-controlled spin tester checks for vibration and run out

We have the most experience in the business manufacturing saws. We make the best — And now they just got better!

Simonds new saw plate heat treat facility enables us to deliver the flattest and toughest saws in the business!

LITCO IS SEEKING A PACKAGING PROFESSIONAL TO SELL THE INCA® MOLDED WOOD PALLET

Do you want to be part of a growing company and sell an exclusive product?

If so, please apply only if you meet all four of the following prerequisites:

- 1.) Located in or near Louisville, KY, Southern IN, IL, MO or Eastern PA, or Northeastern USA.
- 2.) Willing to travel multiple states
- 3.) Have 5+ years of experience and a list of established contacts that palletize for both export and domestic shipping.
- 4.) Have a proven record of sales success and a list of established contacts.

Our ideal candidate

- Has a reputation for honesty and integrity.
- Able to withstand rejection and not give up.
- Enjoys maintaining and building lasting relationships
- Non-smoker

Litco offers a comprehensive benefit package and a competitive compensation program with the opportunity for advancement.

Preferred Requirements: A bachelor's degree in business or engineering. Fluency in English. Bilingual verbal and written skills are beneficial. Working knowledge of Excel, Word & CRM.

If you believe that you are our ideal candidate, visit our careers page at:

<http://www.litco.com/careers/> or e-mail resume and cover letter to careers@Litco.com.
