New research published in the journal Pain has uncovered a more effective way of treating fibromyalgia, a medical condition characterized by chronic widespread pain typically accompanied by fatigue, as well as sleep, mood and memory problems. The results of the trial suggest that combining pregabalin, an anti-seizure drug, with duloxetine, an antidepressant, can safely improve outcomes in fibromyalgia, including not only pain relief, but also physical function and overall quality of life. Until now, these drugs have been proven, individually, to treat fibromyalgia pain. Fibromyalgia was initially thought to be a musculoskeletal disorder. Research now suggests it's a disorder of the central nervous system-the brain and spinal cord. Researchers believe that fibromyalgia amplifies painful sensations by affecting the level and activity of brain chemicals responsible for processing pain signal.

Some of the most effective treatments for autism spectrum disorder (ASD) are also well known for their risk of weight gain and subsequent health complications. For the first time, however, researchers have compared five of these second generation antipsychotics (SGAs) to determine which ones are the biggest culprits. The study, published online in the Journal of Child and Adolescent Psychopharmacology, found that patients treated with Zyprexa (olanzapine) have the highest risk of weight gain, while Geodon (ziprasidone) and Seroquel (quetiapine) were not associated with an increase in body mass index. Risperdal (risperidone) are A biligy (aripiprazole) also resulted in weight gain, but not as great as the weight gain associated with Zyprexa.

Most church called Christians do not have a clue their religion was created by man, not supported by The Holy Bible! Their church doctrines are the commandments of men (Mt 15:9) deceitfully being taught to trust in Jesus Christ (Jn 5:39), but not to trust in Christ's Biblical Words. A religion that does not trust, know or love The Truth (Jn 14:6,15, 1Jn 2:3-4) would be for Satan (Mt 16:22-24). The "Ten Commandments" are contorted to deceive many into false worship (2Cor 11:13-15)! Many claim not to be under Elohim's law, yet quote His law against others (Mt 7:1-5), then are mute when His law is against them (James 2:10-11). Be assured who exalts himself will be abased (Mt 23:12, Lk 14:11) and who leads others astray will be accountable (Jer 23:1, Mt 12:36). So Be It! Ron & Jeri

## Saving You MONEY

**BLUE TAG SPECIALS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
