**Types of Medicare Plans**  
Medicare Part A and Part B both have deductibles and coinsurance. You are not required to have a supplemental policy to help cover these deductibles and coinsurance, but there are many plans available, if you wish to do so. The two most popular are Medicare Supplements (or Medigap) and Medicare Advantage Plans.  
Medigap plans are plans that coordinate directly with Original Medicare. Choosing a Medigap plan that's right for you can be a difficult task. The most common Medigap plans sold in Alabama are Plan A, Plan B, Plan C, Plan F, Plan G and Plan N. Each of these plans are "standardized" by Medicare. "Standardized" means that each of these individual plans must contain the same basic benefits, regardless of the insurance company you purchase it from. For example, Plan F with company XYZ must contain the exact same benefits as Plan F with company WXY. The one thing that can be different is the premium each company charges for the exact same coverage.  
Medicare Advantage Plans, or Part C Medicare, are offered through private insurance companies that Medicare approves. If you join a Medicare Advantage Plan you still have Medicare, but you will receive your Medicare Part A and Medicare Part B coverage through the private insurance company offering the MA plan you join. Medicare Advantage Plans are not Medicare supplements.  
Medigap and Medicare Advantage Plans are both good plans, but totally different in how they work. To compare these plans you can go to Medicare.gov or attend one of our Medicare Education Classes.  
When you're ready, let our local agents help you make sense of the Medicare maze.

Schizophrenia is a common cause of incapacity and is ranked as the third-most-disabling illness subsequent to dementia and quadriplegia. Nearly 75% of persons with schizophrenia have continuing problems with recurrent psychotic episodes. Antipsychotics are effective in both the acute and chronic (maintenance) treatment of schizophrenia and other psychotic disorders. They differ in their pharmacology, kinetics, overall efficacy/effectiveness and tolerability, but perhaps more importantly, response and tolerability differs between patients. This variability of individual response means that there is no clear first line antipsychotic suitable for all patients. While there is increasing proof that most atypical antipsychotic offer benefits over typical antipsychotics, few long-term trials have openly matched second-generation antipsychotic drugs (SGAs). Since, in comparison with older atypical antipsychotics, like olanzapine and risperidone, aripiprazole and quetiapine are among the newest and safest SGAs therefore in the present assessment the safety and efficacy of them had been compared with each other in a non- western patient population. Based on the outcomes of the current study, no significant difference was evident between aripiprazole and quetiapine regarding improvement of positive and negative symptoms of schizophrenia. For example, while both aripiprazole and quetiapine demonstrated some efficacy in alleviation of positive symptoms, their efficacy was not so pronounced with respect to negative symptoms. General psychopathology and in sight, too, revealed significant improvement with aripiprazole and quetiapine in comparison to other drugs.

### SHOP TODAY'S LOW PRICE TAGS:

We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

### NO LIMITS:

Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Most church denominations testify they trust in Jesus Christ and The Holy Bible is the inspiration of The Holy Father in heaven. Yet The Holy Bible is violated with casual verses against ethical verses to beguile the unlearned and unstable (2Pet 3:16) to believe The Holy Elohim gave a lawless covenant to gentiles. At the onset of changed times and laws for church Christians and continuing for hundreds of years, scripture was kept out of the hands of all but clergy. Those that trust in Christ (Jn 1:1-14, 14:15, 14:24, Heb 13:8, 1Jn 2:3-4) know The Holy Elohim's Covenant (Exodus 12:49, Num 15:29) does not change (Mal 3:6, Mt 5:17-19, Lk 16:17)! So Be It!!

## WAREHOUSE DISCOUNT GROCERIES

# Saving You MONEY

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
