**Hear better. Live better.**

**Experience all the sounds of the season**

Life is enriched by the experiences we have through our five senses. **Hearing** is especially vital. It enables us to communicate our wants, needs, and emotions. Hearing loss can be caused by a number of factors. In the first stages of hearing impairment the high frequencies are lost first, making it difficult to hear or understand high-pitched voices of women and children. Many people suffering from hearing loss are either unaware or ashamed of their condition, and therefore do not utilize the advanced technology available to improve the quality of their hearing. Do your ears ring or hurt with certain sounds? Do you

have difficulty hearing others talk? *The Korver ENT team offers diagnoses and solutions, from hearing aids to surgical options.* Seek an evaluation for your hearing loss today, and enjoy all the sounds of the season.

If you are experiencing hearing loss, your family doctor can refer you to our audiologist Gail Bolton, AuD, for evaluation. Gail brings with her 13 years of experience working with a wide range of hearing loss issues, in people of all ages. Our state-of-the-art sound booth and testing technology means you will receive the best diagnosis for your hearing issues. Depending on the problem, your doctor may also recommend consultation with Dr. Kurt Korver. These services are typically covered by your insurance.
