HAVE YOU HEARD?

We have two audiology clinics in Northwest Iowa to serve your needs and fit your schedule.

At Korver Audiology we offer a medical team approach. At your initial consultation, we look at all options for solving your hearing problem, including medical and surgical intervention and/or amplification devices.

- If hearing aids are your best option, we encourage you to try different devices to see how well they perform - before you make any commitment.
- We don't have commission sales. Whether you choose the most expensive option or the least expensive one - or decide to wait - at Korver Audiology you will feel at ease with no pressure to purchase.
- We offer no-commitment trials to ensure your satisfaction with your decision
- Our hearing devices cost no more than those sold by hearing aid dealers.

Gail Bolton, Au.D., a Sioux Center resident and a member of our audiology and ENT clinic staff, now sees patients in both Sioux Center and Orange City. As a doctor of audiology, Gail has 13 years of experience working with a range of hearing loss causes, in people of all ages.

Is it time for a new furnace or heat pump? If so, ask your heating and cooling professional for an ECM fan. That's the part that blows warm air through your home in the winter, and distributes conditioned air in the summer.

Blower fans with ECMs - or electronically commutated motors - work at varying speeds to deliver only the airflow that is needed, which saves energy. They also run more quietly and control humidity better than conventional fans.

We offer a \$150 rebate for ECMs in new furnaces or air handlers. Rebates are also available for heat pumps and programmable thermostats.
