A judge on national TV said a church is a business and a preacher agreed! Some say they are an organization, not a business. It's public record, most churches are exempt from taxation (since 1894) unless involved in other matters. Then Christian holidays are commercialized which cause many to borrow. Many preachers desire to be paid for strengthening the hands of the wicked by promising them life (Ezek 13:22), yet will not teach what Jesus Christ Biblically taught (Mt 7:21-29, Jn 5:14,8:11, Acts3:23)! So Be It!

Are you a MEDICARE patient with a CPAP?

Do you feel like this poor guy looks? If you can't wear your CPAP because of its bulkiness or discomfort, it's definitely not helping your sleep apnea. Dr Timothy Smith offers a comfortable and convenient alternative: a custom designed oral appliance to move the jaw forward and open the airway. Many of our patients report feeling better and more rested than they have in years. Call us at **(256) 287-1250** about a sleep apnea consultation today.

The U.S. Food and Drug Administration has approved Nuplazid (pimavanserin) tablets, the first drug approved to treat hallucinations and delusions experienced by some people with Parkinson's disease. Hallucinations or delusions can occur in as many as 50 percent of patients with Parkinson's disease at sometime during the course of their illness. People who experience them see or hear things that are not there (hallucinations) and/or have false beliefs (delusions). The hallucinations and delusions experienced with Parkinson's disease are serious symptoms, and can lead to thinking and emotions that are so impaired that the people experiencing them may not relate to loved ones well or take appropriate care of themselves. An estimated 50,000 Americans are diagnosed with Parkinson's disease each year, according to the National Institutes of Health; about one million Americans have the condition. The neurological disorder typically occurs in people over age 60, when cells in the brain that produce a chemical called dopamine become impaired or die. Dopamine helps transmit signals between the areas of the brain that produce smooth, purposeful movement-like eating, writing and shaving. Early symptoms of the disease are subtle and occur gradually. In some people Parkinson's disease progresses more quickly than in others. As the disease progresses, the shaking, or tremor, which affects the majority of people with Parkinson's disease, may begin to interfere with daily activities. Other symptoms may include depression and other emotional changes; hallucinations and delusions; difficulty in swallowing, chewing, and speaking; urinary problems or constipation; skin problems; and sleep disruptions.

A new systematic review of randomized clinical trials lasting 12 to 52 weeks published in the British Journal of Clinical Pharmacology found that when added to metformin, gliclazide confers the lowest risk of hypoglycemia compared with glipizide, glimepiride, and glibenclamide.

Medicare Minute

With Dan Stevens

Post AEP Sign Up

The Annual Enrollment Period (AEP) for 2017 ended on December 7th. This means that, except for a few exceptions, anyone who was on a Medicare prescription drug plan or Medicare Advantage Plan during 2016 will have to wait until next October to make changes to their plan. One such exception is for those who are on Medicare and receiving assistance from the state on their prescription drugs. If you are receiving state assistance on your prescriptions you can make changes any time during the year.

As we have stated before AEP is only for those people who are already on Medicare and wish to enroll in or make changes to their prescription drug plan or Medicare Advantage Plan for 2017. AEP does not affect anyone who is getting Medicare for the first time in 2017 or is on Medicare and leaving employer coverage in the coming year. Medicare will give you a Special Election Period (SEP) for these situations.

If you are getting Medicare for the first time and not on employer insurance you will have 3 months to sign up for a Medicare plan. The 3 months begins the month after your Medicare becomes effective. If you are leaving employer coverage you will have 60 days to enroll. This time starts the day you leave your employer coverage. Although you will have a SEP for both these situations it's a good idea to have your Medicare plan in place before your SEP begins.

It is also important to remember that AEP does not affect Medicare supplements. You can enroll in or make changes to your Medicare supplement at any time during the year. Keep in mind that you may have to go through underwriting to make changes to your supplement. If you are getting Medicare for the first time or leaving employer coverage you can sign up for the supplement 6 months prior to your coverage starting.

If you have questions regarding any aspect of Medicare or Medicare health plans feel free call us at Alabama Health Guidance (256-338-4571), stop by our office at 315 4th Street SW, Cullman, corner of 4th Street & 4th Ave SW, Cullman, or email me at dan@alabamahealthguidance.com

Alabama Health Guidance is an independent insurance agency and is not affiliated with Medicare or any other government agency.

SHOP TODAY'S LOW PRICE TAGS:

We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:

Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Saving You MONEY

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
