FREE SCREENING for Varicose Veins SEPT 9 & 10
Call 712.737.5317

Do you experience discomfort, swelling and varicose veins?

If so, you may be suffering from superficial venous reflux disease. About 25 million people in the U.S. suffer from this condition. Traditionally, patients diagnosed with venous reflux would undergo vein stripping surgery. Now, patients can be treated with the VNUS® Closure® procedure - a minimally invasive and more comfortable alternative to painful vein stripping surgery right here in our clinic.

For medium-size or "spider" veins, an alternative treatment is sclerotherapy - a highly effective procedure that eliminates unwanted spider veins. A medicine is injected into the vessels, which makes them shrink. Spider veins are most common in women age 30-50. Sclerotherapy is a quick, non-surgical solution, done in our doctor's office here in Orange City.

Northwest Surgery - part of Orange City Area Health System - offers these options. If you feel you may be a candidate for either of these procedures, give us a call today! We are offering FREE SCREENINGS, by appointment, on September 9 and 10.

Call to pre-register: 737-5317

Orange City Area Health System
