Bijou Gallery Keeps the Legend of the Witch Ball Alive

Witch balls, as they are called, are spheres of colorful blown glass with strands on the inside, creating a "web" inside the globe. You may have seen them hanging in windows or outdoors, and thought they were simply sun catchers or large ornaments. While they do serve as beautiful, decorative pieces, there is also history and folklore attached to them.

Witch balls came into use more than six centuries ago in Medieval Europe. At that time, they were very rough and not well defined. During the Victorian era, evolving glass techniques were employed to create more refined objects similar to what is available now.

The name "witch ball" is thought to be an adaptation of "watch ball" – so named for its ability to watch over people and places. Some believe that Christmas ornaments were derived from this concept, and were hung on the tree to protect against people who were jealous of the presents beneath, or from bad spirits intent upon ruining the holiday.

There were two different historical uses for witch balls, depending on the type of society that was creating them. In cultures that were friendly to practitioners of the arcane, local witches would enchant the globes with charms and spells meant to protect the home and its inhabitants. In cultures where witchcraft was frowned upon, they had another use. The bright colors of the sphere were said to attract witches, and the powers they used, with the purpose of catching and tangling them up in the strands of the glass web inside. This would protect the home and the society as a whole because the evil powers and spirits would be trapped inside and unable to harm anyone else.

Today, witch balls are meant to absorb negative energy from the environment, as well as directed "curses" from outside sources. Some aficionados believe they should be hung in an east-facing window, but simply having them in the area is enough to catch any stray negativity that might be passing through.

Bijou Gallery offers witch balls of various sizes, made by various glass blowers who lend their personal tastes and skills to the finished piece. "Whether you believe in the folklore or not," says gallery owner Kathryn Buckley, "they're nice to have around."

They're fascinating pieces of art, they're really pretty, and each one is truly a one-of-a-kind. They make wonderful gifts, too. After all, who wouldn't want their environment to be free of evil spirits and negative forces – especially with Halloween just around the corner.

Plan a visit to the old stone cottage on 71 Highway – home of Bijou Gallery, across from Brooks Golf Course.

Save your local economy...
three stores at a time.

- 3** Think about which three independently owned businesses you'd miss most if they were gone. Stop in and say hello. Pick up a little something that will make someone smile. Your contribution is what keeps those businesses around.
- 50** If just half the employed U.S. population spent \$50 each month in independently owned businesses, their purchases would generate more than \$42.6 billion in revenue.* Imagine the positive impact if 3/4 of the employed population did that.
- 68** For every \$100 spent in independently owned stores, \$68 returns to the community through taxes, payroll, and other expenditures. If you spend that in a national chain, only \$43 stays here. Spend it online and *nothing comes home.*
- 1** The number of people it takes to start the trend...you.

Pick 3. Spend 50. Save your local economy.

Huge Win For Hawks

The Iowa Hawkeyes picked up a signature win on Saturday knocking off #19 Wisconsin 10-6 on the road in Camp Randall Stadium. The loss ended a 10 game home winning streak for the Badgers and more importantly moved Iowa to 5-0 on the season and 1-0 in the BIG West. Fans were cautiously optimistic about Iowa's 4-0 start but didn't really know what to expect of the Hawks once they entered BIG play.

The answer came through loud and clear in one of the toughest places to play in all of college football (Wisconsin is 71-9 in their last 80 home games) as Iowa leaned on their defense in their impressive victory. Wisconsin is known as the bully of the BIG as they normally have huge linemen that impose their will on the defense and create huge holes for talented running backs. However on Saturday, Iowa's defense played the bully role, limiting the Badgers to just 86 yards rushing while forcing four turnovers. No turnover was bigger than in the fourth quarter with Wisconsin facing second and goal from the Iowa 1-yard line when Badger QB Joel Stave tripped and lost the ball while trying to hand it off to Taiwan Deal. Iowa's Faith Ekakitie would pounce on the fumble and the Hawks would dodge a big bullet. Iowa's defense did a great job of getting off the field on 3rd downs, limiting Wisconsin to just 4 of 13 third down conversions while also getting a huge 4th down stop at the end of the game with the Badgers threatening at the Iowa 16 yard-line.

If the old adage of defense winning championships holds true the Hawkeyes could be in great shape in the BIG West. Cornerback Desmond King is one of the best in the nation and already has five interceptions on the season, while Drew Ott anchors a defensive line that has played very well all year. Iowa's offense struggled on Saturday, but Jordan Canzeri still managed to gain 125 hard-fought yards, and C.J. Beathard will bounce back from his worst performance of the season. If Iowa handles their business at home next weekend against a very mediocre Illinois team, their October 17th matchup at #16 (probably higher after we go to press) Northwestern will have big time implications for the BIG West Division Championship. It looks like the new bullies of the BIG West have moved west from Madison to Iowa City!

Middle School Planning Update:

The Okoboji school board met on Monday, September 28, to discuss how to move forward regarding the middle school building issue. With three newly elected members, the Board decided to not hold another election in February.

Additional time is needed to reassess the needs and reconsider the options for our middle school students. Plans are also being made to gather additional input from the community. Additional funding options of PPEL (Physical Plant and Equipment Levy) vs. GO (General Obligation Bond) will also be researched.

Everyone is encouraged to become familiar with the issues at hand by attending future meetings, responding to surveys if administered, reading information posted on our district website (Building for our Future tab), visiting the middle school building and asking questions. Thank you for your interest and support of the educational needs of our students both now and in years to come.

Parker Historical Society Oktoberfest

For more information about this event or Parker Historical Society, please contact Cindy McGranahan, Director at 712-262-3304 or at parkermuseum@smunet.net.

Knudtson Exhibits at Nature Center

An old cupboard door, beeswax and a beautiful photograph. It doesn't seem like these items have much in common, but Kar-ess Knudtson puts them together like magic. The environmental education coordinator at the Dickinson County Nature Center spends some of her spare time creating unique works of art that she will display in the eARTH exhibit area at the nature center October-December.

Knudtson's mixed media pieces start with the selection of her canvas --- from a piece of upcycled wood or barn wood planks to a window frame or an antique cupboard door.

"Oftentimes I start with the 'canvas,' which then dictates sizes and possibly what the content will be," Knudtson said.

The next step is selecting a photo from her catalogue of environmental photography, which is often digitally manipulated.

Finally, Knudtson uses an encaustic medium --- a mix of beeswax and damar resin --- to create a layered look. Sometimes the encaustic wax is used in its clear form, sometimes she tints it or paints between the layers with oil paint. She may even mix in other media, like soil.

"All of those processes create different looks," Knudtson said. Her mixed media form has grown through the years, and Knudtson said she was mainly focusing on photography when she discovered the amazing world of encaustic painting. Intrigued, she began reading about the medium and dove in full force.

"The encaustics really gelled everything I had been doing," she said. "It's gone to being less about the pure photography and more about the mixing of several different mediums."

Probably one of her favorite things about encaustics is the natural aspect that the beeswax medium gives to her pieces. The melting wax carries with it just a hint of the sweet smell of honey. This medium has a direct link to honeybees, one of the most prolific pollinators out there.

"As a naturalist and artist, my aim is to bring images captured of nature and create something new utilizing natural products. Using beeswax from pollinators opens a door to educating in the process, it brings it all together," she said. "There are not a lot of media that allow you to do that."

As people examine her pieces, she wants them to be inspired. "It's evolved into hoping the subject matter gleams some appreciation," she said. "One of the pictures that's going to be in the exhibit features a grackle, which is not usually a favorite bird, but when you stop to really examine one as the sun shines on the iridescent feathers on its head, you realize that it really is a very beautiful bird."

An exhibit reception will be held in Knudtson's honor 5:00-7:00pm Thursday, October 8, at the nature center. Hors d'oeuvres and refreshments will be served, and Knudtson will give a short presentation at 6:00pm.

Her works of art will also be for sale, with prices ranging from \$50-\$200.

Aerial View of Milford, Iowa • Picture circa 1950

This picture looks north on Highway 71 showing the Parland Mill (Bever's property) and sales barn. The Fillenwarth's sign (part of Style Craft roof), Eckards station and cabins, Carpenter and Wallace stations, Killian Hotel, the Lutheran church, the high school and football field, old hospital (later apartment building), corn bins by airfield, Tony's and the drive-in theatre, a few buildings and houses in this photo are all gone. But you can see new construction north of town and to the lakes area. This is a nice picture showing that time makes changes.

Left-handed banjo player Dick Petersen leads the Barbary Coast Dixieland Band at the Clay County Fair, on August 16. The band also includes (l-r) Steve Pikal, Fred Richardson, Tom Andrews, Russ Peterson, and Jim ten Benschel.

Barbary Coast Band to soon retire

With all that has been going on lately we were particularly saddened Saturday to hear that the Barbary Coast Dixieland Band is making plans to wind down its national tours and concentrate mostly on venues around the Twin Cities, while several of the members decide what they'll be doing once they 'retire.'

The decision did not come lightly, Dick Petersen told us first thing Saturday morning. "But some of us are nearing 80."

We first became acquainted with the band through then-pianist and clarinet player Dick Ramberg, in 2001, when he became an 'A' Student at Class 104... Ramberg joined what was then the Barbary Coast Banjo Band, in 1968, a year after it was formed at Jimmy's on the Levee, in St. Paul.

We met and first heard the band at the Clay County Fair on 9/11, and have followed them with great interest ever since.

The BCDB has performed all over the country for nearly 50 years — a mark they hope to make in 2017, before calling it 'quits.' The demi-centennial is important to the band members for more than sentimental reasons. They're booked well into 2017, including a winter tour in Florida. (No one ever said musicians were stupid.)

Here's hoping they make it back to the Clay County Fair for at least one more show before a huge (Sorry Mr. Trump) 50th anniversary celebration!

We mentioned last week that John Moore will make his Carnegie Hall debut in the Oratorio Society of New York's November 2 season-opening concert. We also explained that Spirit Lake's Kent Trittle led the New York premiere of the work at the Church of St. Ignatius Loyola, in 2011.

Kent's recent newsletter goes one step further, explaining that the 2011 performance was not only the New York premiere, but the world premiere. And, Kent also conducted the work's debut recording.

As we understand it, there are still tickets available for John's October 14 and 17 performances of *The Barber of Seville*, with the Omaha Opera Company, before he departs for the Big Apple...

Since Millie Kittleson made it back from Minot, N.D., Sunday, in time to listen to Debbie Ankeny at the Little Swan Lake Winery, we expect Glenn Henriksen wasn't far behind, and will be ready to perform Tuesday night, and the following three Tuesday nights, at his place in Spirit Lake, before packing up for the winter months in a warmer climate...

Wednesday night will see a benefit dinner and dance at Table 316 for longtime Iowa Rock 'n' Roll Hall of Fame volunteer Vee Kephart, who continues to battle cancer. There will be an auction and raffle as well as free will donation to help raise funds for her.

Dinner starts at 5:00, with a dance to follow at 7:00. Several of the singers and bands that play regularly at Table 316 are expected to participate in the benefit...

The Spirit Lake High School marching band, *The Force*, has its biggest day of the year Saturday, with early competition in the state high school marching band competition in Sheldon, then *The Pride of the Dutchmen* competition in Orange City. We wish them well...

Scott Larson and Kiefer Brandt will be entertaining at the Little Swan Lake Winery, Thursday night, from 6 - 8:00, where the South 71 Trio will be taking the stage in the barn, Sunday, from 4 - 6 p.m...

Claudia Russell's October 17th FUND raiser at the Little Swan Lake Winery for Jackson's *Rhythm of the River* is now less than two weeks away. While you've probably never heard Claudia sing or watched her perform (as she did at *RotRiver* a few years back), you have no doubt heard a song or two that her dad made popular more than eighty years ago.

Big band singer Val Rosing made the first BBC recording of *Teddy Bears Picnic* (and later, *Try a Little Tenderness*), before emigrating to the United States where he worked for MGM in Hollywood before singing and acting in musicals and light operas around the U.S.

Making the transition from pop to "legitimate" singer, Rosing legally changed his name to Gilbert Russell and sang in the *Chicago Theater of the Air*, the *N.Y. Opera Company*, and the *San Francisco Opera*.

We mention Claudia's dad only because tomorrow — Wednesday — is *National Take Your Teddy Bear to Work or School Day*.

Now if we had a Teddy Bear, a job, or a classroom, we'd be sure to do just that. Following last week's sale of KRAQ-FM, and its sister station, KKOJ-AM, we're at least temporarily shy of all three.

But as Claudia told us about her performances and ours, "the show must go on."

While *Class 105...* has never included dinner, Claudia's show will include Bison Stroganoff along with her fine singing and the accompaniment of her bassist-husband Bruce Kaplan. Tickets for the show with dinner are available at the Winery. Or just email us and we'll get you some.

Take Your Teddy Bear to Work Day is a great opportunity to show off your beloved Teddy Bear to business associates or classmates. Dress him up for the big event. Plan for a big day. Take your Teddy Bear on a tour of the workplace. Bring Teddy to lunch in the cafeteria. And, if your boss or teacher will allow it, let Teddy do some of your work — or homework!

Sidebar: It's a little-known fact that Claudia, who took a radio course or two or three in college out on the left coast, was then known as Claudio Audio. Imagine a radio personality changing his or her name...

*Look forward to seeing you and Claudio Claudia at the Winery on the 17th...

Harvest Night Out

Set your calendar for Saturday, October 17, for a very special event. Scott and Diane Benjamin of Little Swan Lake Winery are excited to be hosting this event to help support the Jackson, Minnesota Music Festival.

A dynamic duo of Claudia Russell and Bruce Kaplan will be performing at the Little Swan Lake Winery to help raise money for the Jackson, Minnesota Music Festival, Rhythm of the River.

Russell is an outstanding singer and songwriter who has shared stages with Dave Carter and Tracy Grammer, Loudon Wainwright III, Steve Forbert, Tish Hinojosa, Kris Kristofferson, Willie Nelson, Darryl Purpose, Peter Rowan, Rosalie Sorrels and Bill Staines, among many others. She is accompanied by the Folk Unlimited Orchestra which includes Bruce Kaplan on mandolin, guitar and vocals, and Mark Petrella on string bass.

Claudia has performed for thousands as cast member in several productions at American Folklore Theater in Door County, Wisconsin, including "Old Friends," "Goodnight, Irene," "Fish and Whistle," and "Sometimes a Song."

Claudia is known for her vocal talent as well as an evocative song writer. She is an expressive and versatile singer, as at home on a soulful ballad as a Buddy Holly style romp.

Tickets are \$20 and include a Bison Stroganoff meal, great music, and your support of Rhythm of the River. The event will take place from 7:00 - 10:00pm. Saturday, October 17.

Little Swan Lake Winery is located 1.5 miles north of Superior on N16. For more information, visit their website at www.lswinery.com or call 712.858.4592.

International Trigeminal Neuralgia Awareness Day -

To talk to Frankie Barrow of Okoboji, you would have no idea that she suffers from trigeminal neuralgia (TN), a.k.a. the "suicide disease", or as many sufferers call it "the beast". October 7 has been designated as International Trigeminal Awareness Day. The color teal is associated with awareness of the disorder. The number affected is not precisely known, but estimates range from 45,000 to 108,000 in the USA.

TN is a chronic pain condition that affects the trigeminal or fifth cranial nerve, which carries sensation from your face to your brain. The typical form causes extreme, sporadic, sudden burning or shock-like facial pain that lasts from a few seconds to as long as two minutes per attack. These attacks can occur in quick succession, one right after the other, sometimes for hours. The intensity of the pain can be physically and mentally incapacitating. It is often described as "the most terrible pain known to man".

"The pain drops you to the floor; it's not just pain though, but excruciating pain, like a lightning bolt just struck you", explained Frankie. Her pain started five years ago while she was away for the weekend in Madison, Wisconsin, attending a wedding shower for her daughter-in-law to be. She assumed that she was having the worst tooth ache possible and couldn't wait to get home to call her dentist. She saw her dentist first thing Monday morning and begged him to extract all her teeth, because it felt like she had intense tooth ache in every single tooth. He explained that there was nothing wrong with her teeth and referred her to an endodontist, who recognized it as trigeminal neuralgia and sent her to a neurologist.

After six years of trying different medications, all of which have their own different side effects, Frankie knows that she will never be free from the pain; it will get worse but never better. It's a disease that is invisible to others. People don't understand TN; they can't unless they have gone through it. It's something you wouldn't wish on your worst enemy. People look at you and think you are healthy, but you're not. The intense flashes of pain can be triggered by chewing, brushing your teeth, putting on makeup, and you are afraid to give or receive a hug. Frankie goes in and out of remission and every morning she wakes up and prays to God – please let me go this day free of pain.

Please wear teal on October 7. Among other cities, the CNN Tower, Toronto; Willis Tower, Chicago; and Trafalgar Square, London will be lit up in teal.

For more information you can contact the face pain assn at: www.fpa-support.org.

Harbor Heritage Choir Fall Musical

Harbor of Joy Lutheran Church's Minister of Music, Bob Floss, has announced the Harbor Heritage Choir will perform their fall musical on Sunday, October 11. Floss said in his announcement, "All are welcome to come join us". The choir will sing at Harbor of Joy Lutheran Church in Milford at 1204 L Avenue at 9:30am and at Faith Lutheran Church in Sibley at 6:30pm.

The musical selected for this fall's performance is "The Only Name... Yours Will Be". Floss says, "Please come and embrace the love of the Savior and celebrate the power and majesty of the name of Jesus. He is the only Name worthy of our praise."

Floss also extends an invitation to those who might like to join the choir for the beginning of rehearsals for the next musical, "The First Noel". These rehearsals begin on Wednesday October 14 at 7:15pm at Harbor and continue each Wednesday for nine weeks. As in the past, an alternative rehearsal is offered each Thursday morning at 9:30 at Harbor.

Harbor of Joy Lutheran Church is affiliated with LCMC (Lutheran Congregations in Missions for Christ). Worship and fellowship begin at 9:00 am each Sunday morning. Visitors are always welcome.

Good Neighbor Month During October

October has been designated "Good Neighbor Month". During the month of October the Good Neighbor Fund will be collecting funds to support the non-profit agencies in our community. The good work of these agencies helps enhance the lives of others.

The Good Neighbor Fund provides substantial funding to local charities that, without the support of community members, would be unable to provide services to our neighbors in need. This year's fund drive goal is \$93,000. Eighteen different local charities have been selected as recipients of funds this year.

If you would like to support the Good Neighbor Fund Drive for 2016, please send your contribution to: Good Neighbor Fund of the Okoboji and Spirit Lake Territory, P.O. Box 454, Spirit Lake, IA 51360.

Be a "good neighbor" and help support this drive today.

Donate Blood With The Red Cross To Support Cancer Patients

During Breast Cancer Awareness Month this October, the American Red Cross encourages eligible donors to give blood to support cancer patients and others needing blood products.

According to the American Cancer Society, breast cancer is the second most common cancer among women in the U.S., with one in eight developing invasive breast cancer in her lifetime. Breast cancer patients may need blood products during chemotherapy, mastectomy surgery or treatment of complications.

Blood donor Mary Thorngate Hall is one such example. She was diagnosed with an aggressive form of breast cancer in 2010.

"I began treatment (with) my first round of chemotherapy lasting six hours. My body did not tolerate it, and I began to hemorrhage," she said. "I needed blood to survive. I cannot express my gratitude to the people who donated their lifesaving blood."

Volunteer donors are the only source of blood products for those needing transfusions. Donors with all blood types are needed, especially those with types O negative, B negative, A negative and AB blood.

To make an appointment to donate blood, download the Red Cross Blood Donor App from app stores or text BLOODAPP to 90999 to receive a download link, visit redcrossblood.org or call 1-800-RED CROSS (1-800-733-2767).

- Upcoming blood donation opportunities:
- Milford – October 21: 1:00pm – 6:00pm, Community Center, 9th and Okoboji
 - Spirit Lake – October 19: 1:00pm – 6:00pm, Grace Lutheran Church, 801 Hill Avenue
 - Estherville – October 20: 1:00pm – 6:00pm, Christensen Activity Center, 300 South 18th Street

How to donate blood: Simply download the American Red Cross Blood Donor App, visit redcrossblood.org or call 1-800-RED CROSS (1-800-733-2767) to make an appointment or for more information. All blood types are needed to ensure a reliable supply for patients. A blood donor card or driver's license or two other forms of identification are required at check-in. Individuals who are 17 years of age (16 with parental consent in some states), weigh at least 110 pounds and are in generally good health may be eligible to donate blood. High school students and other donors 18 years of age and younger also have to meet certain height and weight requirements.

About the American Red Cross: The American Red Cross shelters, feeds and provides emotional support to victims of disasters; supplies about 40 percent of the nation's blood; teaches skills that save lives; provides international humanitarian aid; and supports military members and their families. The Red Cross is a not-for-profit organization that depends on volunteers and the generosity of the American public to perform its mission. For more information, please visit redcross.org or visit us on Twitter at @RedCross.

Co-founder Of Adverse Childhood Experiences Study To Present In Okoboji

Seasons Center for Behavioral Health, an Avera Partner, will host the Adverse Childhood Experiences (ACE) Conference at Arrowwood Resort and Conference Center in Okoboji, on Thursday, October 15. The conference features speakers: Dr. Robert Anda, co-principal investigator and co-founder of the Adverse Childhood Experiences (ACE) Study and Ms. Laura Porter, co-founder of ACE Interface. Additionally, we will have a special keynote between the morning and afternoon sessions from Jennifer Elgersma, mother of Autumn Elgersma, a beautiful three-year-old who lost her life on October 31, 2013, as the result of abuse from her daycare provider.

In the early 1990s, Dr. Anda began a collaboration with Dr. Vincent Felitti at Kaiser Permanente in San Diego to investigate child abuse as an underlying cause of medical, social, and public health problems. This effort led to a large-scale study funded by the CDC to track the effects of childhood trauma on health throughout the lifespan. They called it the Adverse Childhood Experiences Study (ACE Study).

The conference is designed to define and increase awareness and understanding of adverse childhood experiences (ACEs) and their cumulative effects on physical health, social and emotional well-being, and long term influences as risk factors for substance abuse and mental health problems. Participants will be able to better understand the difficulties that arise from ACEs; the prevalence of ACEs in Iowa; trauma and cultural considerations for understanding ACEs; and barriers and opportunities for addressing the prevention and treatment of ACEs. CEUs for social work, nursing, and substance abuse will be available.

"Seasons is excited to host this one day conference with local professionals and community members to provide education on the effects of trauma as well as evidence-based practices in recognizing and treating trauma," says Jean Drey, Director of Program Development.

To register for the conference, please visit <https://seasonscenter.org/conference.php>. For more information on Seasons' services, please visit our website at: www.seasonscenter.org and Facebook page www.facebook.com/SeasonsCenterForBehavioralHealth.

Let's Stand Together in the Fight Against Breast Cancer!

Medical experts agree that early detection is a woman's best defense in overcoming breast cancer. In fact, the National Breast Cancer Foundation reports that when breast cancer is detected in the early, localized stage, the five-year survival rate is 98 percent. The organization encourages every woman to develop an early detection plan consisting of breast selfexams, clinical breast exams and mammograms based on age and health history. To learn more, go to www.nationalbreastcancer.org or consult your healthcare professional.

Art Studio Open To Visitors

Marisa Sidles, a visual artist from Terril, Iowa, will have her studio open to visitors on October 10 (9:00am - 5:00pm) and October 11 (12:00 - 5:00pm), during the Artisans Road Trip, northwest Iowa's self-guided open studio tour.

Stop in and create a personalized spoon pendant or enjoy a snack while you look over the art. For only \$10, you can create your own piece of original art by stamping your name, birth date, poem or a special word on a spoon that has been flattened, creating a personalized necklace or key chain. It only takes a few minutes and will last a lifetime.

The old Terril Post Office, located at 110 North State Street - south of the fire station, now serves as her art studio where she creates original works of art spanning from expressive acrylic paintings to whimsical sculptures made of leftover building and farm materials.

"I invite you to take a break and get creative". Go to www.artisansroadtrip.com for maps and other information about A.R.T. You can contact Marisa by email mreynolds@terril.net or phone 712-363-1307.

Twelve Years Strong & Still Loving It!

By Beth Cathcart, fine arts clay artist

For artists, it takes a lot of organizing, planning, creating, communicating and cleaning to open our personal workspaces to the public. And for the public, we realize and appreciate the loyal commitment of that support year after year. This year, the 12th annual open studio tour will take place on Saturday, October 10, from 9:00am to 5:00pm and Sunday, October 11, from noon until 5:00pm.

12 years? I question, why do artists continue to love (or feel it's important) to be part of this annual event? And secondly, why do people like to attend?"

Here's what a few artists and participants have to say:

- **Bruce Morrison**, photographer/painter – "I love it when people come to my studio, see what I do and ask questions – I learn a lot from this exchange! And people learn something too, in a fun way. I believe (that) the interchange between the artist and public fuels the act of creativity. The biggest barrier to any artist is the issue of 'exposure'. A.R.T. gives the artist a venue for interaction and the potential for the purchase of the work. It also opens the world of 'creativity' to the public."
 - **Linda Fries**, watercolorist – "Oh, the freedom and flow of watercolor and just as the brush takes control; the painter begins a journey and that's when the fun begins. For ten years now, A.R.T. has opened our home studio to the fun bunch that just stops in. And I so enjoy meeting all of these outstanding artists. Each year is richer, better – It's a good time."
 - **Hank Hall**, pottery, drawings, painting – "Sharing my work with the public is something I love to do," says Hank Hall. "I create to satisfy my sense of esthetics, and if someone else gets a kick out of it then it just doesn't get better than that!"
 - **Marisa Sidles**, multi-discipline – "It's a gift, A.R.T. opened a door so the public can see my work. It's like showing them a piece of your heart and sharing a dream. It takes work and courage but the rewards are bountiful."
 - **Halley Rothstein**, multi-discipline – "I've been a gallery director. And, I recognized that need in myself to get out on my own and get involved. At this point I now feel confident enough in my own skills and artwork and applied for membership. Now, I'm showing alongside established art professionals."
 - **Participant Comments** – "I love the talent that we have in Northwest Iowa," explains Molly Loughlin. "I come back because I enjoy the creativity and passion. Every time I go it reminds me that I'm an artist also, in a different light, and I feel something that is a part of me!"
 - "It's a great time to attend in the fall of the year," says Cindy Lindahl. "I enjoy the scenery and run into other friends that I haven't seen in awhile. I love to support the artists and see what they create."
 - "I've only missed one year and am inspired every time," comments Debby Larson. I come to support the artists, see the many good people I've come to know, find original artwork for myself and as gifts. And just enjoy the beauty of the season."
- The A.R.T. artist membership looks forward to spending time with you and anticipates a productive and enriching weekend. Look for our signs at each stop. See you then.

The Spirit Lake Public Library will go live with its new library catalog system on October 6th of 2015. We will be moving to Biblionix by Apollo. We are excited to begin using this new system which provides great customer service and will make many things easier for our library patrons. Here is some news about Biblionix taken from its website (<https://www.biblionix.com/>).

Biblionix is family owned and devoted solely to public libraries. It was founded in 2003, based on years of library experience and they only serve small, public libraries.

Marshall Breeding's annual "Perceptions" survey is an international survey of library automation customers. For the SIXTH straight year, Apollo received top rankings in ALL categories.

Search all your local libraries with one click! You will be able to search Milford, Estherville, Spencer public libraries too with one click in the online catalog! Just click on the link to search nearby libraries and you'll be able to find which one has the material you're looking for.

One of Apollo's strengths is their 'Single Sign-On' approach which means that once you log-in to the library's catalog, you are also logged in to all of its online resources. This means that you won't have multiple logins to check out an e-book from Bridges.

You will be able to move right into your saved test prep on Learning Express, or find your automotive solutions with Chilton's Online Automotive Resources just by logging in to your account on the library's catalog page.

Researching some antiques? Check out the library's catalog for print resources and then go directly into our Pricelt Antique & Collectible's database.

Looking for a magazine? Check our catalog and then go directly into Zinio, the library's online magazine resource. Zinio makes it easy to check out your favorite magazine from anywhere and keep it on your device – no due dates! No returns!

Please be patient with us! To make your checkout experience easier, please bring in your library card. This will make your checkout experience faster and will help staff learning how to use the new system. Please experiment with the new catalog. You can login on the upper right corner of the catalog. Explore! Try the single sign-on to access our databases.

Tell us what you think – we're here for you!

Tales Of Tails

This week's "tale" is that of Cocoa, a female Labrador/Poodle mix who hasn't been very lucky being adopted. She was ecstatic when a kind lady picked her out to go home with her over a year ago. All seemed well until the lady and her husband's work schedules changed, leaving Cocoa alone for twelve hours each day. She needed love and attention they couldn't give, so Cocoa was returned to the Humane Society where she's been waiting patiently for a new owner. As a result of losing her home, she's afraid to go outside on her own thinking her home has turned her away once more. She loves to go for walks on a leash, which makes her feel secure and loved. Cocoa enjoys people and gets along well with other dogs. She's looking for a "forever" home with an affectionate family who can appreciate her company. Remember... "In a perfect world every animal would have a home and every home would have a pet!"

Call the Northwest Humane Society at 721-338-2738 or come see the animals at 607 28th Street - open Thursday through Sunday, noon to 6:00pm.

Lake Park Public Library and Daughters of American Revolution are honoring Vietnam Veterans the month of October.

Collette Travis, our Commemorator of the Anniversary of the Vietnam War Chairperson, is asking the Lake Park area Veterans to bring stories and their pictures to the Lake Park Public library and we will display them here in the library. To join DAR you must trace your heritage to the Revolutionary War. There are 2000 Veterans in Daughters of the American Revolution and 600 active female soldiers who are serving our country now. There are 69 members of the Ladies of the Lake doing DAR committee work including honoring our Vietnam Veterans and all veterans. We are a partner with the Vietnam veterans Commemorations committee. It is their vision to individually thank and honor each of our 7.2 million living Vietnam veterans and the 9 million families of those who served in uniform from November 1, 1955 to May 15, 1975, a challenging period in American history. "Do you want to tell your war story first or shall I tell mine?" Collette is married to a Vietnam Veteran and also has his picture in the Lake Park Library. Her husband is Robert Travis. Go and see his pictures and his story. Bring your story to share.

Lake Park Public Library has already had on display one of our local Vietnam Vets. His name is Wayne Fischer, Captain USMCR, HMM 363. He has donated a book he wrote, including personal pictures taken during his tour in Vietnam. Also on display are photos of Wayne taken during the 12 months and 20 days he flew the H-34 helicopter during his tour. When he is asked "When were you there?" His response now is "I was there last night". "As with all veterans, you never forget your experience, especially in combat. You think about it daily, especially before you go to sleep. Why then? I think because this is the time to reflect on what you have done in life and to be thankful for everything one has. It does change you in many ways. You hope for the best, but you deal with what it is". Wayne grew up on a farm in Sioux Valley, Minnesota.

As Winston Churchill said, "never in the field of human conflict was so much owed by so many to so few." Let all of us thank and honor them however you can.

In the President's Proclamation President Obama says, "As we observe the 50th Anniversary of the Vietnam War we reflect with solemn reverence upon the valor of a generation that served with honor. We pay tribute to these men and women who served their country a world away from everything they knew and everyone they loved. Through a decade of combat, over air, land and sea these proud men and women upheld the highest traditions of our Armed Forces." This will be a project we will continue until 2020. Keep posted and keep saying thank you.

Come in and check out our display. It will be well worth your time.

Rebuilding HOPE is a new charity that will be focusing on home repair, improvement and beautification. The mission is to provide a better quality of living through home repair and beautification for those in need. Rebuilding HOPE believes people will take pride in their homes and community if they have a nice place to live. There are circumstances that don't allow people to do the necessary repairs or upkeep needed to keep their homes in good condition. The charity wants to step in and help these people out. Services provided include lawn mowing, painting, and major repairs. They will consider all needs and help where possible. Through different fundraising efforts and help from local businesses, contractors and citizens, they hope to not only improve individual lives, but also develop the community as a whole.

For more information about the Zombie Walk or Rebuilding HOPE charity, follow the walk on Facebook at "Spencer Iowa Zombie Walk" or email spenceriazombiewalk@gmail.com.

Under-rated Squash
Welcome to farm market news. What is the largest plant cultivated to be eaten? What plant is the basis for a holiday? What plant has the largest dessert attributed to its genus? The squash is the answer. Some fruits have grown to over 2 thousand pounds with records broken almost every year. Halloween would not exist without the pumpkin and the pumpkin pie serves as the largest dessert made from a plant as it beats the apple every year. Plus, the fact that Carl Linnaeus went on to write 5 editions of his "Systema Naturae" because the squash was so versatile and changing all the time. Apparently the squash is easier to genetically modify than the pea. Sorry Fr. Mendel. Now with an introduction like that, how is it that the squash today is used mostly for fall decoration? A storehouse of vitamins and natural sugars and this plant will be photographed thousands of times this season as a scary appointment to a home. Well, it is also a fact the gourds store so well that eating fresh baked squash in January is common. No other plants have that kind of pedigree and this would be a good year to raise our appreciation of this over-looked edible gourd.

Winding Down
Every year the market goes into hibernation and this year is no different. Saturday is the last official day of being inside as the vendors want a permanent place to carry on business. This is something that will be looked into with vigor as the market is such a benefit to the community as a whole plus it is expanding every single season. So yes, this is time to look at expansion. Not to get into profound economic theory, but simply stated "every dollar spent at the market not only stays in the county, but it has a multiplying effect". More vendors don't diminish the multiplying effect either, in fact it increases the breath of the effect. So spend more money while eating well and see the improvement to the community as a whole.

Go CUBS!
Dear readers: "Disappointment - get used to it" has been my baseball motto for the last half century as my very first Cub game was in 1968 and we beat Don Drysdale starting the many years of misery that all Cub fans face. But not this year, we are going all the way in October and will be World Champions. You read it here first. Until next week eat well.

Lisa Sue Hansen Finishes Her 50 States

by Randall Hansen

My wife, Lisa Sue Hansen, completed Her quest to finish a 26.2 mile marathon road race in each of the 50 states and Washington D.C. She did this in West Virginia in a trail run, a very tough 50k (31 miles) on July 11, 2015. It is a major accomplishment for anyone to do, but especially unique and hard for my girl Lisa. I am so proud of her. You see, Lisa not only did 9 marathons while being diagnosed and treated for cancer cells in her neck in 2013, but she also has a bladder condition known as interstitial cystitis a thinning of the bladder walls and bladder pain. About 4 million women have this and a million men the I.C. society now figures. She is the 475th person in our marathon club the 50 and D.C. marathon Group USA to complete the circuit once. I am certain she is the first person in history to do this while having I.C.. I say this to put Lisa's accomplishment into proper perspective.

I first met Lisa on a bus after the marathon heading back to our cars to storm Lake, Iowa, from Marathon, Iowa. She tried to find me for a year. I remembered telling her about Grandma's Marathon in Duluth, Minnesota, and decided to go back and get my 10th - and besides, the little girl on the bus from Nebraska might be there. She leaned over a railing and yelled at me while I was finishing up my spaghetti at the DEC building in Duluth, and said "you wait right there. You are not getting away this time". To make it short, I did and did not get away. We met every 2 weeks and talked on the phone constantly. We got married 5 months later.

Lisa moved to Iowa with me and we did some marathons together and polka dances too as she is from the Czech polka culture and dances the Polka Hop exceptionally well and also plays two kinds of accordions. She was a Czech Queen and a finalist runner-up in the Nebraska state finals. Lisa and I also sing karaoke to the residents at the nursing home every month and she plays those accordions for them. But in 2011, she told me she just had to do the 50 states as I had done once. I finished mine in 2002, before I met her, but never figured to do it again (but was still running marathons). So she started her quest at Fox Cities in Appleton, Wisconsin, in September of 2011. She had done her required 10 states to join the club by 2010. Lisa and I are about the doing and finishing

of marathons. She has this drive in her to *Just do it. Get that medal.* When she had to start her cancer treatments in May of 2013, she would take several of her previous finisher medals with her and wear a nice running outfit while taking her five and a half hour chemos every three weeks. They were amazed that she wanted to continue her marathon schedule during this time, but said they would come alongside to help. I sat with her through these and she had a tremendous positive attitude and that quest to do her 50 was a real positive factor in her overcoming her cancer. She actually did a 13.1 mile half-marathon training run the day after her first strongest chemo cocktail. The doctors could never find the source of her cancer in her neck, but called it nondescript and believed she had a small tumor which her own body destroyed because of her fitness level. She always says she follows the beat of her own drummer and listens only to God and me and ignores negative people. Lisa was declared cancer free in November of 2013, thank the Lord. It is not easy to finish marathons at any speed or longer runs. Lisa kept her continuity and exercise schedule of workouts at Anytime Fitness and training runs. It has been a real spiritual quest to do this with Lisa. We are both Christians in the born again sense and we do this as a Christian witness, as I did my first time. We did runs in Alaska, Honolulu, Denver and Seattle the year after they were in the Super Bowl. Actually, we ran through Sports Authority Stadium in Denver twice and finished near the Space Needle in Seattle. Started at Dodger Stadium and ran to Santa Monica in the L.A. marathon with 28,000 runners. Lisa also met some really famous running people doing her quest. Jeff Galloway, John Bingham, Bill Rogers, Dean Karnazes, and Frank Shorter were some. We went to some of their lectures around the country.
I am so proud of her and love her dearly. She plans on doing some more marathons and to keep running. We want to thank all the great people we met who encouraged Lisa and I along the way to achieve this quest. There are too many to name but we appreciate each of you. God bless the race directors, volunteers, fellow runners and all the wonderful spectators cheering us all on.
Lisa and Randall Hansen the Fifty States couple from Estherville, Iowa, and the only ones in town.

Community for a Cure
Let's Stand Together in the Fight Against Breast Cancer!

Medical experts agree that early detection is a woman's best defense in overcoming breast cancer. In fact, the National Breast Cancer Foundation reports that when breast cancer is detected in the early, localized stage, the five-year survival rate is 98 percent. The organization encourages every woman to develop an early detection plan consisting of breast self-exams, clinical breast exams and mammograms based on age and health history. Birthday Announcement

Happy 80th birthday to Ron Zellers, of Arnolds Park. Ron was born on October 1, 1935, in Sioux City, Iowa. He will celebrate his birthday weekend with family in Minneapolis at the Minnesota Twins baseball game.

"Iowa Hidden Treasures"

At 1:30pm on Tuesday, October 13, at Keelson Harbour, off Highway 71, at 2810 Aurora Avenue, in Spirit Lake, all area residents will have the opportunity to learn more about Iowa's numerous interesting sites from an "expert" native Iowan - one who lists Spirit Lake as his second home.

Dan Kaercher is the retired founding editor-in-chief of "Midwest Living" magazine and host of "Iowa's Simple Pleasures" and other travel-related programs aired on Iowa Public Television and other public television stations nationally. A native of Council Bluffs, he graduated from the University of Nebraska at Omaha, majoring in journalism. During his extensive, award-winning media career at Meredith Corporation in Des Moines, Dan served as a writer and editor for such publications as "Better Homes and Gardens", "WOOD" magazine and "BH&G Special Interest Publications". He spent 21 years as founding editor-in-chief of "Midwest Living" magazine, published by Meredith. The popular regional publication focuses primarily on travel, food, home and garden information for readers in the 12 Midwest states ranging from Nebraska to Ohio, Michigan to Kansas (with Iowa at the heart of it all). Dan also hosted "Midwest Living Radio Magazine", which aired on more than 100 stations in the region. He is the author of three books about the Midwest and Iowa: *Best of Midwest*, *Taste of the Midwest*, and *Parklands of the Midwest*. Long a popular public speaker, Dan now spends his time primarily in Urbandale and Spirit Lake, with his wife, Julie, their two children and two grandchildren. Julie Kaercher's family has owned a home on Spirit Lake for over 100 years.

Kaercher's free presentation on October 13 is titled "Iowa's Hidden Treasures". As editor of "Midwest Living" and host of IPTV's program "Iowa's Simple Pleasures", Kaercher has spent years traveling in almost every one of Iowa's 99 counties in search of close-to-home attractions and getaways to share with his loyal readers and viewers. He has explored historic sites, parks, natural wonders, quaint small towns, big city attractions, museums and eateries. Iowans wanting to learn more about their home state or those wishing to explore state-wide attractions on day trips will find Kaercher's speech an answer to their concerns. He knows our area and he knows the entire state of Iowa perhaps better than any other tourism aficionado. Profit from his expertise by attending his talk "Iowa's Hidden Treasures" on Tuesday, October 13, at Keelson Harbour (enter at the east door).

Kaercher's talk is presented by Ladies of the Lake Chapter of DAR and Keelson Harbour with a grant from the Humanities Iowa and the National Endowment for the Humanities. Anyone having any questions regarding the presentation, please call DAR Ladies of the Lake Regent, Colleen Lemkuil at 515-229-4619 or Maryanna Hubbard at 712-332-7919.

Seasons Center Therapists Attend Specialized Training

Seasons Center for Behavioral Health, Therapy Specialist, Nikki Van Ginkel, LISW, and Outpatient Therapist, Ashley Courtney, LMFT, participated in a three day training workshop on Project ImPACT.

Project ImPACT is an evidence-based intervention that teaches social skills communication to children with autism spectrum (ASD) and related disorders, ages 18 months to 6 years. It uses a blend of developmental and naturalistic behavioral intervention strategies that are compatible with a variety of intervention models. It can be used as a direct intervention or a parent-mediated intervention.

"Project ImPACT will provide our therapists with another clinical strategy for working with parents and their children who have been diagnosed with an autism spectrum disorder," says Natalie Sandbulte, Director of Clinical Services. "We see a need for specialized services in working with children and families and are committed to providing our clinicians with these types of training opportunities to meet the needs in our service area."

Seasons is a non-profit organization and has been providing a broad range of psychiatric and behavioral health services to people and communities in Northwest Iowa since 1959. Seasons strives to provide exceptional care to children, families, and adults through skilled, dedicated, and passionate employees who use evidence-based treatment practices and innovative treatment techniques.

LETTERS TO THE EDITOR

Dear Editor:

Mental Illness Awareness Week is October 4-10. Learning more about the prevalence and effects of mental illness within your communities can help us sort through the misconceptions and aid individuals in a meaningful way who struggle with mental illness.

Did you know one (1) in 5 people live with a mental health condition, 6% experiences mental illness in a given year and that approximately 1 in 25 adults in the U.S. - 13.6 million, or 4.1% of the U.S. population experiences a serious mental illness in a given year that substantially interferes with or limits one or more major life activities?

Did you know 1.1% of adults in the U.S. live with schizophrenia, 2.6% of adults in the U.S. live with bipolar disorder and that among the 20.7 million adults in the U.S. who experienced a substance use disorder, 40.7% - 8.4 million adults - had a co-occurring mental illness? Only 41% of adults in the U.S. with a mental health condition received mental health services in the past year and among adults with a serious mental illness, 62.9% received mental health services in the past year.

For individuals who come in contact with the criminal justice system, approximately 20% of state prisoners and 21% of local jail prisoners have "a recent history" of a mental health condition. Seventy (70%) of youth in juvenile justice systems have at least one mental health condition and at least 20% live with a serious mental illness.

Approximately 1 in 5 youth aged 13-18 (21.4%) experiences a severe mental disorder at some point during their life. For children aged 8-15, the estimate is 13% and just over half (50.6%) of children aged 8-15 received mental health services in the previous year. Mood disorders, including major depression, dysthymic disorder and bipolar disorder, are the third most common cause of hospitalization in the U.S. for both youth and adults aged 18-44. Over one-third (37%) of students with a mental health condition age 14-21 and older who are served by special education drop out - the highest dropout rate of any disability group.

Suicide is the 10th leading cause of death in the U.S., the 3rd leading cause of death for people aged 10-24 and the 2nd leading cause of death for people aged 15-24. More than 90% of children who die by suicide have a mental health condition. Each day, an estimated 18-22 veterans die by suicide.

The consequences for the lack of treatment of serious mental illness costs America \$193.2 billion in lost earnings per year. Individuals living with serious mental illness face an increased risk of having chronic medical conditions. Adults in the U.S. living with serious mental illness die on average 25 years earlier than others, largely due to treatable medical conditions.

Every day we fight stigma, provide support, educate the public, and advocate for equal care. Each year, the movement through the National Alliance on Mental Illness and other supportive networks grows stronger. You can do your part by raising awareness on your own, as part of a small group or part of your community to make a difference. Learn about mental health and what it means to live with a mental illness. Fight misconceptions and stereotypes. Be there for friends, family members and others in need. Teach others about the most effective treatment solutions that have the greatest chance to allow someone achieve recovery.

We ask for your help by taking action and raising awareness of mental health conditions to break down obstacles and improve the chance of recovery for the millions of Americans with a mental illness.

Sincerely,
 Kim Wilson • NAMI of NW IA

Milford Library News

All 5th-12th grade students are invited to come to the Milford Memorial Library on Tuesday, October 13, at 3:30pm to make masks. Choose from templates provided by the library or create your own. All supplies are provided by the library at no cost to the students.

An open meeting of the Board of Trustees for the Milford Memorial Library will be held Wednesday, October 7, at 5:30pm. Should you upgrade to Windows 10? How does Windows 10 Work? Join Jeff Cookinham Wednesday, October 7, at 6:30pm, to learn more about Windows 10.

Thursday, October 8, at 10:00am, we will be looking for our Shelf Elves. Volunteers take on the task of organizing and cleaning a section of shelves. This helps our librarians and it will make sure you can find the book you are looking for that might have otherwise been misplaced.

If you are in preschool through 4th grade and need something to do after school on Thursday, October 8, stop by the library. Join Betty Naab, our children's librarian, as she hosts the after school craft party. The theme for this week is "Halloween Bingo." Join us for great stories and much more every Friday morning at 10:00! Betty, our children's librarian, looks forward to sharing stories with you! No pre-registration is necessary. The theme this week is "Animals in the Fall."

The Milford Memorial Library will be closed Monday, October 12, for Columbus Day.

Clay County Regional Events Center Presents 1st Annual Autumn Social

The Clay County Regional Events Center will be hosting the 1st Annual Autumn Social on the Clay County Fairgrounds Saturday, October 17, 2015.

"One of the goals when the Fair assumed management of the Events Center this summer was to create new events for people to enjoy," said CCF Manager Jeremy Parsons. "The Autumn Social is exactly the type of event we had in mind - truly an event with something for everyone."

From noon-4:00pm, enjoy family friendly activities such as a s'mores bar, yard twister, football toss, remote control race car track, petting zoo, mini golf, candy apply bar, plus much more. While admission is free for the Autumn Social, game cards for some of the activities are available for purchase that day upon arrival (1 activity for \$5, 3 for \$8, 6 for \$14, and 19 for \$20). A pumpkin spice competition will take place, as well as concessions available all day.

From 4:00pm-8:00pm, country artists Brad Morgan and Josh Dorr will take the stage outside on the south side of the Events Center. Brad Morgan was born and raised in a small Iowa farm town. He was brought up surrounded by music and began performing at an early age. By the time he was 19 years old, Morgan was playing all over the midwest. At age 22, he decided to make a change and made the move to Nashville to further his career.

Josh Dorr states, "One of my long-term goals is to keep my sound one step ahead of the rest; I want to be what everyone else is chasing." With that in mind, the 26-year-old singer/songwriter and RCA Nashville recording artist hit the ground running with a bold and ambitious mindset for the release of his 2014 major-label debut, the four-song Josh Dorr - EP. Produced by Jim Catino, the collection features three songs co-written by Dorr on an EP that underscores the lyric-driven, rock-edged brand of country that Dorr calls his own.

Tickets for the concert are on sale now. Ticket prices are \$18 in advance and \$23 at the door. Tickets can be purchased at the Events Center Box Office (M-F, 9a-5p), online at www.midwestix.com, or charge by phone 515-244-2771.
