To all my wonderful customers:  
Please allow me to clarify the rumors regarding the sale of my company and my retirement. Neither are true! I do intend to transfer my business by January 2019, but will continue to have an active role in its production and function. I am proud of the 37 years of service that I have offered the region and plan on many more years of being the "BUG LADY".

**Vote For Ken Weaver KCS School Board!**

As community voters, you can't veto the budget without impacting the students. However, you can select the best qualified board members to oversee budget expenditures.

The incumbents have approved a plan to hire more admin staff, i.e. principals, etc., for a population that has gone from 1200+ to 690+ students over the years. Additionally, there are a number of budget line items that don't impact the students to be better educated or best prepared to get a job or be successful in college.

If YOU want this for your youth, DON'T vote for me!

If YOU want more budget dollars and focus going towards student activities/supplies & needed teachers/courses, then **VOTE FOR KEN WEAVER on MAY 16th.**

Thank you!

## ADVANCE YOUR PROFESSIONAL AND PERSONAL DEVELOPMENT

### Remote (sUAS) Pilot Knowledge Test Prep

**Fee:** \$495 (includes materials and instruction)

To legally operate a drone for any business purpose, FAA regulations now require remote pilot certification. This course prepares you to successfully pass the comprehensive FAA knowledge test, which includes general aviation topics in addition to drone-specific information. Topics covered include regulations, airspace, weather, loading performance and operations. The course fee includes a workbook, 50 FAA sample test questions and six hours of instruction. Certification testing must be administered at an authorized FAA Knowledge Testing Center and is NOT included in the course fee. *Register by May 12th.*

#### Batavia Campus

Saturday, May 20 • 9:00 am-4:00 pm

### STARTING A BUSINESS SERIES

Do you have an idea that might create a business opportunity? Do you have a hobby you enjoy that might also be a business? Is it your dream to run your own company? The "Starting A Business Series" is a two-part program which covers the exploration of business possibilities and the development of a business plan. You can take each course separately or both depending on your entrepreneurial needs!

### Workshop: Exploring a Business Opportunity

**Fee:** \$39

For anyone considering or planning to start a business. Topics will include deciding what business might be right for you, how to pursue it, determining if a market exists, forming a sole proprietorship, partnership or corporation, what makes a successful entrepreneur, pitfalls and free resources that are available to you. *Register by May 17th.*

#### Batavia Campus

Wednesday, May 24 • 6:00-9:00 pm

### From Business Concept to Reality

**Fee:** \$149

This course will introduce current and future small-business owners to the concept of a business plan — a necessary tool for the success and survival of any new business. Students will create an action outline, including the following business-planning topics: vision, mission, objectives, strategies, business structure, market analysis, market planning and financial analysis. Bring your ideas and any business materials that you have created. *Register by May 31st.*

#### Batavia Campus

### INTRODUCTION TO PRECISION AGRICULTURE

#### Precision Ag & Data Collection

**Fee:** \$149

This course will provide the foundational knowledge of precision agriculture and the application of related technologies. Since soil health is the foundation of current agronomy practices, this course will maintain a central focus on soil health. Units of instruction that will be covered include: Introduction to Precision Agriculture, History of Agriculture, Demands on Agronomy, Soil Sample-Controlled Testing, Collecting and Testing Soil Samples. Learning activities include: developing working notes that can be referred to as needed in class and after completing the course; collecting eight soil samples from a participating agronomist; testing soil samples' physical, chemical and biological composition to determine greatest opportunity for improvement; using USDA guidelines to present potential scripts or soil treatment to improve yield and future use of land; and presenting results to participating agronomist and/or publically upon completion of the courses. Two classes will be held at the GCC Batavia Campus and three classes will be at Perry Central School in collaboration with a host farm in Perry, NY. This course is intended to be the first part of a two-part course. *Register by May 24th.*

#### Batavia Campus

(5) Thursdays, June 1-29 • 6:00-9:00 pm

### Precision Ag — Making Data Useful

**Fee:** \$149

This course is Part 2 of Introduction to Precision Agriculture. Part 2 is a continuation of the analysis of the soil samples collected from Part 1. Students will interpret data, analyze the results, identify USDA guidelines to identify changes that would improve soil conditions, create a presentation covering their overall experience and results learned from the soil sample testing and wrap up the class with agribusiness and/or agronomist presentations. Three classes will be held at Perry Central School and the last two classes will be at the GCC Batavia Campus. NO CLASS July 27th. *Register by May 24th.*

## Wisdom Teeth

Wisdom teeth are always the last teeth to typically erupt in the mouth. Although your teen's mouth may seem big enough to accommodate them, most often it is not. As soon as it is clear that the wisdom teeth, technically known as third molars, will not grow in normally, they should be removed. Early removal of the wisdom teeth lessens the risk that your teen will experience impacted or partial eruption, and the complications that often result.
