MEDINA TEACHER AND STUDENTS RECOGNIZED AT ORLEANS COUNTY YOUTH AWARDS

Above, L-R: Vincent Viterna and Sarah Granchelli.

Above, L-R: Serenity Baumgart, Eric Gross, and Robert Vidovich.

The Orleans County Youth Board honored Clifford Wise Intermediate School Physical Education teacher Eric Gross and Clifford Wise students Serenity Baumgart and Robert Vidovich and High School students Sarah Granchelli, Zachary Petry and Vincent Viterna for their service to the community during the 35th annual Youth Recognition Banquet on Thursday at Hickory Ridge Golf and Country Club.

The people recognized do numerous acts of service, from volunteering at animal shelters, their local fire department, nursing homes and other community organizations.

Eric Gross received the Helen R. Brinsmaid Professional Award, given to a paid professional whose work exceeds normal expectations.

Mr. Gross is a physical education teacher and coach at Medina's Clifford H. Wise Intermediate/Middle School. A co-worker, Kristy Young said, "Mr. Gross is a humble person with a contagious positive attitude. He gives his own money and time to help student athletes at Medina, taking them to appointments and making sure they have the proper equipment."

He grew up in Medina and has worked as a teacher for 16 years, coaching cross country, track and wrestling. He says he is fortunate in his job to have strong support from Medina families, his co-workers and the staff at the school, as well as his own family. "It was very nice to be nominated by my colleagues and being recognized for what I do and enjoy doing every single day working with youth and trying to help them."

Serenity Baumgart who is 12 years old, volunteers at PAWS Animal Shelter and has helped with community clean-ups and can often be found picking up garbage or cleaning debris off the side of the road after inclement weather. She often babysits and pet sits for friends and family and known for being very hard working and polite. She was nominated by school counselors, Lindsay Fassel and Tina DeSimone. Serenity said that she felt proud of herself for winning the award. "It was exciting for me knowing that I was recognized and that all my hard work paid off."

Robert Vidovich III who is 13 years old is known for being a kind and caring young man and is often seen picking up debris and garbage, especially after windstorms. He has also been known to shovel snow for others. When his family home caught on fire he managed to get his whole family out and their two dogs. Thanks to quick action, the house was able to be saved. Robert said, "I just did what I was supposed to and I try to help out in the community as much as I can." He was nominated by his technology teacher Giovanna Pelligra.

Sarah Granchelli, is 18 years old and has logged countless hours of community service. In the last year alone, she has volunteered 120 hours helping the residents at the Orchard Manor Nursing Home. She is very active in her church and has been a Sunday school assistant teacher since 2010. Last year she spent a week as a leadership intern for Camp Intervention, which is a STEM learning camp working with students in grades 3-4. She also assisted in the Red Cross Blood Drive and has volunteered to work with the students at Oak Orchard Primary School. "I was pretty surprised I won. My teacher didn't tell me I had been nominated until I learned that I won. It was a big thrill for me." She was nominated by teacher Scott Benson.

Zachary Petry is 18 years old and has been a member of the Shelby Volunteer Fire Company for over two years. Before that he was a junior firefighter. He is very active in the company and has trained very hard since joining. He has also helped out at many fundraising events at the fire hall and has learned to run and drive firetrucks and off-road vehicles. He was nominated by Howard Watts, the Assistant Chief of Shelby Volunteer Fire Company.

Vincent Viterna, is 17 years old and also active in the Shelby Volunteer Fire Company. He has completed his firefighter training during the 2016-17 year and has put in 104 hours of hard work. He has accomplished smokehouse training, air pack training and other exercises. He also helps out with raffles and fundraisers. "I love working with the Shelby Fire Department," he says. He was nominated by Howard Watts, the Assistant Chief of Shelby Volunteer Fire Company.

CAREER AND TECH ED STUDENTS GET UP CLOSE LOOK AT U.S. ARMY VEHICLE

Students in several career and technical education classes at the Orleans Career and Technical Education Center, recently got a chance to talk to U.S. Army representatives from Niagara Falls and see one of their vehicles.

Staff Sergeant James Vasquez, Sergeant Patrick Kirchgessner and Sergeant Joshua Nansel stopped in to talk to students about careers in the United States Army and show off a Heavy Expanded Mobility Tactical Truck (HEMTT). The students got to explore the vehicle and had many questions for the representatives.

The vehicle is an eight-wheel drive, diesel-powered, 10 short-ton (9,100 kg) tactical truck used by the U.S. military and others. The HEMTT has heavy transport capabilities for supply and re-supply of combat vehicles and weapons systems. Staff Sergeant Vasquez says that the HEMTT is multipurpose and can be used to carry anything smaller than itself. "It is a great vehicle to expose the students to like Diesel Technology and Welding classes."

Staff Sergeant Vasquez, Sergeant Kirchgessner, Sergeant Nansel and teacher Eric Farrell's Welding students: Zach Aiken (Royalton Hartland), Chase Albone (Lyndonville), Anthony Belgiorno (Lyndonville), Courtney Christ (Albion), Alex Freeman (Lyndonville), Dakota Kaczynski (Newfane), Nicholas Kubas (Royalton Hartland), Cameron Lambert (Royalton Hartland), Kayla Licht (Newfane), Tim Maines (Royalton Hartland), Nik Ricci (Lyndonville), Josh Rodebaugh (Newfane), Jay Silversmith (Lyndonville), Matt Snyder (Newfane) and Derek Uschold (Barker).

ALBION HIGH SCHOOL ROTARY INTERACT CLUB VISITS EAST HIGH SCHOOL

Members of the Albion High School Rotary Interact Club recently visited East High School in inner city Rochester as part of a student cultural exchange. The students learned how life in an urban school is both similar and different than one in a rural district. Earlier in the year East High students visited Albion, enjoying both time at the school as well as a visit to a dairy farm and Mt. Albion Cemetery. Advisor Tim Archer called the activity an "enriching experience" for both sets of students. AHS Interact students who attended included Emily Blanchard, Nikki Eldred, Shannon Broda, Riley Seielstad, Evan Steier, Jarod Hollinger, Celeste Hoffman, Emilie Barleban, Haley Bader and Matilda Erakare.

MEDINA'S MELANIE GREEN IS BEST FEMALE HIGH SCHOOL GOLFER IN WESTERN NEW YORK

Medina's own Melanie Green has captured the Section VI Girls golf title!

A freshman at the high school, she made birdie on two of the final four holes to put her ahead Alexis Kim of Clarence, who was the defending champion at the Tan Tara Golf Club. The tournament was the qualifier for the NYS Public High Schools Athletic Association Championship.

Melanie fired a four over par 76 and was one of just two golfers to break 80. "It's an honor to do this for my school, coaches and my team," says Melanie. She will be traveling to Bethpage State Park in Long Island to compete in the state tournament. We are wishing her the best of luck with bringing home the state title!

THE LAW AND YOU

BY NATHAN D. PACE
ATTORNEY AT LAW
COUNTER PROPOSAL

Defendants in civil lawsuits can go beyond merely defending themselves against the action—they can file a countersuit against anyone who is thought to be responsible for the suit or related problems. The person filing the countersuit remains a defendant in the original complaint and also becomes a type of plaintiff known as a cross-plaintiff (or -complainant). Whoever is sued in the countersuit, including the original plaintiff, becomes a cross-defendant (counter-defendant). While legally the countersuit is treated as a completely new complaint, it becomes connected to the original complaint. From then on, all proceedings include both the original suit and the countersuit. All facts developed in the litigation may be used to prove or disprove either case.

If you are involved in a civil lawsuit and believe you have a claim against the plaintiff, you will need our help. Our experienced attorneys will tell you what your rights are and what you can expect from a countersuit. Don't wait another minute, call the **Law Office of MACK & PACE** for a consultation. We can answer any questions you have by calling to schedule an appointment.

May is
World Stroke Month

Do you have HEEL pain or ARCH pain?

HEEL SPUR SYNDROME/PLANTAR FASCITIS

is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.
- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.
- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.
- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and EPF resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

If you can't remember when your feet didn't hurt, now is the time to give us a call!

CAN YOU SHOOT CARDINALS OR PAINT BIRDS?

By Douglas H. Domedion

This piebald Canada goose looks like someone spilled white paint on his head and neck!

I have had it happen with other birds before, but not as bad as with this guy, and it has been going on for almost two weeks now. This male cardinal starts attacking my living room windows just about the time it starts to get light in the morning and he doesn't quit until about darkness in the evening. Mostly his "attacks" have been to the high east living room window, but he makes side trips to the lower south windows mostly to the ones right behind the couch.

He will sometimes sit on the window sill and look in the window and then suddenly fly up, hitting the window all the way to the top. Other times he just comes flying in and attacks the window with enough force that you would think he would eventually hurt himself, but that is not the case. There are no feathers knocked out and he doesn't leave any kind of mouth residue on the glass like a robin did several years ago. The "banging" gets very annoying, especially when you are on the couch and he suddenly hits the window right behind you. Kay, our Jack Russell, gets very upset when he starts on those couch windows, but doesn't seem to mind the high windows facing east. Amy, our yellow lab, is just about deaf now so it is no problem for her, but I find it to be a pain especially early in the morning.

So why is this guy harassing us? Well, it is a territorial thing and when he sees his reflection in the windows he thinks it is another male cardinal invading his territory and he wants to drive him out. Mama probably has a nest near by in the yews and so he is not going away anytime soon. My hopes is that once the eggs hatch out that he will have to help get food for the babies and it will take his mind off the "other guy."

You would think he would recognize himself, but then again sometimes I don't recognize myself! So can anything be done to stop this activity? Well, they recommend putting decals on the windows to spook the birds, putting an owl decoy near the windows, hanging flashing CDs or mylar ribbons near the glass, or covering the windows completely with a tarp or a plastic that won't reflect the bird's image. From what I gather, none of these things really work. The one thing that some folks have had work is to hang that fine bird netting that they use to cover berry plants to keep the birds from eating the fruit. Personally I don't want to go to all that trouble as ladders and I don't get along very well anymore and I do enjoy watching him beat his brains out sometimes!

On to another subject matter, is someone painting birds? I ran across a Canada goose last week that looked like someone had spilled white paint on his head and neck. I have seen geese similar to this in the past; one that sticks out was the one with his whole head and neck being white but his body being the normal colors. Another was on the pond in Lyndonville by the school this winter whose whole body looked like it had faded real bad. He was almost white, but you could see where the black neck and head was along with many of the body feathers lightly tinted dark. Then this past week a friend emailed me that she had a robin that had some white tail feathers and various white patches on his body. A few years back a friend had a cardinal that was mostly white, but had a pinkish cap, wings and tail.

No one is painting these birds they just have a genetic condition called leucism. It is a partial loss of pigmentation in feathers, fur or skin from defective pigment cells. The results maybe a complete white or pale color to feathers, skin or fur, but more commonly it is just irregular patches of white appearing anywhere on the bird or animal. It is not the same as albinism, which is a complete loss of the pigment melanin, which causes a bird or animal to be completely white with pink eyes.

The white deer at the Seneca Army Depot are leucistic, not true albinos. Last year a friend had a leucistic hummingbird all summer that was speckled with white and green feathers. I have seen deer that have just patches of white on their bodies. One in particular at camp for a few years had just white legs and another was once seen with a white face and but with a dark strip between its eyes.

Birds and animals with this condition are often called piebalds. If you see such a creature give me a call as I would be interested in photographing it, but don't try painting something up to fool me!

If you have a problem with a bird "attacking" your windows and you can't stand the activity, you can cover your windows and live in darkness, do the netting thing, take your windows out or do like I do - just tolerate them beating themselves up and know that eventually it will stop.

Tips on how to write CLASSIFIED ADS that sell!

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."
