## FALL IS ON ITS WAY!

By Douglas H. Domedion

If you look at the calendar it will tell you that fall officially started on Sept. 22, but there are better “nature signs.” Have you noticed that suddenly the hummingbird numbers have really dropped? I believe the old birds head south earlier starting with the males as the few hummers left now seem to be this year’s birds. I keep my hummingbird feeders up until Oct. 1, as in the past I have had some late hummers passing through and I figure they could use the extra boost on their trip south. It is important to continue to keep the feeder fresh and clean, but with the cooler weather you can probably go a little longer between refills and cleaning. At this time there is no need to completely fill the feeder, only enough to make it last five to seven days. Usually there are about seven feeders hanging up around my house and the same at camp, but now the number has been reduce to just a few to accommodate the few birds that remain. They have given us a lot of entertainment this summer, so we need to look after them up until the last minute.

The velvet will be coming off soon!

A friend and I rode our motorcycles down to camp last week and you could see a slight change to the color of the leaves across the valley from my cabin. As the color and thrill of the hummers leaves us, Mother Nature is setting up another of her wonders for us. Fall foliage is always a favorite time for me and the camera with each year being different, with some better than others. Usually dry conditions mean less spectacular colors so I’m thinking this fall may be a little less “wow.”

Right now the Canada geese we are seeing are resident birds, but starting next week I feel migrating geese will be moving into the area to help announce the arrival of fall, and shortly afterwards new ducks will be moving in.

Of course the martins and swallows have moved on, and many of the other small birds are gathering for their trip south. Beavers and muskrats are busy building feed beds in the water for this winter, and raccoons are starting to put on as much fat as they can for the coming winter. This is the month when the deer begin to replace their summer reddish coats with heavier brown winter coverings. The bucks will also be losing the velvet on their antlers and becoming a little more sly about wandering out into the open areas.

Another event that signals fall in September is Hunting and Fishing Day. The DEC at our Region 8 Office in Avon dropped the event a few years ago which attracted a HUGE crowd every year, but sportsman’s clubs have stepped up to carry on the tradition. It is a important event not only for the sportsmen, but also to those who really don’t hunt or know a lot about our great outdoors. It gives them a chance to see what inspires us hunters, trappers and fisherman (and nature photographers). It also gives these folks, who are not sportsmen, a chance to show their children what it is all about. Sportsmen get to see new equipment and tell each other about their past adventures (and tell wild stories) and formulate plans for the upcoming seasons.

Personally, I have not attended a Hunting and Fishing Day event in quite a while, but I did this year. By chance a good friend was working at the one being conducted at Godfrey’s Pond in Genesee County just northeast of Batavia. I had heard of this private conservation club, but knew nothing about it or even its exact location. I found out this past weekend when they had their 6th Annual Hunting and Fishing Day weekend. There are about 800 acres of club grounds and the membership is around 1,000 right now. This is not a new conservation club: it started in 1909! I was in total shock at what I found and recommend it as a place to get acquainted with.

I was given a complete tour of the place by a club member in a UTV and as mentioned before was in complete shock as to what I saw. The lake is about 46 acres and has bass, blue gills, perch and pike, with a separate 4.5-acre trout pond that is stocked by their hatchery. There are about five miles of trails to hike on, two archery ranges, a pistol and rifle range for target practice, a clay pigeon shooting range and a camping area. There are many things that the young folks will enjoy too, such as a playground with swings etc., a shallow beach area with a lifeguard, an aviary with some pretty exotic birds with some of our more common game birds. There are canoes, row boats, paddle boats and kayaks that can be rented for a very nominal fee, a primitive camping area, several pavilions and a clubhouse. In the fall they stock pheasants from September through February on adjacent farms for membership hunting and of course there is ice skating, ice fishing and sledding in the winter.

Their web site is www.godfreyspond.org/. I strongly recommend checking out this “best kept secret in Genesee County!” My contact information is 585-798-4022 or woodduck2020@yahoo.com.

## Tips on how to write CLASSIFIED ADS that

# SELL!

1. **USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
2. **Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
3. **STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
4. **IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
5. **INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

## MEDINA STUDENTS MEET WRESTLING CHAMPION

Dominick Callara, Jordan Burroughs and Logan Callara.

Two Medina students, Dominick and Logan Callara, had a chance to meet a wrestling legend recently; Jordan Burroughs, who is an Olympic Gold Medalist, World Champion and National Champion.

Mr. Burroughs was recently at a wrestling clinic at the University at Buffalo (UB) where the two boys, who are in the modified wrestling program at Medina Clifford Wise Middle School and coached by Christian Held, had the chance to meet him and get his autograph.

Mr. Held says that the modified wrestling program is for seventh- and eighth-graders and

has 20 athletes participating this year. "Modified wrestling teaches basic wrestling skills and the rules of wrestling. They compete in shorter matches, but follow all standard wrestling rules. Our main goal of our modified program is to prepare new and young wrestlers to compete at a varsity level when they get to high school."

Mr. Held invited all this athletes to attend the wrestling clinic at UB where Mr. Burroughs spent two hours showing wrestling moves and answering questions from the audience. Dominick was thrilled to have the champion sign his headgear. "It was a great clinic," says Mr. Held. "It was an honor to learn new things from one of the greats in our sport. Most consider Mr. Burroughs to be the greatest wrestler in the USA right now."

## Signs of a Stroke

Sometimes symptoms of a stroke are difficult to identify. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking a few simple questions:

- 1) Ask the person to **SMILE**.
- 2) Ask the person to **TALK AND SPEAK A SIMPLE SENTENCE**.  
i.e. It is sunny out today.
- 3) Ask the person to **RAISE BOTH ARMS**.
- 4) Ask the person to **STICK OUT HIS TONGUE**. If the tongue goes to one side or the other, that is a sign of a stroke.

### OTHER STROKE WARNING SIGNS

- Sudden **numbness or weakness** of the face, arm or leg, especially on one side of the body
- Sudden **confusion**, trouble speaking or understanding
- Sudden **trouble seeing** in one or both eyes
- Sudden **trouble walking**, dizziness, loss of balance or coordination
- Sudden, **severe headache** with no known cause

If you or someone with you has one or more of these signs, don't delay! **Call 9-1-1 immediately!**

## Signs of a Heart Attack

Some heart attacks are sudden and intense, but most heart attacks start slowly, with mild pain. Often people affected aren't sure what's wrong and wait too long before getting help. Symptoms include:

**CHEST DISCOMFORT.** Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, fullness or pain.

**DISCOMFORT IN OTHER AREAS OF THE UPPER BODY.** Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.

**SHORTNESS OF BREATH** with or without chest discomfort.

**OTHER SIGNS** may include breaking out in a cold sweat, nausea or lightheadedness

Women are somewhat more likely than men to experience other common symptoms, particularly **SHORTNESS OF BREATH, NAUSEA/VOMITING, AND BACK/JAW PAIN.**

If you or someone with you has one or more of these signs, don't delay! **Call 9-1-1 immediately!**

### Foods to Reduce Cancer Risk

Cancer affects millions of people across the globe each year. While those diagnosed with cancer face the biggest challenges, cancer patients' friends and families also must deal with the consequences of a cancer diagnosis and the heartbreak that often accompanies seeing a loved one undergo cancer treatments. Strong support systems can help cancer patients during their treatments, but men and women need not wait until a loved one has been diagnosed with cancer to begin fighting the disease. Taking steps to prevent cancer may be easier when tackled together as a family or a group of friends. According to the University of Texas MD Anderson Cancer Center, one of the world's leading centers devoted to cancer patient care, research, education and prevention, many foods can help men, women and children reduce their cancer risk. When shopping for household groceries, families and groups of friends living together can aim to make the following cancer-fighting foods part of their daily diets.

#### Produce

- Broccoli
- Cauliflower
- Brussels sprouts
- Oranges
- Organic spinach
- Organic kale or collard greens
- Peas (fresh or frozen)
- Red or purple grapes (preferably organic, if imported)
- Tomatoes (no salt added if buying canned tomatoes)

#### Protein

- Lean chicken or turkey
- Lean fish, including salmon, halibut, redfish or red snapper
- Low-sodium black, red or pinto beans
- Low-sodium garbanzo beans
- Tofu

#### Dairy

- Eggs or egg substitutes
- Low-fat cheese
- Skim, or fat-free, milk

#### Grains

- Lentils
- Regular or instant wild rice or brown rice
- Whole grain pasta

#### Bread

- Whole grain bread, tortillas or buns

#### Condiments

- Canola oil
- Low-fat or fat-free salad dressing
- Olive oil

#### Spices

- Turmeric

THE  
**LAW  
AND  
YOU**

BY **NATHAN D. PACE**  
ATTORNEY AT LAW

**A PRIVILEGED  
MATTER**

“Discovery,” the process by which both sides learn of each other’s knowledge of the facts of the case at hand, involves face-to-face questioning of the other party or a witness prior to trial. However, there are certain “privileged communications” that the deposed person can lawfully refuse to reveal. For instance, a person has the privilege of refusing to answer questions concerning private communications between that person and his or her lawyer from whom legal advice was sought. Other common privileges include inter-spousal communications, penitential communications (between lay members of religious organizations and religious officials), physician-patient communications, and psychotherapist-patient communications. It is up to the “holder” of the information to decide whether to claim a privilege.

Do you have any questions about discovery, privilege, or any other technical aspect of the law? At the **Law Office of MACK & PACE**, our lawyers have years of experience dealing with a wide array of legal issues and we can explain the law in simple language to help you make the best choices. Our firm accepts cases that deal with real estate law, family law, and estate and probate issues. If you have any questions, please call.

**(585) 798-1000**  
**534 Main St., Suite 6**  
**Medina, NY 14103**

***HINT:** To qualify for privileged status, communications must generally be made in a private setting. The privilege is lost (waived) when all or part of the communication is disclosed to a third person.*

## How to Invest in Gold and Silver

Gold, silver and other precious metals have been used as currency throughout history. Paper money is a relatively recent method of payment, one that requires a certain level of faith among consumers. But that faith in paper currency has waned in recent years, and there are many people who are once again investing in gold and silver.

Gold and silver still have a position of great financial importance in today's market. With the value of a dollar fluctuating, precious metals may make a more stable investment. But investors who plan to investigate gold and silver should consider a few things before making their decision.

- Look into bullion. Gold and silver bullion are made from 99 percent of the total metal. This helps stabilize the cost and is not dependent on some of the fees or price fluctuations resulting from coins issued by various government institutions. Keep in mind that investing in bullion can be expensive and will require a high initial investment outlay. Also, you will have to find a secure method of storing and protecting the metal. Also, bullion can be more difficult to acquire than other forms of gold and silver, so it may require more leg work for investing.
- Purchase coins. One of the easiest and safest ways to invest in gold and silver is to buy coins. These will be minted from pure metals and are often issued through government-backed mints. Although gold coins aren't widely circulated, silver coins contain enough whole silver mixed with other alloys to make them valuable.
- Consider mutual funds. Rather than purchasing gold or silver outright, you can invest in mutual funds that then allocate a bulk of the fund's investment into the purchase of gold or silver. This requires less knowledge of metal markets and also less work. However, it still enables you to invest in gold and silver.
- Sell scrap jewelry. While you may not get the full value of the jewelry, you can take advantage of the rising rates of gold and silver by selling off items you may not use. Selling extra jewelry requires little work on the part of the seller. ■

**Add Something New to Your Pumpkin Repertoire**

Pumpkins are readily available in fall, when people carve jack-o'-lanterns out of pumpkins for Halloween or serve up pumpkin pie after a hearty Thanksgiving dinner. But people who are unsatisfied with plain old pumpkin pie can add something new to their repertoire this fall by cooking up the following recipe for “Pumpkin Cheesecake with Gingersnap Crust,” courtesy of Lori Longbotham’s “Luscious Creamy Desserts” (Chronicle Books).

**Pumpkin Cheesecake with Gingersnap Crust**  
*Serves 8 to 10*

**Crust**  
1 1/2 cups gingersnap cookie crumbs  
1/2 cup finely chopped hazelnuts  
6 tablespoons unsalted butter, melted  
1/4 cup sugar

**Filling**  
1 1/2 pounds cream cheese, at room temperature  
1/2 cup packed light brown sugar  
1/4 cup granulated sugar  
2 large eggs  
2 large egg yolks  
1 1/2 tablespoons all-purpose flour  
2 teaspoons pumpkin pie spice  
1 cup solid-pack pumpkin purée (not pumpkin pie mix)  
1/2 cup crème fraîche, or sour cream  
2 teaspoons pure vanilla extract

1. Preheat the oven to 350 F. Lightly butter an 8- or 8 1/2-inch springform pan.

2. To make the crust: Stir together all of the ingredients in a medium bowl until the crumbs are moistened. Press the mixture over the bottom and up the sides of the pan. Bake the crust for 10 minutes. Let cool completely on a wire rack. Increase the oven temperature to 425 F.

3. To make the filling: With an electric mixer on medium speed, beat the cream cheese, brown sugar and granulated sugar in a large deep bowl until light and fluffy. Beat in the eggs and then the egg yolks one at a time, beating well after each addition. Add the flour and pumpkin pie spice and beat on low speed until just combined. Add the pumpkin purée, crème fraîche and vanilla, and beat until just combined. Pour the filling into the shell.

4. Place the cheesecake on a baking sheet and bake for 15 minutes. Reduce the oven temperature to 250 F and continue baking for 1 hour.

5. Turn the oven off and let the cheesecake cool in the oven for 2 1/2 hours. Then transfer to a wire rack and let cool to room temperature. Refrigerate, tightly covered, for at least 10 hours, until thoroughly chilled and set, or for up to 2 days.

6. To serve, run a knife around the side of the cheesecake and remove the side of the pan. Serve slightly chilled or at room temperature, cut into thin wedges with a sharp knife dipped into hot water and wiped dry after each cut. ■
