The use of benzodiazepines and related drugs increases the risk of hip fracture by 43% in persons with Alzheimer's disease, according to a new study published in the Journal of the American Medical Directors Association. Benzodiazepines are a class of psychoactive drugs used to treat a range of conditions, including anxiety and insomnia. They are one of the most widely prescribed medications in the United States, particularly among elderly patients. Benzodiazepines possess sedative, hypnotics, anti-anxiety, anticonvulsant, and muscle relaxant properties.

In a population-based study published in the British Journal of Clinical Pharmacology, use of commonly prescribed acid-suppression medications such as proton pump inhibitors (PPIs) was linked with an increased risk of intestinal infections with C. difficile and Campylobacter bacteria, which can cause considerable illness. Users of these medications should be particularly vigilant about food hygiene as the removal of stomach acid makes them more easily infected with agents such as Campylobacter, which is commonly found on poultry.

Heart medication taken in combination with chemotherapy reduces the risk of serious cardiovascular damage in patients with early-stage breast cancer, according to results from a new landmark clinical trial. Existing research has shown some cancer therapies such as Herceptin greatly improve survival rates for early-stage breast cancer, but come with a fivefold risk of heart failure-a devastating condition as life-threatening as the cancer itself. A new five-year study published in the Journal of Clinical Oncology shows that two kinds of heart medications, beta blockers and ACE inhibitors, effectively prevent a drop in heart function from cancer treatment. Most church Christians are the opposite of Biblical Christians (Acts 11:26) and can be proved by the Bible. Most so called Christian preachers preach man's commandments (Mt 15:9) as Christ's commandments. Yet refuse to teach what The Holy Bible reveals Christ taught who came in The Hallowed Name of His Holy Father, but do teach the doctrines of one who came in his own name (Jn 5:43). They charm many into believing they'll go to heaven if they go to church and hell if they do not. Use Heb 10:25 for their church assembly, then reject Mt 4:4, 5:17-19, 7:21-27, Jn 5:14, 8:11, 14:15, 24, Acts 3:23, Rom 3:25,31, Heb 6:4-6, 10:26-31, 1Jn 3:4-9, Rev 22:14-15. So Be It!

Saving You MONEY

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
