Once Upon A Time....

There was an owner of a very successful hot dog stand. This owner built his business by having the best hot dogs around and by letting his customers know about them through extensive advertising. His business was so successful that he was able to send his son to a prestigious Ivy League school where his son was studying to receive his M.B.A.

One day the son came home for a break and promptly questioned his father "Dad, don't you know that there is a recession going on out there?" The father replied that his business was going very well, but the son persisted telling his father "Dad, you've got to cut back." So the father, figuring his son knew all about business, followed the son's advice. He promptly cut his advertising budget and then cut his hot dog & bun orders. Before long, business in fact did slow down. So the father replied to the son "You were right, son. Business is terrible. There is a recession going on out there."

Quit Smoking With Hypnosis
by Lori Kleinsmith, Certified Hypnotist

Many people have good intentions to quit smoking. Then something triggers them to fall back into the dangerous habit. Many times it is the ugly stress monster. How will hypnosis help you quit and what is hypnosis?

The word hypnosis itself is defined by being an altered state of consciousness or awareness where the individual under hypnosis appears to be in a trance-like state. Hypnosis is commonly used in the treatment of a variety of physiological and physical problems. It is currently utilized in the treatment of pain control, weight issues, stress management and addiction problems. There is statistical information that shows that for some, it does indeed work, and very well. There are many variables.

The basic principle of hypnosis for quitting smoking is to bring those unhealthy thoughts to the surface and to replace them with more positive thoughts that encourage the smoker to cease leaning on something so dangerous to one's health. In many cases, a hypnotherapist will also teach the individual the art of self-hypnosis. This gives control to the individual not the cigarettes.

There is no doubt that hypnosis itself, in general, doesn't work for everyone. Nothing works for everyone. Some people have reported that after just one session, they were 'turned off' to the idea of ever smoking again and simply did not want to smoke any longer. Many of those reported that this had worked for them indefinitely. While still others reported similar immediate results, but having had relapsed during high stress moments and fell back into the smoking habit once again.

For this reason, most hypnotherapists will suggest to

their clients that they continue with self-hypnosis, even once they consider themselves smoke free. It is important to be ultra-aware when you are dealing with stressful moments and make sure you turn back to smoking cessation therapies before you turn back to a smoke.

For more information or to schedule your appointment, contact: Lori Kleinsmith, RM., NLP, Certified Hypnotist and owner of Pinnacle Hypnosis & Therapies. 610-823-4160 www.pinnaclehypnosis.com. Located in Inner Peace and Wellness Center, 202 South Third St., Hamburg, PA 19526. Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
