The spy glass that made naval history...

ADMIRAL FARRAGUT'S TELESCOPE

(with table top tripod)
 from us only \$69.95*

• The optics of Admiral Farragut's Telescope are 25x30. This means that you get 25x magnification and the great light-gathering capacity of a 30mm objective lens. The scope is fully chromed (over brass) for extra beauty, protection and durability.

When Admiral Farragut fought his legendary naval battles he used a telescope just like this to monitor the movements of the enemies' fleets. This beautiful optical instrument, a faithful replica of the famous original is about 5" long in its collapsed position and 13" when extended to full operating length.

Enlargement is 25x, which means that it brings everything 25-times closer, and in needle-sharp focus, than if viewed with the unaided eye. ADMIRAL FARRAGUT'S TELESCOPE comes with a belt-loop vinyl carrying case. There is also a table-top tripod for extended observations.

The only universal optical instrument...

PANSCOPE

(the complete optical system)
 from us only \$59.95*

• PANSCOPE is beautifully gift-boxed, comes with its neatly fitted leather case and with a plastic "tripod" for extended observations at 15x and 30x.

This is a little optical marvel. PANSCOPE (only 2" long) contains a complete optical system in its tiny body. You may use it as a 3x telescope or as a unique 3x telescope-loupe. In its magnifying mode, it delivers magnifiers and loupes at 5x, 10x, and 15x enlargement. And to top it all, it also functions as a 30x microscope of laboratory quality.

A special stand for long-term observation for 15x and 30x microscope is included.

This marvelous little instrument, developed in Wetzlar (Germany), home of famous Leica cameras, is the product of one of Asia's finest makers. Its coated optics are of superb quality, delivering the image with brilliant luminosity, in needle-sharp focus, with absolute clarity and with full chromatic correction.

You have seen such zoom binoculars advertised nationally for \$150...

6x to 18x JOMIRAZOOMS

from us only \$99*

• JomiraZooms focus smoothly from 6x to 18x or anything in between, letting you see unexpected details.

Porro prism construction and ruby-coated lenses are the best in optical construction. The 18mm objective lenses provide high light-gathering capacity. JomiraZooms come with a belt-looped carry case and strap.

JOMIRAZOOMS are the absolutely ultimate in binoculars. They fit in your hand and weigh less than 7 ozs. But they pack an enormous wallop in their small body. Porro roof-prism construction and ruby-coated lenses guarantee pinpoint sharpness at any distance. The 18mm objective lenses provide great light-gathering capacity making JOMIRAZOOMS utterly reliable even in the dim light of dawn or dusk. The zoom lever lets you smoothly change the magnification from 6x to 18x or anything in between. Are you watching the pitcher's windup on 6x? Zoom to 19x and you may be able to tell whether he is throwing a fastball or a slider. There can be nothing more useful for sports, nature watching, navigation, and so many other pursuits. JOMIRAZOOMS is an instrument that should be in every home.

Hold the whole world in your hand with...

JOMIRASCOPE

8 x 20 monocular
 from us only \$59.95

• The optics of jomirascope are 8x20 - 8x magnification with 20 mm objective lens. It comes in a neat zippered carrying case. The objective lens can be used as an 8x magnifier. A 25x microscope attachment (\$29.95, 3 for \$59.90) is also available.

Jomirascope is so small that it fits unobtrusively in a man's coat pocket or a lady's purse. Yet it packs a tremendous wallop in its tiny body. Its 8 x 20 fully prismatic and hard-coated optics give you 8x magnification, with a remarkable field of 430 ft. at 1,000 yds. Its 20 mm objective lens affords unusual light gathering even at dusk or dawn. What was that rustling in the bushes? With JOMIRASCOPE you'll discover that it was an ivory-billed woodpecker. Do you wish to explore every feature on the moon? JOMIRASCOPE will be your instrument of choice. Much smaller than even "pocket" binoculars and with greater magnification than most, JOMIRASCOPE should be your constant companion. And do consider the 25x microscope attachment of laboratory quality, which makes JOMIRASCOPE a complete optical system.

An incomparable timepiece, an incomparable value...

RADIO-CONTROLLED CLOCK

only \$59.95*

• The sleek styling of R-C Clock makes it an adornment for any home or office. It works on two (included) AA-batteries and is ready to go when you get it.

This beautiful clock is sleek in design, and makes it an adornment for any home or office. It measures 5-3/4" x 4 1/2" and can be set on your desk or hung on the wall. Time is displayed in inch-high digits. In addition to the time (hours, minutes, seconds), you also get the date, the day of the week, and the temperature in F (or in C). There is a melodious but insistent alarm, complete with snooze button which also activates the back-lit function when pressed for those extra winks. The clock is controlled by a radio signal emitted by a U.S. government department; that ensures up-to-the-second accuracy. RADIO-CONTROLLED CLOCK works on two AA-batteries (included, of course). It's ready to go when you get it. You don't even have to set it—it sets itself.

Is this the famous Brand "X" watch that sells for over \$1,000?

No, it is the Argonaut™ Watch
 - yours for only \$69

In contrast to many highly advertised watches, the Argonaut™ is not a mechanical watch. It is powered by an exquisite Japanese quartz movement. Besides the hands and the date disk, there are no moving parts. Nothing can go wrong or wear out. And no matter how many jewels they may have that inevitably happens with mechanical watches - sometimes as soon as within a year.

We guarantee the Argonaut™ for three full years. If you treat it reasonably well it should last you a lifetime. The Argonaut™ Watch is of solid stainless steel construction. It is guaranteed to be watertight to about 330 ft. You'll never dive that deep. Accuracy is guaranteed to 3 secs./month. You will need to change the battery in about two years. It shouldn't cost you more than \$5. The Argonaut™ Watch is a thing of rugged masculine beauty. It comes with a splendid adjustable stainless steel band.

***And here is our "special deal": You may buy any three of these items -- mixed or matched -- for the price of two. The least expensive item is on the house -- absolutely FREE!**

Cognitive Decline

Adults with untreated hearing loss experience a 30-40% faster decline in cognitive abilities compared to peers with aided hearing.

30%

40%

Dementia

Adults with untreated hearing loss are more likely to develop dementia.

Depression

Those with untreated hearing loss have significantly higher incidence of feelings of isolation and depression.

Balance

People with mild hearing loss (25 dB) are 3 TIMES more likely to have a history of falling. Every additional 10 decibels of hearing loss increases the chances of falling by 1.4 times the original risk.

Lifespan

Studies show older adults with untreated impaired hearing have a shorter lifespan than peers.

Tinnitus

90% of people with tinnitus have hearing loss.
