IMPROVING STRENGTH AND REGAINING INDEPENDENCE FOR AGING ADULTS

By Tyson Dukes, Senior Fitness Specialist of InHome Fitness Solutions

As a Physical Therapist Assistant for the past 20 years, I've noticed a thing or two about the patterns that exist in the current healthcare system. What I see happening is the aging adult population enters the healthcare system because they've had an injury, or a fall, or they've had need for a surgery. Then they are treated with some form of physical therapy until either their insurance dictates that they've fulfilled the amount of treatments available or until they're discharged from therapy. In this case, healthcare is RE-ACTIVE to a problem or injury. But then what happens? The person goes home only to find the same problems they had prior to the injury still exist there; stairs are still hard to navigate, it's still hard to go from sitting to standing, and maybe they're still worried about falling.

What if we thought about the system differently? What if we were able to improve strength, balance and stability so you could help prevent that fall or injury? What if there was a better - more PROACTIVE approach?

Fortunately, there is, as a Senior Fitness Specialist, I am able to provide you with a comprehensive program to help you regain your strength, balance and stability all in the hopes of maintaining your independence, keeping you strong and, more importantly, keeping you home. These training sessions are done in the privacy and comfort of your home and are 100% customized to your needs and goals.

If you're ready to put the GOLD back in your golden years, please call us today for your free consultation.

# Farmers Market News

Located at Dickinson Co. Fairgrounds  
15th Street & Peoria Avenue, Spirit Lake, IA 51360

It appeared overnight; a whole bag of zucchini. What to do; what to do? Today, August 8 is National Sneak Some Zucchini Onto Your Neighbor's Porch Day. Whether your neighbor dropped it off, you grew it yourself, or you bought it at the Farmers Market, zucchini can be prepared in many ways. It can be grilled, stir fried or sauteed, pickled, or shredded and made into cake or bread. To grill zucchini, cut a medium to large zucchini lengthwise into 1/2 inch thick slices. Lightly coat with cooking spray and season with salt and pepper. Grill on the rack of a covered grill for about 20 minutes, turning once. Look for additional zucchini recipes at Lakes Area Farmers Market.

Two of the more unique produce vendors at the Farmers Market are Kentwood Farm and Cherry Lane Farm. Vicki from Kentwood Farm comes from Webb with hydroponic tomatoes and English cucumbers. She has perfected the nutrient recipe for her hydroponic tomatoes until she has a delicious tomato. Vicki says that if her tomatoes don't taste good, she is doing something wrong. And her tomatoes taste good. She has red, yellow, and heirloom tomatoes and also brings embroidered hand towels and comfort blankets for baby.

Calvin and Krissy Thissen raise microgreens on Cherry Lane Farm in rural Spirit Lake. Microgreens come in many varieties and contain more nutrients than the regular size plant would have. If you are unfamiliar with microgreens, the Thissens offer taste samples and bring a flat of growing greens for you to see.

Remember that Lakes Area Farmers Market isn't just produce. There is a large variety of baked goods, meat, eggs, jelly, rubs, flowers, crafts, coffee beans, and wine for you to choose. Shop Saturday or Wednesday from 7:30am to 12:00 noon at the fairgrounds in Spirit Lake. We hope to see you there.

# Family Donates School Supplies

Jerad Alger and Chasidy Tischer, and their daughter Emi, learned the value of giving back in honor of Emi's 3rd birthday on July 27, 2017. Instead of stuffing even more toys in her toy box, this year, they asked for a school supply donation in lieu of birthday gifts. They plan to donate the supplies to Okoboji students. Their awesome friends and family supported them by showing up with tons of school supplies.

# Wing Ding Fundraiser

The Iowa Democratic Wing Ding Fundraiser is coming up fast. Get your tickets today. The event will be Friday, August 11, from 5:00 - 11:00pm, in the Surf Ballroom (460 North Shore Drive), Clear Lake.

Even if you cannot attend, the county will keep proceeds from tickets sold in Dickinson County. You can buy online at <http://iowawingding.com/c2/> or google Iowa Wing Ding.

# "Sparkles Everywhere"

Join Okoboji Christian Women's Connection for a sparkling good time at a luncheon on Wednesday, August 16, at 12:30pm at the Okoboji Bible Conference Grounds in Arnolds Park. Sally Hjellev of Savage, Minnesota, will present a talk on "Accentuate the Positive ...Eliminate the Negative", share her beautiful music and also have a special feature on "Jewels of Joy: Have boutique will travel".

Cost of the catered luncheon is \$10 and reservations are requested by calling Mona 712-362-4552, Peggy 332-5183, Kay 264-8911, or Dorothy 507-847-3566.

The Arts on Grand summer fundraiser, Backyard Bach & Blues will be held at the Cedric & Marilyn Winterboer home on Saturday, August 12, from 6:00 until 9:30pm. The evening begins with the violin music of Jerry Henry, followed an hour later by Chad Elliott and his band The Redemptions.

Tickets are available at AOG, 408 Grand Avenue, Spencer, and from board members and are \$40 for members and \$50 for non-members, which covers the cost of the meal, beverages, and music. For more information or to reserve tickets, stop by AOG or call 712 262 4307.

## Horses to Highlight the Outdoor Arena

Horses once again highlight the events at the Outdoor Arena during the 2017 Clay County Fair, September 9-17.

However, another species of animals will return to the Arena on Sunday, September 10, when bull riding returns to the Fair.

"Whether it's to enjoy a horse show or rodeo events, the Outdoor Arena will provide something for everyone at the 2017 Fair," said Fair Manager Jeremy Parsons.

The Arena will host daily open class shows, as well as 4-H and FFA horse shows. In addition, special events and activities will occur throughout the Fair.

Open Class Paint, Quarter Horse and Pony Performance shows will be September 9-11, before changing to 4-H and FFA shows September 12-14. The second weekend of the Fair (September 15-17) will feature open class Pony, Appaloosa and Miniatures, Antique Buggies and Pony Hitches.

The Arena will be packed the final weekend when the Fair concludes with Draft Horse Hitches on September 16-17. The North American Six-Horse Hitch Classic Series will feature \$10,000 in prize money for the beautiful hitches. New in 2017, the hitch classes will begin at 1:30pm giving fairgoers two afternoons to watch the draft horses.

Besides daily horse shows, special events will also take center stage in the Arena.

NBHA Barrel Racing will begin at 6:00pm on Saturday, September 9, attracting cowgirls from across the upper Midwest as they compete for \$1,500 in added prize money.

Bull riding will be making its much anticipated return to the Fair this year courtesy of Barnes PRCA Rodeo out of Peterson, Iowa. This award-winning company has been going strong since 1950 and the Fair will be just one of 30 events they will participate in throughout 2017. This event will take place at 6:00pm on Sunday, September 10.

Back by popular demand, Cowboy Mounted Shooting will be on Friday, September 15, at 6:00pm. In this event, horses and riders will go through a path as quickly as possible while shooting at balloons on top of stakes. Also on Friday will be the classic event, Team Roping, at a new time of 10 a.m.

Saturday, September 16, is the Ranch Rodeo which includes various ranch activities for exhibitors to compete in events such as roping a calf and sorting cattle. This event will begin at 6:00pm.

All Outdoor Arena events are free with gate admission.

"Come Home" September 9-17, 2017, to Spencer, Iowa for our Centennial Celebration! "The World's Greatest County Fair" since 1917, the Clay County Fair attracts more than 300,000 guests each September. "Come Home" for unique experiences including world-class Grandstand entertainment, award-winning fair food, daily livestock and horse shows, more than \$150,000 in free entertainment, thousands of competitive exhibits, the thrilling GoldStar Amusements Midway, hundreds of commercial vendors, and the largest farm machinery display at any fair in the United States. Visit claycountyfair.com to plan your visit.

Heldt-Laker Memorial Golf Outing Funds Student Scholarships

Golfers and community members united to raise money for Iowa Lakes Community College student scholarships Friday, July 14, at the annual Linda Heldt Memorial Laker Scholarship Golf Outing.

The event at the Estherville Golf Course saw a record turnout, with more than 100 participants contributing to Heldt Memorial Scholarships.

"The overwhelming support at this year's event has been amazing," said Jolene Rogers, executive director of community and business relations at Iowa Lakes.

Every year, a sophomore in each Iowa Lakes sport who exemplifies service to others and a strong commitment to leadership is chosen to receive the scholarship, which is named after a long-time, respected Iowa Lakes Athletic Department employee, Linda Heldt, who died of pancreatic cancer in 2007.

"It's so wonderful to meet with the Heldt family each year and celebrate the legacy Linda started in care and guidance of our student athletes," Rogers said.

The golf outing has a nine-hole, four-person best shot tournament format. The Kingston Life and Health team of Tim Johnson, Jeff Soper, Nick Christiansen, and Trevor Enerson took top flight honors this year, and Linda Heldt's family golfed at the event as well, showing their support for Iowa Lakes students.

Iowa Lakes thanks all the volunteers who made the event possible, as well as Keith Fuller and the staff at the Estherville Golf Course.

Additional thanks go to event sponsors Avera Holy Family Health, Bank Plus, BASF Plan Sciences, Blum and Leonard Insurance and Real Estate, Dickinson County News, Dyno's Oil Company, Inc., Estherville News, Explore Okoboji KUOO/Y100/Q102, Fitzgibbons Law Firm, Hanson Insurance, HyVee Food Stores, Iowa Lakes Electric Cooperative, JB Mertz and Son, Inc., Jensen Stores-Furniture and Floors, KILR FM 95.9/AM 1070 Jacobsen Broadcasting, Kingston Life and Health, KOFAB, Max Yield, Midstates Builders, Inc., Motor Inn Estherville, News Radio 1240 KICD/BIG Country 107.7/MORE 104.9, NorthStar Bank and Agency, Northwest Bank, Oleson Chiropractic, Orthopaedics, P.C., Pioneer/Chad Anderson, Pro-Cooperative, SandR Auto and Tire, Spencer Agronomy Services, StateLine Cooperative, The Lakes News Shopper, Tom Eischen Seed and Sales and Woody's Pizza.

Family Nature Night - Disc Golf

Once a week? Twice? Every day? How often do we wonder what we can do with our family for fun that's actually free?

One answer to the quandary is to play disc golf at the Okoboji Gold Disc Golf Course in Kenue Park. You can learn to play and try out the sport with your family during Dickinson County Conservation's final Family Nature Night of the season.

Come to the Okoboji Gold Disc Golf Course at 6:00pm, Monday, August 14, and bring all ages of the family. At the beginning of the program, environmental education coordinator Bryanna Kuhlman will teach the difference between a Frisbee throw and a disc golf throw. Everyone will get to practice some distance throwing, and then staff will go over the map of the course to talk about the difference between the amateur- and professional-level tees.

Families will then get to spread out and try their hands at playing a few holes on the course, and scorecards will be provided for those who want some family-friendly competition.

"We'll have score sheets, but I definitely think the point of the evening is to get to know the sport and get outside and have fun," Kuhlman said.

She hopes that once families experience disc golf that they will come back to the local 18-hole course to play as it is open year-round, dawn to dusk.

"It's affordable; it gets everyone outside," Kuhlman said. "Even if you have littles who don't play the game, they can still tag along. If you come during open hours, you can also visit the schoolhouse, nature center and Pollinator Paradise."

Discs will be provided for the event at the Okoboji Gold Disc Golf Course, which is located just west of the Dickinson County Nature Center, at 2251 170th Street, Okoboji. Discs are also for sale for \$10 each in the Nature Store at the nature center.

"Family Nature Night will then be done for the year, but our facilities are open year-round for all age groups," Kuhlman said. "It's a great way for families to interact together."

To find out more about Dickinson County Conservation's year-round programming, visit www.dickinsoncountynaturecenter.com, call 712-336-6352 or stop in 10:00am-4:00pm, Tuesday-Saturday. You can also keep up on the latest happenings on Facebook, Instagram and Twitter.

LETTERS TO THE EDITOR

**To The Editor:**  
On behalf of myself and other people who walk every day, I want to say thank you to everyone who slows down and gives us a wider berth when passing us on the road, on a trail, or on a sidewalk. I am especially thankful to those who travel frequently on 255th Street (a gravel road). The most courteous? - The gravel truck drivers!  
I am also grateful to people who keep their dogs restrained either on leashes or penned up on their property.  
You all help make our walks safer and more relaxed and enjoyable.  
**Charree Sweeten • Milford, Iowa**  
**PS.** No thanks to the person that I encountered Tuesday, August 1, on the West Lake Okoboji Trail. This person stopped at a curve in the trail as if waiting for someone or something. As I got closer, I observed that they were holding a leash... with nothing attached to it! A leashless dog came flying around the curve and directly at me. I screamed loud enough to be heard in Guam. The person didn't move or say a thing until the dog was about three inches away from me. At that point the owner called the dog's name and it stopped and turned away. Thanks for nothing!

**GREAT CATCH**— Jackson Grady, of Salem, South Dakota, with a .92 pound Yellow Bass caught on July 18, 2017. It measured 11.75 inches long.

Iowa Rock 'n Roll Music Association Inducts Joe Cuttelle

The Iowa Rock 'n Roll Music Association was established in 1997 to help retain the legacy of Iowa's rich rock 'n roll history. The organization's first induction into the Iowa Rock 'n Roll Hall of Fame was Labor Day Weekend 1997 and has happened every year since becoming an Iowa tradition. Since incorporation, over 300 entities have had the honor of being inducted into the Iowa Rock 'n Roll Hall of Fame.  
The Iowa Rock 'n Roll Music Association is pleased to induct Joe Cuttelle into the Iowa Rock 'n Roll Hall of Fame this Labor Day weekend. Before they were The Prince and the Paupers, the group began as "The Trends" in 1962. During their career the band would play locations such as the Roof Garden in Arnolds Park, Cobblestone Ballroom in Storm Lake, The Armory in Albert Lea and other similar venues in the Iowa-Minnesota area. Members being inducted include Mike Monnahan, Joe Cuttelle, Stan Bilsland, Ron Poole, Larry Halverson, John Tuttle, Ben Sorenson, Rick Gregson, Mark Moeller, Wayne Simonton, Gary Johnson and Bill Ohearn.  
The Iowa Rock 'n Roll Music Association is a 501(c)(3) nonprofit organization whose mission is to preserve the legacy of rock 'n roll music in Iowa by honoring achievements, educating youth, and inspiring artists. For more information about the Iowa Rock 'n Roll Music Association, please go to [www.iowarocknroll.com](http://www.iowarocknroll.com) or call 712-332-6540.

Winter Games 38 Logo Contest

It's hard to believe that winter is on the mind when we are in the midst of such beautiful summer weather, but the Iowa Great Lakes Area Chamber is already looking ahead to the 38th Annual University of Okoboji Winter Games. The Winter Games Committee is seeking designs for this year's games scheduled for January 25-28, 2018. The logo will be utilized on all Winter Games merchandise as well as print advertising, entry forms, social media, mailings, and website promotion.  
Logos should be:  
• easily screen printed and embroidered  
• submitted by either an Iowa Great Lakes Area Chamber of Commerce member, member employee, or student (Dickinson County public schools, Iowa Lakes Community College & Buena Vista University)  
• in a high resolution JPG or EPS format  
• gender neutral  
• no more than three colors  
• submitted to [kara@okobojichamber.com](mailto:kara@okobojichamber.com) by September 1, 2017, at 5:00pm for consideration  
The logo contest creates an opportunity to involve Chamber members and utilize their talents, permits the Chamber to work within their budget, allows the staff of Chamber members and area students to showcase their vision of this community event, and provides heightened exposure for the designer whose logo is selected.  
To view past Winter Games logos, visit [www.uofowintergames.com/history](http://www.uofowintergames.com/history). The winner will be selected by the U of O Winter Games Committee and be awarded a \$250 payment for their talent.  
Please contact Kara Matheson at the Iowa Great Lakes Area Chamber with any questions or with design submissions.

Lots of Activities for Youngsters at the Okoboji Blue Water Festival

by Steve Weisman, Outdoor Editor

The 2017 Okoboji Blue Water Festival is a celebration of clean water and a chance to learn about how we can all make our waters even better. The festival, which runs Friday, August 11 through Saturday, August 12 at Preservation Plaza in Arnolds Park, is designed for both young and old alike and for families.

Youngsters are going to love the educational and learning tents designed just for “kids” young and old! Activities are scheduled to run from 10:00am to 3:00pm. A total of 14 interactive activities are designed to be both fun and educational.

Here is what’s on tap for the kids: face painting, chalkstock (sidewalk chalk art), tattoos, invertebrate exploration, where does waldo go? build a watershed, nature’s plumbing – the water cycle game, interactive water facts, bubbles galore, groundwater demo, nature’s water cleaners, splish, splash, crash – water music, trash twist, watermark bookmarks and a photo backdrop

“Our volunteers have worked very hard to come up with activities that youngsters will certainly enjoy,” says Greg Drees, organizer of the Okoboji Blue Water Festival. “A lot of time and thought went into creating these activities. They will be fun, but at the same time we want the youngsters to come away with a clearer understanding of what it takes to make our waters clean. After all, they are the future, and it is our responsibility as adults to do our job to leave our waters in better shape for them, so that they can do the same for their children.”

A reminder that anglers will have the chance to attend pro walleye fisherman Jon Thelen’s hour-long fishing seminar from 10:30-11:30 in the big tent north of the exhibitor tents at Preservation Plaza.

Then beginning at noon, three speaker forums will take place in the big tent. Each will last 90 minutes. First will be a group of local experts discussing the latest water quality initiatives in the Iowa Great Lakes. The second group will be state experts discussing broader issues and challenges facing Iowans statewide. The third forum will feature 2018 Iowa gubernatorial candidates discussing clean water and natural resource issues.

Prior to the evening’s concert headliner Eric Burdon and the Animals, a special video will be played on the big movie screen sharing the history of the Okoboji Protective Association (OPA).

As darkness arrives, anticipation will heighten for the appearance of the musical icon Eric Burdon and the Animals.

Dealing with Drought and Potential Cattle Feed

More than half of the counties in Iowa have now been approved for emergency haying and grazing of Conservation Reserve Program (CRP) acres, which is welcomed news for drought-affected beef producers.

To hay or graze CRP acres, producers must apply to their local Farm Service Agency and adhere to specific rules. Once approved, haying and grazing may be immediately started; but, the period for haying expires August 31, and grazing must be terminated by September 30.

“Northwest Iowa may not have as many CRP acres as other parts of the state, but every little bit helps,” said Beth Doran, beef program specialist with Iowa State University (ISU) Extension and Outreach. “However, we grow a lot of corn – which offers producers the opportunity to harvest green-chopped corn as forage or to put it up as silage.”

Doran cautions producers who plan to green-chop or make silage to check with both their Farm Service Agency and crop insurance agency before chopping. If drought-stressed corn is green-chopped, producers should be aware of the potential for nitrate toxicity.

“There is a quick test that can be used to test for the presence of nitrates, but a sample of the green-chopped feed should be sent to a commercial testing laboratory to determine the amount of nitrate,” Doran said. “Do this before feeding!”

Ensiling of drought-stressed corn will reduce the nitrate concentration by about 40 to 60 percent. Still, producers need to have it tested after ensiling and before feeding to determine the actual level of nitrate. If the nitrate level is high, the silage may be diluted with low-nitrate feedstuffs.

Doran reminds producers that tolerance to nitrate ranges with the type of beef animal. Feedlot cattle over 700 pounds tend to be more tolerant; whereas, lighter feedlot animals or pregnant cows and heifers are least tolerant. It is advisable to feed it to the most tolerant animals.

Other best management practices include harvesting at the proper dry matter, allowing four to five weeks for fermentation, slowly adapting the animal to the silage and providing a balanced diet.

More information on drought and beef cattle may be accessed from [www.iowabeefcenter.org/droughtresources.html](http://www.iowabeefcenter.org/droughtresources.html) or contact Beth Doran at 712-737-4230 or [doranb@iastate.edu](mailto:doranb@iastate.edu).

**Three Iowa Lakes Students Receive Kibbie Award for Service**

Three Outstanding Iowa Lakes Students are recipients of the Sixth Annual John P. “Jack” Kibbie Outstanding Service Award. The honor is conferred in the spirit of keeping the ‘light of service to others’ burning brightly in Iowa Lakes students. The name of the award is to honor Senator Jack Kibbie, frequently referred to as “The Father of Iowa Community Colleges.” Senator Kibbie, served as an Iowa Lakes Board of Trustee member from 1970 to 1988 and was Board President for nine of those years.

The students honored with the John P. “Jack” Kibbie Outstanding Service Award at the summer commencement ceremonies were Courtney Calkins, Micheal Krogh, and Tim Soper. These students were nominated by faculty and staff and were selected based on the numbers of hours and quality of service they have performed.

Courtney, Maple Grove, Minn., served as President of the Estherville Student Senate. As part of the Senate, she organized 3-4 events for students each month. Under her leadership, the Student Senate significantly increased student participation. She organized numerous service projects, including a canned food drive benefiting Upper Des Moines Food Pantry. Working with marketing and athletics, this became a community-wide event under her leadership, with community members donating canned goods during a basketball game. Courtney was also a volunteer for softball camps and mentored at the local elementary school each week. Courtney has a perfect GPA, is a Presidential Scholar, is on the Presidential Honors List, and was honored as an All Iowa Academic Team member. She is a two-time 1st Team Academic, All-Region Pinnacle Academic Achievement Award winner and received an All-Region Award in softball.

Micheal, Spencer, is a military veteran and was always the first to offer assistance to students on the Spencer campus. As a Student Senator, he assisted with a canned food drive to Upper Des Moines and other Student Senate activities. He was the Co-president of Beta Eta Zeta chapter of Phi Theta Kappa, and designed a new logo for the chapter. He maintained a high-grade point average, was on the Dean’s List and was a member of the All Iowa Academic Team. In the role of campus work-study student, he took responsibility for opening the campus on Sundays so that students could access the computer labs for open study. Additionally, he assisted with ESL classes to assure that students had a viable English-speaking partner to help with their lessons. In addition to volunteer service on campus, Micheal was a mentor at Spencer Middle School and a volunteer for PRIDE Reading group, Habitat for Humanity, Many Hands Market, Cub Scouts, and People for Pets.

Tim Soper, Estherville, was an officer in Laker Life, leading Bible studies as well as playing and singing as part of the praise band. He was a willing volunteer in several clubs and many extra-curricular events organized by the college. As a Broadcast major, Tim volunteered his time to announce ball-games. He created news productions to promote many events at the college. He was also an announcer for KILR sports. In the community, Tim served as a youth group leader at Grandview Baptist Church for the past 2 years for middle school and high school students. Tim spent his college spring breaks on mission trips, helping at homeless shelters and working with children in underprivileged neighborhoods. He was a member of Student Senate, a student ambassador, and a member of the pep band, jazz band, and hand bell ringers. He volunteered as part of the back-stage crew for the musical, and has accompanied the choir on percussion many times.

Call to Artists!

Plein Air Painting and Landscape Photography Exhibits at the Pearson Lakes Art Center

Two upcoming exhibitions at the Pearson Lakes Art Center are seeking artwork for a common subject matter: The Northwest Iowa Landscape.

Set up your easel – or your camera - to capture your perspective on the beauty of Northwest Iowa. Then, submit your artwork for exhibition at the Pearson Lakes Art Center.

The Plein Air Painting Exhibition, a bi-annual favorite at the center, invites painters to work outdoors in the Iowa Great Lakes Region and surrounding communities. This event is for all artists who paint using the plein air technique (all art created in the field, no studio work allowed) in oil, watercolor, acrylic, gouache, and pastel. Artists will have their canvas or papers stamped and authenticated prior to painting beginning August 11 and ending August 16, during art center hours. Finished works must be delivered to the center, ready for gallery presentation, by noon on Wednesday, August 16. The work will then be judged - and awards given - at the opening reception held Thursday, August 17, 5:00 – 7:00pm.

The Pearson Lakes Art Center’s Landscape Photography Exhibition encourages photographers of all skill levels to exhibit their photography work featuring the landscape, with an emphasis on Iowa and the Iowa Great Lakes region. This exhibit will be held alongside our Plein Air exhibit, August 17 – September 16. Each artist may submit up to three photos, to be delivered to the center by August 13, during business hours, and the work must be ready for professional gallery presentation (framed, canvas wrapped, etc.). Artists are encouraged to attend the opening reception for this exhibit to be held Thursday, August 17, from 5:00 – 7:00pm.

There is a \$10 entry fee for each exhibit. For more information, email [visual@lakesart.org](mailto:visual@lakesart.org) to receive the complete information form or visit [www.lakesart.org](http://www.lakesart.org) and click on our Call to Artists tab.

BE A PART OF ROCK N ROLL HISTORY!

Milford pianist Jennifer Johnson performed for the Okoboji Summer Theatre Association's grand finale for the Stephens College students and alums Saturday night at the Pearson Lakes Art Center, before later accompanying them on a few previews from this week's production of *South Pacific*—and a few Beatles' tunes, like *Hey Jude* (left).

## South Pacific SOLD OUT!

The ship has sailed. Even after adding an additional performance the Okoboji Summer Theatre is now only taking names for a *South Pacific* tickets waiting list, as the season finale was entirely sold out as of late last week. That's good news — unless of course you wanted to see the Rogers & Hammerstein musical and waited too long to call for a reservation.

OST executive director Ruth Ann Burke told us over the weekend that the Stephens staff will start working on next year's schedule right after Labor Day. It's not just a question of what shows the college wants, Ruth Ann explained, but what will be available in this region.

Translated, that means we probably shouldn't expect to see *Hamilton* — at least not on the OST stage in the 2018 or even 2019 season...

**After a great Thursday night** leading the *Okoboji 6-Tet* in its debut appearance at the Little Swan Lake Winery, Rick Ayres will return to the Majestic Pavilion, Tuesday night, from 7-9:00, fronting the *Jazzed Up Big Band of Okoboji* for the final JUBBO performance of the year...

**Glenn Henriksen is also set** for his regular Tuesday and Wednesday night house concerts starting at 7:00 each night. And the good news there is that Glenn is also adding another performance in The Lakeview Room at The Inn, on Wednesday, August 16. *The Sounds of Summer* is being billed as a variety show featuring several performers...

**Wednesday will see another addition** to the entertainment roster, with guitarist Neal Ruge playing during the dinner hour — 6:30-8:30 — at That One Place, in the Boji Bay Fun House...

**Slow Jam and Kevin King will be highlighting** the season's penultimate performance at Thursday night's IRRMA Rock the Roof Concert in the Roof Garden at Arnolds Park from 6-8:30...

**The South 71 Trio will be returning** to the Little Swan Lake Winery Thursday night, from 6-8:00. Then, Emma Wicks returns Saturday, from 6-8:00, and the Scott Larsen Band will play on Sunday, from 4-6:00...

**Spencer's Main Street Market** could see its season finale this week, with *Jack Ryan & Friends* on the stage in front of the court house from 6-8:00 — unless it snows or rains. And since there is a good chance of precip in Professor A. Good Outlook's long-range forecast, we should let you know that next week is already set as a possible make-good date...

**Estherville is set for two more Thursdays** of Music in the (Library) Square, from 5-7:00. *The Cracked Reeds* will perform this week. *The Side Kicks* will return on August 24th...

**While it is not an outdoor event**, Jackson's Center for the Arts will be hosting its monthly Jam Session at the downtown Center, Thursday night, starting at 6:30. We're told that even musicians from south of the state line are invited to participate...

**The aforementioned South 71 Trio** will perform a Friday afternoon show at the Albert City Threshermen & Cattle Show, from 2-4:00...

**Boji Bay Legacy Park will feature *The Rolling Stoners*, Friday**, from 6-8:00...

**Arnolds Park will have a special Friday night show**, as well, with Chris Isaak & J. D. McPherson on the stage in Preservation Plaza starting at 7:30...

**And Terry Klein** will be entertaining in The Lounge at The Inn, from 6-8:00...

**Spencer's Arts on Grand annual fund raiser, *Backyard Bach & Blues*** will be Saturday night, with more information and tickets still available today, at AOG...

**Emma Wicks will be making a special Saturday appearance** at the Little Swan Lake Winery, Saturday, from 6-8:00...

**And, in what could be one of the biggest shows** of the summer season, *Eric Burdon & The Animals* will appear on stage Saturday night at 7:30, in Preservation Plaza at Arnolds Park...

**The Scott Larsen Band returns** to the barn at the Little Swan Lake Winery, Sunday, from 4-6:00.

**With only one more porch party after this week** (on Monday, September 8th), the Discovery House will be hosting members of *The Spirit of Harmony Chorus*, Monday night, August 14, with the cookout starting at about 6:00, and the music at 6:30...

**All that again brings us to the end** of our weekly music calendar week with the *Dick Bauman Big Band* performing in Pomerantz Hall at the Pearson Lakes Art Center, Monday, from 7-9:00...

**Even though she is on the "disabled list"** this week, research director RD is in remarkably good spirits. As is her habit, RD sent her week's research on Tuesday — two days before taking a spill that will require surgery on two fingers of her right hand later this week.

**As fate would have it, today is Happiness Happens Day** — which RD suggested would be well-celebrated by listening to Ray Conniff's rendition of *That's What Happiness Is...* and / or Dean Martin's 1967 *Happiness Is* album, that includes *Lay Some Happiness On Me*.

RD needs some happiness!

**Cat lovers the world over** will no doubt be celebrating today as Cat Day. Peggy Lee made two cat songs very popular -- her *Alley Cat* song, and *The Siamese Cat Song*, from the 1955 animated Disney feature *Lady and the Tramp*.

**Today is also saxophonist, composer, arranger** and band leader Bennett Lester 'Benny' Carter's centennial birthday. Carter's *August Moon* is a song RD recalled hearing the first week in August each year at *The Live Broadcast from the College of Musical Knowledge*...

Just for the record, the full August Moon was Monday night...

**Wednesday would have marked Harry Mills' 104th birthday.** As a founding member of *The Mills Brothers* — first a quartet, then a trio — Harry saw the group sustain its popularity for over four decades, from its start in 1925, to its 1960s *Paper Doll* and *Up a Lazy River*, recording more than 2,000 songs and selling millions of records in that time.

**Other birthdays this week** include pianist, composer and arranger Claude Thornhill (Snowfall); Jimmy Ray Dean, (Big, Bad, John); and British jazz pianist George Shearing, who is perhaps better known for his *Lullaby of Birdland* composition...

**Best of all — at least as far as we're concerned** — Saturday is Vinyl Record Day. You do remember 78s, 45s and 33 RPM vinyl records — 10", 7" and 12" discs with holes in the middle, don't you? While we don't expect to make the trek to any metropolitan music store to acquire more LPs to add to our library, we might just unearth our 1947 Seeburg jukebox to celebrate on Saturday... No jukebox? You might have fun cranking up an old Victrola or record changer from the '60s...

**All the news that fits we print.**

## Erick Wolfmeyer: Rerum Novarum

The Pearson Lakes Art Center announces the upcoming exhibit, *Rerum Novarum: Quilts by Erick Wolfmeyer*, opening August 31, in the Monte Pearson Gallery. The artist will be present for the opening reception that evening from 5:00 – 7:00pm with an artist talk at 6:00.

Erick Wolfmeyer, of Iowa City, considers making art a privilege — one which he has dedicated the past 20 years of his life to. Throughout his work, you find consistent themes: time, memory, and place. The undulating landscape of the rural midwest supplies fertile design and color inspiration. Befitting the artist's own German heritage, the quilts are anchored in the region's agricultural work ethic.

Each quilt is designed and constructed by the artist to function both as a work of art and a working quilt. Production of a quilt takes anywhere from three to six months to complete. These one-of-a-kind quilts are a collaborative process between the artist and a select group of dedicated women who maintain the increasingly rare tradition of hand-quilting.

In the fall of 2012 Wolfmeyer was included in the exhibit "The Sum of Many Parts: 25 Quilters from 21st-Century America." This exhibition was commissioned by the US Embassy Beijing, China and toured six venues in China and one in North America during 2012-13. His work has also appeared in major magazines like *Architectural Digest* and the book *Men and the Art of Quilting*.

Wolfmeyer's first quilt was a baby blanket he wanted to make for friends. Before that, he had never made a quilt before.

"After completing my first quilt in 1998 with the help of a pattern casually purchased while on vacation in Sisters, Oregon, little did I know I would likely spend the rest of my life creating original quilts of my own. Moreover, I had unwittingly embarked on a journey to mend early losses and discover pathways to beauty and meaning through quilt making. While my inspiration is rooted in traditional quilts, my quilts integrate many other interests including architecture, nature, current events, spirituality, music, literature and memory."

His quilts spring from memories and experience, as well as captures them, especially as each piece is a time intensive undertaking. His quilts, completed in a 12' x 12' studio in his 565-square foot home, are simply remarkable.

Explore Wolfmeyer's works at the Pearson Lakes Art Center, August 31 – October 15, in the Monte Pearson Gallery. Meet the Artist at the Opening Reception Thursday, August 31, from 5:00 – 7:00pm, with an Artist Talk at 6:00pm. This reception is free, with wine and cheese served. Learn more about Erick's work by visiting [www.ewolfmeyerquilts.com](http://www.ewolfmeyerquilts.com).

*The Pearson Lakes Art Center has no admission charge. Hours: 10:00am – 4:00pm, Tuesday – Saturday; 10:00am – 9:00pm Thursday, 12:00 – 3:00pm Sundays. Founded in 1965, the Pearson Lakes Art Center has focused on broadening horizons through the arts for more than 50 years. ## 2015 Marquette Named "Best Red"

*Two other Round Lake Vineyards & Winery wines also considered for the title at regional competition*

Judges of the Mid-American Wine Competition have named Round Lake Vineyards & Winery's 2015 Marquette "best red" at the July contest. The winery's 2015 Drake was also considered for the title, while its Brianna 2015 was a noted contender for best dry white. All nine wines submitted by Round Lake Vineyards & Winery medaled during the contest, which judges wines of the Midwest for their ability to complement a food pairing.

"Medaling in this competition is a special distinction for us," said Scott Ellenbecker, owner of Round Lake Vineyards & Winery. "It not only judges our wines against other wines but also demonstrates their rich assets paired with carefully selected dishes."

Held each year in Ankeny, Iowa, the Mid-American Wine Competition is the first in the United States to offer this format. Chief Judge Doug Frost said, "Typically competitions judge wines only against other wines, and typically the biggest wine wins. But wine is supposed to be consumed with food. By judging the wines in a setting more receptive to wines of balance, and by judging the wine with food, we think we will see a different outcome than the usual 'bigger is better' response."

Ellenbecker said, "Being selected best of the best is truly a great honor. It underscores what our customers have been telling us all along — these wines aren't just great by themselves but they take their place on the table as part of a complete food experience."

Wines medaling at the Mid-American contest were The Drake – Gold, Marquette Reserve – Gold, Brianna – Gold, The Gander – Silver, Zinfandel – Bronze, La Crescent – Bronze, Frontenac Gris – Bronze, Cruisin Wild – Bronze, and Cruisin Red – Bronze.

## Rev. Callahan Continues Series of Sermons on Introducing Adults to Theology

On Sunday, August 13, Reverend Joe Callahan will present his fourth program in the series of six sermons on "Introducing Adults to Theology" at the Iowa Lakes Unitarian Universalist Fellowship. The title of his program is "The Reformation." In his talk Rev. Callahan will look at some of the external and internal influences that brought about the Reformation. These include: the abuse of authority, and the worldliness, wealth, and property of the established church; and the flowering of the Renaissance, and the associated social changes. Major theologians who were involved in the Reformation include Martin Luther, John Calvin, and Ulrich Zwingli. Rev. Callahan will include in his talk the international responses that their beliefs brought about.

The Iowa Lakes UU Fellowship meets at the Arrowwood Conference and Convention Center in Okoboji. Rev. Callahan was an ordained minister in the United Church of Christ. He is retired. The UU Fellowship begins with coffee at 10:30 and service begins at 11:00. An optional lunch (\$10) follows the program. For more information check the UU website [uuokoboji.com](http://uuokoboji.com). Visitors are always welcome.

## LETTERS TO THE EDITOR

The publisher does not necessarily share the views/opinions stated in the "Letters to the Editor" published in The Lakes News Shopper.

To The Editor:

**Trump says "Don't be too nice"**

I hadn't planned to submit a letter this week, but after hearing President Trump's speech to a group of law enforcement officers at Long Island, New York, I just could not be silent. His speech was notorious for its embrace of aggressive tactics of police officers. He encouraged police not to be concerned about physical harm to people taken into custody. Laws are stacked against police he said. "Don't be too nice"!

This, in the face of massive concern and demonstrations to protest police brutality around the country. In fact, October 22 has been designated as the "National Day of Protest to Stop Police Brutality". While it is true that there have been violent gang incidents, it does not justify telling our officers to also act with brutality. I hope no one reading this letter is ever mistakenly identified and arrested for a crime they did not commit and the arresting officer follows President Trump's directive. Remember, you are innocent until proven guilty.

## What About Bur Oak Blight? The Rise of BOB and How to Cope

*Dr. Thomas Harrington, Plant Pathologist, Iowa State University*

A talk about Bur Oak Blight will be held at Iowa Lakeside Lab on Tuesday, August 8, at 7:30pm, in the Mahan Hall.

For thousands of years the noble Bur Oak has withstood the extremes of Iowa's prairie climate, and is the dominant species ringing the shoreline of the Iowa Great Lakes. In recent years, however, the health and stamina of these magnificent trees has come under threat due to a variety of factors including Bur Oak Blight, a fungal disease. Dr. Harrington, Plant Pathologist from Iowa State University, will present his research on the cause and treatment of this disease, as well as other best practices for maintaining tree health.

Due to anticipated draw of this presentation, interested persons are asked to make reservations to ensure seating by contacting Mary Skopec, Lakeside Executive Director, at [mary-skopec@uiowa.edu](mailto:mary-skopec@uiowa.edu) or calling 712-337-3669 Ext 5 or 7.

Dr. Harrington was on the faculty at the University of New Hampshire from 1983 through 1990 as an Assistant Professor, Associate Professor and Chair of Botany and Plant Pathology. He has been a member of the Iowa State University Plant Pathology and Microbiology Department since 1991 and has had a joint appointment in the Forestry Faculty since 1996. He teaches Forest Insect and Diseases as well as Fungal Biology. He is also a member of the Interdepartmental Genetics Major faculty and the Ecology and Evolutionary Biology Major Faculty.

Harrington's research focuses on pathogens in forest trees. Most of these studies involve genetics, evolution or taxonomy of fungi and their populations on forest trees. A new bacterial disease of ash, fungi on poplars, fungi associates with bark beetles, the genus Ceratocystis, and the root and butt rot fungi are specialties.

This presentation is made possible in partnership with Friends of Lakeside Lab and Dickinson County Extension.

**ILCC Leads to Lasting Friendships, Professional Prep**

Through her time in the paralegal program, Iowa Lakes Community College helped Nikki Shaw Thompson prepare for the workplace and meet new friends — relationships she still cherishes today.

"I continue to use the tools that (Iowa Lakes) provided along with the contacts made at (Iowa Lakes)," Thompson said.

Thompson earned her associate's degree from Iowa Lakes in 1994, and went on to get her bachelor's degree in political science/sociology from Buena Vista University in Storm Lake. She worked as a paralegal for 19 years, primarily in family law and personal injury, doing plaintiff and insurance defense work.

In 2015 Thompson obtained her health/life insurance license and is now employed with Midwest Group Benefits in Decorah, where she specializes in individual insurance sales and client services.

"I had so much fun at (Iowa Lakes), and met some lifelong friends there," said Thompson, who received several scholarships, including one for basketball, that helped defray her costs.

In addition to the personal relationships she forged with many people at Iowa Lakes, she especially valued her advisor in the paralegal program, Michael Johnson, and found her instructors helpful and encouraging. As a political science fan, she especially appreciated social science instructor Doug Lietz.

"I would also have to say that John and Carolyn Walz will always carry a special place in my heart, as I am sure they do with all student athletes, who had the pleasure of getting to know them," Thompson said. "They always welcomed us into their home and lives, and still do to this day."

The paralegal program at Iowa Lakes is well-respected throughout the state of Iowa, according to Thompson, and served as great preparation for the career path.

"I think (Iowa Lakes) helped in my professional endeavors preparing me for the next steps in life, including preparation for furthering my education, good work ethic and maintaining lifelong relationships with wonderful people," Thompson said.

**Friends of Lakeside Lab Wins Okoboji Foundation's July Nonprofit Challenge**

## Higgins Museum in Okoboji

Two weeks have passed since the new Curatorial Assistant at the Higgins Museum of National Bank Notes, Ryan Wurtz, presented his graduate thesis regarding the creation of the Herbert Hoover National Historic Site and Presidential Library at the Association of Midwest Museum Conference in Des Moines. Ryan started working for the Higgins Museum in June after receiving his Masters degree in Public History at the University of Northern Iowa. He specialized in historical interpretation and collections management, and is working towards becoming a museum curator.

Ryan and Larry Adams, the curator at the Higgins Museum, are currently staying busy cataloging and inventorying a variety of new objects into the museum's collection, as well as installing some new display cases in the museum's permanent gallery. The museum tells the story of Iowa's National Banks from 1863 to 1935, and houses the largest collection of Iowa national bank notes that belonged to William Higgins, a former mayor of Okoboji. The museum is open Tuesday through Sunday, 11:00am – 5:30pm, from Memorial Day to Labor Day. The museum is located at 1507 Sanborn Avenue, in Okoboji. Stop in anytime to visit with Larry or Ryan, and learn about the fascinating history of Iowa's National Banks.

COMMUNITY & TECHNICAL COLLEGE

Minnesota West Community & Technical College is pleased to announce candidacy status of the Associate Degree Health Information Management (HIT) program.

Candidacy status with Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM) allows current and future Health Information Technology (HIT) students to be able to apply for the Registered Health Information Technician (RHIT) exam upon final Accreditation of the school and after the student graduates from the HIT program at Minnesota West. Seeking accreditation from CAHIIM is a voluntary peer review process that assures academic quality in higher education.

"Candidacy status is a huge step for Minnesota West. Candidacy status by CAHIIM, indicates that we are preparing students to enter the Health Information Profession with relevant and hands on experience, something employers are seeking. The need for Health Information Professionals has not slowed down and we want to be giving our students the edge they need to have more possibilities for their future", notes Minnesota West instructor, Elaina Nichols.

Jackie Otkin, Minnesota West Pipestone Campus Dean, states, "This is an exciting opportunity for our students to sit for the national exam. The faculty at Minnesota West work extremely hard to design our program and curriculum to meet the needs of industry and accreditation standards."

For more information on the HIT program contact Minnesota West at 800-658-2330 or [www.mnwest.edu](http://www.mnwest.edu).

The Associate Degree Health Information Management Program is in Candidacy Status, pending accreditation review by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

## Rev. Callahan Continues Sermons on Introducing Adults to Theology

On Sunday, August 13, Reverend Joe Callahan will present the fourth of his series of six sermons on "Introducing Adults to Theology" at the Iowa Lakes Unitarian Universalist Fellowship. The title of this program is "The Reformation." In his talk Rev. Callahan will look at some of the external and internal influences that brought about the Reformation. These include the abuse of authority of the established church, as well as its worldliness, wealth, and property; and the social changes associated with the flowering of the Renaissance. Major theologians who were involved in the Reformation include Martin Luther, John Calvin, and Ulrich Zwingli. Rev. Callahan will include in his talk the international responses to their beliefs.

The Iowa Lakes UU Fellowship meets at the Arrowwood Resort and Conference Center in Okoboji. Rev. Callahan was an ordained minister in the United Church of Christ. He is retired. The UU Fellowship begins with coffee at 10:30 and the service begins at 11:00. An optional lunch (\$10) follows the program. For more information check the UU website, [uukoboji.com](http://uukoboji.com). Visitors are always welcome.

# Okoboji Community School District Facility Assessment - Community Workshop

An Okoboji Community workshop will be held on Wednesday, August 9, 2017, at the Okoboji high school gymnasium. The first workshop with the community held in June, engaged discussions with community members, District staff and administration regarding potential modifications to the District that will enhance the learning environment, thus supporting the District's goal of Pioneering Pathways for Every Student. Attendance was good, with staff, the general public, and the administration in attendance throughout the day. The next workshop will include summary of RSP enrollment and demographic findings plus site and plan options development. The public is welcomed and encouraged to come participate in discussions during this time.

Bank Midwest is proud to support the Lakes Regional Healthcare Foundation by donating funds to help bring vital state-of-the-art screening equipment to residents of the Iowa Great Lakes. The donation to the Lakes Regional Healthcare 3D Mammography Project will help replace the existing and outdated 2D digital mammography unit at Lakes Regional Healthcare. The project's goal is to purchase, install, train staff and begin providing patient access to 3D mammographies locally by the spring of 2018. Currently, Lakes area patients are referred to Sioux Falls, SD for 3D mammography testing, which involves more than a 200-mile round trip.

"It's an honor donating to a project that will have a lifesaving impact on our community," states Bank Midwest Community Bank President, Keith Deitering. "By ensuring patients have access to the latest technology locally, we can serve them better and help minimize the need to travel, taking time away from families and jobs."

The total projected cost is \$498,000, and fundraising efforts began in December 2016.

The Bank Midwest Community Fund is designed to help support larger community projects that are meeting a unique need in the markets it serves. The fund accepts proposals from local, community-based 501(c)3 organizations and is focused on the arts, environment, recreation, youth, and general long-term community betterment initiatives.

To be considered, applicants must demonstrate how their project will impact Bank Midwest customers, shareholders and employees, as well as how much market area the organization or event will reach and the potential for employee involvement. About Bank Midwest

Bank Midwest is an employee-owned organization with 11 locations throughout Iowa, Minnesota and South Dakota. The financial institution has assets of \$818 million, and is a full-service financial institution offering loans and traditional FDIC-insured accounts, as well as insurance, investment and trust services. (Investment and insurance services are not deposits, not FDIC insured, not guaranteed by the bank and may go down in value.)

He grew up in Albert City, where he graduated early from Albert City High School in 1943, at age 17, to join the U.S. Navy honorably serving his country during WWII. He was on the U.S.S. Rey began his teaching career in the small schools of Iowa including Mondamin, Kirkman-Irwin and Graettinger. He had a passion for teaching and mentoring kids. He was President of the Iowa State Education Association 1970-71. In 1967 he began his counseling career at LeMars Community High School where he stayed until he retired in 1988 at age 62.

Rey met lone Ruth Whitehouse in college and they married in 1951. They were happily married for 66 years. He provided a stable, loving home to his 5 children who tried to give him a quiet house on his birthday and Father's Day. He and lone retired to Spirit Lake, Iowa, as their summer home base, traveling 17 years around the U.S. with their RV until 2007 when he had a stroke. They then moved to Livingston, Texas. He was a member of the United Methodist Church in LeMars and St. Alban's Episcopal Church in Spirit Lake.

Rey was always engaged, wanting to learn and challenge his mind including working crosswords, Toastmasters, reading many genres and his Louis L'Amour collection. He was a handyman extraordinaire who could fix or figure out anything from dolls and bikes to plumbing and rewiring an entire house.

## Writers and Writing

by Michael Tidemann

### Ordinary Sins by Jim Heynen

I had the immense pleasure of taking a weekend workshop on dialogue with author Jim Heynen at the Iowa Summer Writing Festival in Iowa City in June 2013. Heynen was born on a farm near Sioux Center and is a regularly featured instructor at the festival. He now lives in St. Paul, Minnesota.

Toward the end of the two-day workshop, Jim spoke enthusiastically of the classical Greek philosopher Theophrastus who lived 371 to 287 BC and the philosopher's depiction of character types. Heynen said those same characters could be walking our streets today.

Fast forward to the present day and we have Ordinary Sins, a delightful depiction of character types of whom we all are familiar. In the book inspired by Theophrastus Characters, Heynen's gift for wry irony opens a curtain to people we all know – perhaps even ourselves.

I was immediately struck by Heynen's depiction of The Hoarder and her "dozen shoeboxes bulging with tiny owls". While I know just such a person, and her situation is indeed tragic, Heynen observed that another person compared The Hoarder with a caterpillar making a cocoon.

"Single-minded in her mission, she went on filling the remaining gaps bit by bit, knitting herself in tighter – eagerly, like one who was preparing for that glorious day when the world would burst open around her and she could fly into the unencumbering sky on wings of many colors."

Heynen's natural gift for humor shines in the depiction of Who Loved Her Dog.

"The dog was so small that she wasn't sure of its sex until Pee-wee lifted its leg over her two-inch high bronze fireplace cricket."

That was certainly a revelation, no doubt.

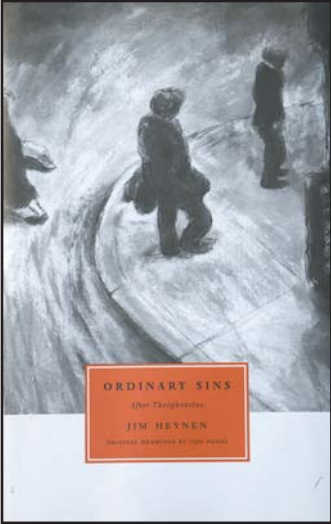

Heynen's irony is really apparent with The Helper who picks up a lost little girl and places her on his shoulders so she can look for her mother.

"The Helper felt someone from behind scoop the child from his shoulders. He assumed someone was there to help him helping. One officer was taking the child from his shoulders and, just as quickly, another put handcuffs on his wrists."

No doubt The Helper needed help talking his way out of that one.

Anyone who has enjoyed Heynen's past work, such as The One Room Schoolhouse, will love Ordinary Sins.

Dave Rowley and Friends at the PLAC

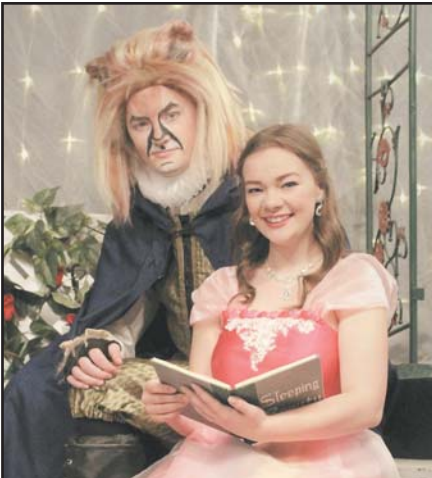

What better way to help close out the summer than with a local favorite tradition: Dave Rowley and Friends? Dave and his friends have appeared at the art center for many years, and they are always a blast to see. With music, fun, and shenanigans, the evening is bound to be a great time for all.

All are welcome Friday, August 18, at 7:30pm at the Pearson Lakes Art Center, to see Dave Rowley and Friends perform live on the Lauridsen Performing Arts Theatre stage. Tickets are available for purchase, and more information can be found by calling the PLAC box office at 712-332-7013 or at [www.lakesart.org](http://www.lakesart.org).

“Beauty and the Beast” Final Week

A delightful new musical version is onstage at Treasure Village. The caring Beauty tries to help the Beast learn that true beauty comes from the heart. An enchantress leads the audience through the story as the Beast's servants, Thurman and Mimi, encourage the Beast to keep trying to win Beauty's heart and break the spell.

Performances of Beauty and the Beast will be at 10:00am on Tuesday through Saturday, August 8 through 12. Tickets are \$7.00 each for ages 11 and up and children ages 3-10 are \$5.50. Face painting is available before and after the performances. Treasure Village also offers family fun with a storybook themed mini-golf course, ice cream, and carpet ball. For details call 712-337-3730 or check [www.treasurevillage.org](http://www.treasurevillage.org). Treasure Village is located on the west side of West Lake Okoboji, just two miles northwest of Milford on Highway 86.

IBBB at Bison Burger Picnic & Lawn Concert on August 15

The O'Brien County Conservation Board is pleased to announce that the Itty Bitty Boji Band will be returning for their fourth annual performance at the Bison Burger Picnic and Lawn Concert on Tuesday, August 15. This annual event is held at the Prairie Heritage Center located west of Peterson, at 4931 Yellow Avenue.

Come enjoy the beautiful scenery surrounding the Prairie Heritage Center, view the buffalo herd, see the exhibits located within the center and treat yourself to a Bison burger meal with all the picnic fixings. Then, bring your lawn chair or sit on the hay bales and enjoy an outdoor lawn concert provided by the Itty Bitty Boji Band. It truly is one of the best ways to enjoy an evening in Northwest Iowa. Cost for the meal, including your beverage is only \$10.00 for adults, \$5.00 for children ages 5-8, and free for those under age 5. All proceeds are used to benefit the O'Brien County Conservation board. Don't miss this chance for a great meal, a great evening and a great concert by the Itty Bitty Boji Band.

Public School, Fenton, Iowa • Early 1900

Stepping Back in Time by Jerry and Irene Clark of the Clark Museum of Okoboji area and Iowa history – Milford, Iowa.

Here is a wonderful picture of the Fenton School in Kossuth County. I do not have a lot of history about this school, except that it was built in 1881, for \$2,000. Laura Bush and Mrs. J.F. Jordan were the first teachers. One can see that the school was well built and well cared for. Notice the fire escape and the clothing of the students. If all the names were known, one would see there were many brothers and sisters in the photo. This was the era of the large family. The school had a nice bell tower, I wonder how many years this building was used for a school? Someone from Fenton will surely tell me while visiting the museum.

The museum displays pictures and advertisements from Bancroft, Burt, Lane Rock, Swea City, Titonka, Fenton, Germania, Ledyard, Hedrick, Gerled, Wesley, Luverne, Algona in Kossuth County. Bring a friend and view towns from 99 Iowa counties and many pictures and original items from the old Amusement Park. You will be amazed.

The air conditioned museum is located one mile west and a half mile north of the Milford Catholic church. For more information, call 712-338-2147 or email [ijclark1@msn.com](mailto:ijclark1@msn.com). The Clark Museum is a 501 (c) 3 Non-Profit.

## Agronomy ADVICE:

*Tips from the Channel Field Check Up Series*  
**Drought and Heat Stress in Corn and Soybeans**

As we head into August and the dog days of summer, drought and high temperatures can stress corn and soybean crops. If this stress occurs at specific plant growth stages, decreases in yield potential may occur.

Corn is most sensitive to stress during pollination and grain fill. If temperatures are high and moisture is limited during the two weeks following pollination, kernels, especially those at the tip of the ear, can be prone to abortion. Dry weight accumulation is affected after kernels reach the dough stage. In areas affected by drought and heat stress, kernels may not get the nourishment they need to develop properly. This can result in smaller, lighter kernels. Other symptoms associated with moisture stress are leaf death and plant lodging.

High temperatures, even in conjunction with sufficient moisture, can cause a high degree of stress on a corn plant. Both daytime and nighttime temperatures can affect yield potential. According to Iowa State University, a 1% corn yield loss can be expected after four consecutive days of 93 degrees F or greater. High temperatures stimulate respiration in the plant, which burns sugars that should be stored in the plant. This is especially true when nighttime temperatures remain high, and corn yield potential can be reduced without plants showing any sign of stress. High humidity can compound these problems by slowing the cool-down of the corn plant in the evening.

Management decisions for the remainder of the season should be made based on pollination success. If the kernel set is good, the crop has potential to produce some grain. However, if the remaining yield potential reaches 25 bushels per acre or less, harvesting for silage may be the best option.

Drought stress during soybean reproductive stages can cause floral abortion, reduced pod number, fewer seeds per pod, and reduced seed size. Moderate drought stress can reduce or halt nitrogen fixation and disrupt seed development. During certain stages of seed fill, a 39-45% reduction in yield potential can occur when there are four days of visible moisture stress.

It can be difficult to separate the effects of high temperature from the effects of water stress in soybeans. These stresses often occur together and magnify the effects of one another. According to North Carolina State University, when temperatures get above 95 degrees F, soybeans can't pump enough water to keep up with transpiration and evaporation. The plants then close the stomates in their leaves, which prevents water from escaping. This also means that carbon dioxide can't get in, and the plants can no longer make sugars needed to fuel growth and development.

Drought effects are generally expected to be less damaging to soybeans than they are to corn. If adequate rainfall occurs after R5, a soybean plant may compensate for earlier losses by producing larger seeds. Managing other stress factors like insects, diseases, and nutrients, can be key to maximizing soybean yield in a hot, dry year.

Be sure to consult your local Channel Seedsman with any questions regarding drought stress and the best management practices to maximize yields on your farm.

DAR Group Plans for the Future

A ukulele band, tour of a home full of antiques, a visit to a couple who make quilts for veterans, and a program on Native Americans highlights the plan for the Ladies of the Lake Chapter of the DAR, Spirit Lake, for next year. The Executive Board met recently to organize for the group's 2018 programming. The chapter meets from May through October. The group strives to promote awareness of our heritage as well as citizenship and patriotism.

Ladies of the Lake will meet next at the Dickinson County Nature Center in Okoboji at 1:00pm, August 8, for a program on pollinators. On August 22, the group will travel to Sheldon to observe the progress that has been made on the Baker one room schoolhouse. The chapter has been contributing to the renovation, especially Colleen Lemkuil, immediate past regent of the chapter. Plans are also in the works for Constitution Week, which occurs in September and a rededication of the train depot marker this fall. The Dickinson County Museum, Spirit Lake, has re-sided the historic depot where the marker was located.

Anyone wishing to inquire about or join DAR may contact Mary Thunhorst, regent, of Ladies of the Lake, at [mdthunhorst@gmail.com](mailto:mdthunhorst@gmail.com) or call 712-336-0240, or find the application online at the NSDAR site.

Tuttle Celebrates 90th Birthday

Harold (Hal) Tuttle's birthday party held Sunday, July 30, at the Prairie Arts Historical Park in Sheldon, was a definite success.

The honoree had a great time seeing friends at the Baker School event. Over 100 people attended and greeted Hal and his family. Cards and donations were given and the fundraising goal was met. Sponsors for the event included Hy-Vee, 120 rolls; Citizens Bank, napkins and placemats; and Shopko, plates, cups and forks. Hugh Johnson furnished the sweet corn from his farm near Moneta, Iowa; cupcakes came from Emily Petrich Knight's Half Baked Bakery in Sheldon as did the potato salad. Ruth Ann Van Donslear of Milford furnished the turkey and potato chips. Colleen and Stan Lemkuil of Spirit Lake furnished the taverns, iced tea and lemonade; Servers were Carol Cleveringa McDowell, Ruth Ann Cleveringa Van Donslear, Emily Petrich Knight and Brittany Colleen Perrin who lives in the Prairie Arts Historical Park apartment.

All the publicity given the event by the newspapers was effective and greatly appreciated as were the posters made by Northwest Bank of Sheldon, and the street sign put up by Karin VandenBerg, secretary of the Prairie Arts Council who is also the daily care person for the Historical Park.

Music for the event was provided by Amy Schaeffer and family. A tip basket was passed for the volunteer musicians. Ben Salter, a Boy Scout volunteer who has helped with the renovation, provided tours for guests to the other buildings in the complex. Volunteers Kristin Noack helped everywhere and Damon Miller, Prairie Arts Board Member, assisted with the Lynn County School tours. Wesley Peters of Hartley was at the teacher's desk explaining his book on Country schools to those that stopped to view and talk to Wesley. You can buy the book from Wesley or at the Baker school.

During the evening Hal received a grant from the Kiwanis Club for \$1000 to be used for the furnishings for the Kids Art Club that will be in the lower level of the Baker school. The Cleveringa family and Hal Tuttle and the Prairie Arts Council thank everyone for coming and assisting with the event. It was great to honor Hal Tuttle and to help him get the Baker school finished. There are now four country schools at the Prairie Arts Historical Park. The Upper Midwest Country School Conference will be held in Sheldon on October 6 and 7, at the Northwest Iowa Community College. College President Dr. Rhonda Pennington, will be the first speaker that day welcoming those in attendance. Harold Tuttle will present information regarding the Renovation of Baker School that received a grant from the Country School Association of Iowa. For more information regarding this contact Colleen Lemkuil at [stancolleen37@gmail.com](mailto:stancolleen37@gmail.com) or call her at 515-229-4619 or Bill Sherman at W. Livestock Competition Deadline Approaching For Clay County Fair

The entry deadline of August 15 is rapidly approaching for exhibitors to register their award-winning sheep, swine, dairy cattle, rabbits, horses and beef cattle for competitive shows at the 2017 Clay County Fair.

"Livestock competition is a cornerstone of the Fair experience," said CCF Manager Jeremy Parsons. "We encourage exhibitors to get their entries to us by August 15."

Daily open class livestock and horse shows are a highlight for many fairgoers each year with 700 exhibitors showing 2,223 open class livestock exhibits in 2016. Additionally, several hundred 4-H and FFA exhibitors also show at the Fair.

New to this year's Fair open class livestock competitions is the Hereford swine division. The Hereford swine show will be held on Saturday, September 9. Changes have also been made to the draft horse show, including added premium money. The North American Six-Horse Hitch Classic Series, which will feature \$10,000 in prize money for the beautiful hitches, will begin at 1:30pm on Saturday, September 16 and Sunday, September 17, giving fairgoers two afternoons to watch the draft horses.

"Our goal is to constantly expand our livestock shows to give more people the opportunity to show," Parsons said.

Check out the exhibitor handbooks online at [www.claycountyfair.com](http://www.claycountyfair.com) to find the rules and guidelines, as well as online registration, to enter livestock at the 2017 Clay County Fair. Deadline for open class livestock entries is August 15.

A complete livestock schedule for 2017 can be found on the Fair's website [www.claycountyfair.com](http://www.claycountyfair.com).

Iowa Lakes Honored for Sustainability

Its school colors may be blue and gold, but Iowa Lakes Community College is green all the way through, as a recent sustainability award from the U.S. Department of Education showed.

Iowa Lakes was the only school in Iowa and one of only nine postsecondary schools in the nation to be named a Green Ribbon School Postsecondary Sustainability Awardee. The award is given to schools that reduce environmental impact and costs, improve health and wellness, and teach effective environmental education.

The college sent two representatives to Washington, D.C., for the July 19 awards ceremony — Steve Olerich, dining service supervisor, and Bill Lapczynski, director of auxiliary services. "People look at and recognize the fact that we are a Green Ribbon sustainability school," Olerich said. "In some cases, (that) makes the difference on coming here (for classes). I believe we'll try and keep that edge."

At the ceremony, officials praised Iowa Lakes for its 66,000 square foot garden, which provides healthy produce for students and community members, and for its wind turbines, used both for training purposes and for generating power. The education department's blog also praised Iowa Lakes for its geothermal renewable energy systems, controlled heating and lighting, automatic hand dryers and its practice of recycling food service grease for biodiesel. Multiple programs include core practices geared toward sustainability.

After the awards were given out, honorees were encouraged to network with each other. Olerich picked up some useful ideas for the garden, such as different watering practices, and chatted about cover crops and composting with other awardees.

"Your work is not done," said Holly Ham, assistant secretary for management with the U.S. Department of Education, at the ceremony. "This special day is just the start of your green school journey. Your role now is to mentor other schools... so that they can learn from your promising practices."

For more information about the awards and the awardees, visit <https://www2.ed.gov/programs/green-ribbon-schools/>.

Holly Ham, assistant secretary for management with the U.S. Department of Education, Bill Lapczynski, director of auxiliary services, Steve Olerich, dining service supervisor, and Adam Honeysett, managing director of state and state and local engagement with the U.S. Department of Education.

## LETTERS TO THE EDITOR

The publisher does not necessarily share the views/opinions stated in the "Letters to the Editor" published in The Lakes News Shopper.

**To The Editor: Can You Find The Positive?**

Most of the Anti-President Trump Letters to The Editor merely repeat the negative stories being reported by the national news media. These so-called journalists include most major TV networks (ABC, CBS, CNN, NBC, & MSNBC) and most major newspapers (NYT and WP). When they encounter a news story they look for a way to spin it as "Trump is up to no good". It would be great if these stories were "fact checked", but most of the time they are written with a liberal political bias. Just try to find a positive news story about President Trump in our national news media. You probably won't be able to find one. The national news media approval ratings are lower than Congress and Congress is far lower than President Trump. It is amazing President Trump has any approval rating considering the liberal bias in our national news reporting.

Once they run out of negative theories about President Trump, they move to negative stories about President Trump's family. Is a meeting with a foreign government a crime? Since the November election there have been four special elections for GOP held US House seats (Kansas, Montana, Georgia, and South Carolina). The Democrats had high hopes of winning at least some of these elections because of the perceived anti-Trump sentiment. They poured huge sums of money into these special elections – the result – they won none.

The typical way the liberals deal with their political opponents is to engage in personal attacks. It is hard for liberals to engage in debates over policies, because once their policies are brought to light the public sees why liberal policies are not good for the country. If the liberals want to attack President Trump why don't they attack his policies? They could attack President Trump's policies of reducing illegal immigration, eliminating unnecessary government regulation, defeating the criminal gang MS-13, defeating ISIS, and supporting law enforcement.

After a year of investigating the "Russian influence" in the election what facts do we have to support such a charge? None. How were the Russians supposed to influence our presidential election when the votes are tallied in over 3,000 counties? Many barometers of our country's well-being are trending in the positive direction: more jobs, higher stock market, and lower illegal immigration. There are many positives for our country if you want to see them.

Phil Petersen, Okoboji, Iowa

## Heart to Heart With Heritage Landing

Trick me once shame on you... by Sally Anderson

Recently I received a phone call from a gentleman who informed me that I needed to call a phone number he would give me to prevent a federal agency from putting out a warrant for my arrest by 6:00pm that evening.

Now, believe me, I'm not perfect. I have walked across the cross walk when the light was red and I may have done a few questionable things in my youth, (which I am sure the statutes of limitations have long since run out) but I was certain that I had committed no federal and/or state offense which would warrant a warrant.

I asked this man several questions – who he worked for, where he was located, and the more questions I asked, the angrier and the more intimidating he became. At one point he raised his voice and told me that he knew exactly where I lived, gave an address, (which was my previous address) and told me that the agents would come directly to my home and arrest me. I told him I would contact local law enforcement and have them check for any warrants that I might have and hung up.

Every day seniors are receiving these types of calls and are being scammed. Here are four common types of fraud that prey on senior citizens, and what you can do to protect yourself and your loved ones.

1. The imposter - This scam starts with a phone call or email. The scammer poses as a family member, friend, business or government official. They ask you to wire money immediately – using a service such as MoneyGram or Western Union – to cover expenses such as a lien, a fine, outstanding debts, bills, rent, or an emergency like getting out of jail or fixing car troubles. What should you do? Do not wire any money. No government agency requires wire money transfers. If it is an email, mark it as spam and delete the email. Do not respond to the email – this can open the door to identity theft. If it is a phone call, do not offer any personal information. Hang up. Call the family member or business the person was claiming to be to verify if the caller was really who they said they were.
2. You won! If you get an email, letter or phone call claiming you've won a prize or sweepstakes, don't get too excited just yet. This scam will say you have to pay taxes or a fee before you can claim what you've won. The scammer will ask for your bank account number or request a wire money transfer to get the prize to you. What should you do? Delete, block and ignore all of these offers. Never share personal financial information with someone who contacts you. Don't wire money to anyone you don't know.
3. The fake charity – This scam comes unsolicited from what may appear to be a legitimate organization asking for a donation. If the person is insisting the donation must be made immediately, or if they deflect or ignore your questions about how the money would be used, it's probably a fraud. What should you do? Ask more questions, and do some research before making a donation. These scams almost always ask for cash or a wire transfer – instead, ask to receive hard copies of the information so you can review it later. Legitimate charities will comply, and also offer specific information about how your donation will be used in their charity. Ask friends or look online to see if it's a legitimate charity. Only donate to charities you know and trust.
4. Medicare and insurance needs – If someone calls you saying they're from Medicare or your insurance company, you should immediately be suspicious. Medicare and most insurers never call unsolicited. This scam typically asks for your bank account number to deposit funds, your Social Security number to verify coverage, or your Medicare number to re-issue an ID card. What should you do? Hang up. Never give out your bank account number, Social Security number or Medicare number to someone who calls you. Call your health insurance provider or Medicare at 800-633-4227 to verify if there are any legitimate needs for your account. If you receive a scamming attempt, report it to your local police, and let your bank know of any fraudulent charges. You should also report any fraud attempt to the Federal Trade Commission at 877-382-4357 or [ftc.gov/complaint](http://ftc.gov/complaint). Your complaint can help protect other people from these scammers. To learn more about protecting yourself from fraud visit us at [www.good-sam.com](http://www.good-sam.com) under the Advocacy Tab. ## PRINT MARKETING vs DIGITAL MARKETING

### CONSUMER BEHAVIOR & NEUROMARKETING PRINCIPLES

One of the most common questions that I get from new clients is "should I focus on digital ads or print ads?" There is no easy answer to this question, but my general answer to that question is both. And, for the clients that want to move completely digital, there is new data out that suggests you should put the brakes on that thought and rethink.

Why? Simply put, it's about how our brain works. In a recent study, based on brain scans, a print ad appeals more to the part of the brain that has the highest correlation with advertising effectiveness than a digital ad. Brand recall is up to 70% higher in print advertising than in digital media. In a study that measured 1,400 campaigns using a variety of ad venues, print advertising resulted in the highest return on ad spending. Consumers are 70% more likely to remember a company name from a print ad than a digital ad. There is also a 75% print ad recall, (meaning they remember the ad) in comparison to a 44% digital ad recall.

Generally speaking, consumers tend to be more relaxed and focused when they read print magazines or newspapers. As a result, they are less likely to be distracted by other options and they therefore make decisions more quickly and are generally more likely to feel satisfied with purchases they make in this mindset.

Researchers are just starting to understand the neurological pros and cons of online versus print advertising. But, it may come as no surprise that print and digital media excel in different areas. One of the most notable benefits of print ads is that they are better at stimulating emotions and desires. Engaging with a physical ad can also improve recognition and recall because paper stimulates more senses and is therefore more real to the brain. And for those of us trying to build a brand that connects emotionally with our customers, to create brand loyalty, it builds a case for continued print ad spending.

So, you may still be thinking, who reads print anymore? It comes as no surprise to me that based on this study, magazine readers are wealthy and well educated. However, they also found that the Millennial did not get lost, as data shows 95% of Americans under the age of 25 still read print magazines. And that's the real story.
