The U.S. Food and Drug Administration today approved Noctiva (desmopressin acetate) nasal spray for adults who awaken at least two times per night to urinate due to a condition known as nocturnal polyuria (overproduction of urine during the night). Noctiva is the first FDA-approved treatment for this condition. Nocturia (wakening at night to urinate) is a symptom that can be caused by a wide variety of conditions, such as congestive heart failure, poorly controlled diabetes mellitus, medications, or diseases of the bladder or prostate.

A clinical trial studying the use of Verapamil (a drug currently in use for cardiovascular disease and cluster headache) in alleviating chronic rhinosinusitis (CRS) with nasal polyps revealed significant improvement in the symptoms of this subset of patients. The first study was published in the Journal of Allergy and Clinical Immunology.

Widely used pain relievers may increase the risk of a heart attack when used during a cold or flu-like illness, according to a new study published in the Journal of Infectious Diseases. The findings suggest physicians and patients should use caution when prescribing or taking the medications known as nonsteroidal anti-inflammatory drugs, or NSAIDs, to ease symptoms of acute respiratory infections.

Looking For A Special Pre-K?

We have an excellent pre-K at KidZone Learning Center, LLC.
Our pre-K exceeds the Head Start program.

- Reading - recognition of vowels, consonant, letter and sound blends, sight words and color words
- Math - count to 100, recognize numbers 1-20, addition/subtraction, patterns, shapes & opposites
- Spelling - first and last name, and spelling challenges to help with thinking skills
- Science - planets, order and facts about each, animal habitats, plant growth and cycles, weather, seasons, colors blends, cause and effect
- Social Studies - facts about our home living, Alabama and surrounding states, Presidents, community helpers and holiday significance. We start each day with the Pledge of Allegiance.

Our lessons cover much more than is required to make sure each child is ready for kindergarten

Why is our pre-K class so great?
Our one year old room teaches the basics such as; small and large muscle activities, letters, sound games, shapes, songs and colors as we transition from our ones to our two year old room we recognize letter sounds, counting small numbers, colors, animals and their sounds, finger plays, educational songs, as well as friendly group play and sharing. In the three year old class they will begin getting ready for our pre-K class learning letters and sounds, counting to twenty, learning to trace and write their name, recognizing colors, days of the week, months of the year, each child's learning skills are evaluated and though each child is allowed to learn at his/her own pace we work to prepare each child so that they know the proper skills when entering our pre-K program.

KidZone Learning Center accepts children ages 3 weeks to 12 years.
Accepting enrollment in all age groups. We look forward to have you visit our center.
