NEW Hearing Aid Brings In The Talk and Screens Out The Noise!

NEW!

Most people think hearing aids just turn up the volume, but amplifying all sounds equally can cause listening discomfort and confusion. Fortunately, unlike other technology, the Acuity Voice within the NEW Starkey Muse™ stimulates only the hair cells which have been damaged. This leaves any normal hearing un-amplified.

This new technology is now available at 30% OFF MSRP.

Hear it for yourself right in our office with a **FREE Trial!** Hurry, discounts end Friday!

Prayer to St. Anthony

Great Saint Anthony, friend of God, who had the happiness of receiving within your arms our blessed Lord in the form of a little Child, obtain for me of His goodness this favor that I desire from the bottom of my heart. You who were so gracious to poor sinners, do not look on my lack of merit, but consider the glory of God which will be exalted once more through thee, to the salvation of my soul and the granting of the petition that I now make with such earnestness. Amen.

Anxious Dog Needs Socializing

DEAR PAW'S CORNER: No matter what I do, I can't get my 1-year-old shorthaired pointer, "Blue," to act appropriately around other dogs. I tried taking him to the dog park a few times since adopting him, but he becomes hard to control after seeing dogs on the other side of the fence. How can I socialize my dog? — *Frustrated in Cincinnati*

DEAR FRUSTRATED: At the risk of being blunt, forget about the dog park for a while. Blue needs to be able to respond to basic commands like "sit" and "stay," and he needs to remain calm in situations with other dogs. Neither of these things is happening when you take him to the dog park.

Blue's behavior suggests he's worried about the situation that you're taking him into. Who are those dogs? What is this place? Is it safe? He doesn't know, and he doesn't know what to do, and he's acting up. You must find what Blue's anxiety triggers are. Chances are he is getting stressed well before he reaches the park.

How do you do this? Teach Blue a basic command, like "sit" or "lie down," until you are confident Blue will do it immediately. Later, on your walks, give him this command. If he responds well, he's probably calm and focused, which is good. If his response falters or he doesn't obey at all, something is up — he's getting distracted or stressed.

Blue needs to develop confidence that he will be OK in unfamiliar situations. There are a number of methods to do this, and you can learn how by working with a trainer on ways to ease him into new environments.

Send your questions, comments and tips to ask@pawscorner.com.

ARIES (March 21 to April 19) A change that you'd hoped for is down the line. But you still need to be patient until more explanations are forthcoming. Continue to keep your enthusiasm in check.

TAURUS (April 20 to May 20) Your social life expands as new friends come into your life. But while you're having fun, your practical side also sees some positive business potential within your new circle.

GEMINI (May 21 to June 20) Your workplace situation continues to improve. Look for advantages you might have missed while all the changes were going on around you. That trusted colleague can help.

CANCER (June 21 to July 22) Resist the urge to hunker down in your bunker until things ease up. Instead, get rid of that woe-is-me attitude by getting up and getting out to meet old friends and make new ones.

LEO (July 23 to August 22) Now that you're back enjoying the spotlight again, you should feel re-energized and ready to take on the challenge of bringing those big, bold plans of yours to completion.

VIRGO (August 23 to September 22) A former friend would like to repair a relationship you two once enjoyed. Your positive response could have an equally positive impact on your life. Think about it.

LIBRA (September 23 to October 22) Resist making impulsive decisions. Stay on that steady course as you continue to work out workplace problems. Be patient. All will soon be back in balance.

SCORPIO (October 23 to November 21) You might feel confident about taking a promising offer, but continue to be alert for what you're not being told about it. Don't fret. Time is on your side.

SAGITTARIUS (November 22 to December 21) People dear to you might be planning a way to show appreciation for all you've done for them. Accept the honor graciously. Remember: You deserve it.

CAPRICORN (December 22 to January 19) Congratulations. Your self-confidence is on the rise. This could be a good time to tackle those bothersome situations you've avoided both at home and at work.

AQUARIUS (January 20 to February 18) You feel obligated to return a favor. (Of course, you do.) But heed advice from those close to you and do nothing until you know for sure what's being asked of you.

PISCES (February 19 to March 20) Your loving reassurance helped revive a once-moribund relationship. But be wary of someone who might try to do something negative to reverse this positive turn of events.

BORN THIS WEEK: You are a wonderful matchmaker who can bring people together to form long-lasting relationships.

Radish Crostini With Herbed Butter

"Firsts" come to mind as fall approaches. First smile, first tooth, first day of school. The list continues for a lifetime really, if we had the inclination to keep track. Even those little milestones missing from developmental charts are highlights of growing, changing and understanding the world

microgreens I plucked from the soil would become the culinary trend they are today for garnishing soup, pizza and open-faced sandwiches.)

Harvesting mature rosy-red radishes less than three weeks after planting was rewarding for an impatient kid like me. Then, as temps began to drop in August, I eagerly planted the remaining seeds in the packet for a successful second harvest come September.

Now is a good time to plant radish seeds for fall. Choose a traditional easy-to-grow variety, or try something new, like heirloom watermelon radishes for their green exteriors and rosy flesh.

Whether you grow your own, or buy a colorful bunch from your market, enjoy dipping radishes in coarse salt for a classic French-style snack, slice and toss for a crunchy addition to a lettuce salad or try this yummy crostini appetizer using herbed butter that kids will love to stir up and slather on toasted baguette halves.

RADISH CROSTINI WITH HERBED BUTTER

- 1 stick soft unsalted butter (8 tablespoons)
- 3 tablespoons chopped fresh chives or fresh dill with extra for garnish
- Sea salt
- 1 medium baguette sliced in half lengthwise and grilled on cut side
- 8 radishes sliced in rounds
- Freshly ground black pepper

In a small mixing bowl, combine soft butter with chopped chives or dill.

Spread butter over cooled baguette halves. (If you have extra herb butter, use as a topping on vegetables or meat and fish.)

Slice bread, add radish slices and top with ground pepper and chopped herbs. Arrange on a large platter and serve as an appetizer.

Hints For Homeowners

Maximize Your Basement's Potential

When you get down to it, remodeling your basement can help you make the most of your space.

by Scott McGillivray (NAPSA)—With house prices on the rise, finishing a basement is the latest trend toward building even more equity in the home.

A finished basement can offer a little extra room to give a growing family space to breathe, and with so many uses, a renovated basement may be the exact solution to what your home is missing. It can provide additional storage space, a soundproofed media room, craft room, guest room or income suite. The possibilities are practically endless. Here are some tips on how to give your basement a 180-degree makeover:

Waterproof it. Check the interior foundation and floors to make sure there are no existing moisture issues, water damage or mold problems. Address any primary moisture issues before finishing the space. Examine grading to ensure water runs away from your foundation.

Soundproof it. Installing acoustic insulation can provide an excellent excuse for cranking up the subwoofer, hosting a get-together or letting the kids run wild. Soundproofing can be the ultimate solution to maximizing your basement's peace, quiet and privacy. Industry experts suggest using Roxul Safe 'n

Sound, which effectively absorbs sound and is easy to work with.

Add or replace flooring. Installing a new floor can improve the overall comfort level and look of your basement. Vinyl, laminate, ceramic tile and engineered hardwood are great options. Say no to carpet, which can harbor mold and allergens, particularly in the basement, and don't forget to lay a subfloor.

Add color. Transform the dull and boring space into an inviting oasis or a colorful playroom with a simple coat of paint. If your basement has low ceilings or limited natural light, choose lighter, warmer tones to brighten the space. To add some drama, consider adding depth and visual interest to your space with a different-colored accent wall.

Accessorize it. Throw pillows, rugs, lighting and artwork are simple additions that can immediately enhance or change your basement's look and feel. Recessed lights can modernize, while artwork and throw pillows can add a splash of color. Accessories are really an opportunity to make it your own and let your personality shine through. They also provide an inexpensive way to keep your space looking fresh from year to year.

Hints For The Handy
Home Improvement On The Level
 (NAPSA)—Whether your idea of a home improvement project involves DIY construction or hanging pictures, there's one tool that saves time on these jobs and more—the self-leveling cross-line laser.
 The highly functional cross-line laser projects bright horizontal and vertical laser lines against a surface to ensure straight and level placement. You can use a line laser for wall positioning or to simplify time-consuming tasks like hanging artwork or placing holiday decorations.
 For example, if you want to install a shelf the most important task is making sure it's level. Some DIYers use a tape measure and a carpenter's level for this project, but the accuracy can be spotty. However, with a self-leveling cross-line laser the light beams both horizontally and vertically to outline precise shelf placement that's perfectly level. For an expert finish, just double check that your lines are at the right height and wall location. That also goes for installing items like a wall sconce or light fixture.
Picture-Hanging Hints
 1. Set your horizontal line at preferred height
 2. Set vertical line to intersect at lower left corner of picture frame
 3. Measure distance from top of picture frame to hanging wire
 4. Mark preferred location of hanging wire on wall
 5. Locate nail or fastener on wall
 6. Use laser to ensure picture is level top and bottom.
 Any room or surface where a straight or level line is required will benefit from a self-leveling cross-line laser. It's easy to use, makes any job faster, offers extreme accuracy and can often mean you can polish off a two-person job by yourself. Just set the laser on a tripod or mounting device and you're ready for almost any project—from installing ceiling tile to precise chair rail placement. And if you come across great ideas on websites like Houzz.com or Pinterest, this device can help you build collages and other crafts that have a professional touch.
 One self-leveling cross-line laser that fits homeowner requirements is the Bosch GLL 30. It features a compact design for easy movement around the home and projects easy-to-see cross lines at distances up to 30 ft. And it comes with a flexible mounting device with micro-fine adjustment that clamps on virtually any surface to project lines from every height or angle. It's the tool you didn't think you needed, but can't do without. To learn more visit Boschtools.com.
