People who took the drug misoprostol for stomach ulcers along with non-steroidal anti-inflammatory (NSAID) drugs had a significantly lower risk of serious cardiovascular events, stroke and kidney failure than those who took NSAIDs alone, according to a study scheduled for presentation at the American College of Cardiology's 66th Annual Scientific session. NSAIDs, a large category of drugs that includes ibuprofen, celecoxib and dozens of others, are commonly used to treat pain, inflammation and fever and are available by prescription and over the counter. They are one of the most commonly used medications worldwide, with more than 70 million prescriptions written and about 30 billion doses consumed in the United States annually. They have been linked with rare but life-threatening side effects including heart attacks, cardiac arrest, stroke and acute kidney failure, collectively referred to as cardio-renal complications. Because stomach ulcers are a common side effect of many NSAIDs, misoprostol and NSAIDs are sometimes prescribed together in people at high risk for ulcers.

In 2001 the U.S. Food and Drug Administration granted priority review for imatinib mesylate, sold under the name Gleevec, as an oral therapy for patients with chronic myeloid leukemia, or CML. The New England Journal of Medicine has now published results from a nearly 11- year follow-up study that showed an estimated overall survival rate of 83.3 percent. According to the National Cancer Institute, prior to Gleevec's 2001 FDA approval, fewer than 1 in 3 CML patients survived five years past diagnosis.

SHOP TODAY'S LOW PRICE TAGS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

The "No Problem" People®

There were two covenants given: one for the children of Elohim (Deut 8:3, Mt 4:4, Lk 4:4, 1Jn 3:8-10, Rev 22:14), the second was for the beast and his followers (Dan 7:25, Rom 1:18-32, Rev 22:15). All other beliefs belong to the mythology of mankind. So Be It!

Hosea Kee Jr.

January 21, 1940 ~ August 13, 2017

The family of the late Hosea Kee Jr., wish to extend their thank you to all who helped and for the support given at the time when our Lord called Dad home.

Special thank you to all of our extended families, neighbors, and friends who helped and supported us during this time.

Thank you for all the visits, phone calls, flowers and all the food that was prepared for the nourishment of our bodies.

In so many different ways, for which we are really appreciative.

Thank you to Cullman Family Practice, Dr. Thomas Montgomery, Sharon Turner, Nurse Phyliss for all the wonderful care Dad received.

Fishing 4 a Cure 4ALS Bass Tournament is dedicated to raising awareness and funds to find a cure for ALS and to support families affected by this disease. This group was formed in honor of Danny Harris who is currently battling this disease. We are a 501 (c) (3) nonprofit organization, and all money raised is donated to the Alabama Chapter of the ALS Association.

ALS (Amyotrophic Lateral Sclerosis), better known as Lou Gehrig's Disease, is a progressive neurodegenerative disease that robs a person of the ability to walk, use their hands, speak, swallow and eventually to breathe. It is always fatal. Life expectancy is typically 2-3 years. Every 90 minutes someone is diagnosed with ALS and every 90 minutes someone dies from ALS.
