Makena, a drug commonly prescribed to pregnant women with a history of delivering babies early provides no benefit, according to a study published in the American Journal of Obstetrics and Gynecology. In fact, this drug may even increase the risk of developing gestational diabetes.

Regular use of ibuprofen (Advil) was associated with a 30% increased risk of cardiac arrest, according to research published in the European Heart Journal-Cardiovascular Pharmacotherapy.

This provides additional evidence for the U.S. Food and Drug Administration decision in 2015 to strengthen an existing label warning that non-aspirin nonsteroidal anti-inflammatory drugs (NSAIDs) increase the chance of a heart attack or stroke. NSAIDs are widely used to treat pain and fever from many different long- and short-term medical conditions such as arthritis, menstrual cramps, headaches, cold, and the flu. NSAIDs are available by prescription and over the counter. Examples of NSAIDs include ibuprofen, naproxen, diclofenac, and celecoxib.

Patients with age-related macular degeneration who received seven or more eye injections of the drug bevacizumab annually had a higher risk of having glaucoma surgery, according to a new study published JAMA Ophthalmology.

Fishing 4 a Cure 4ALS Bass Tournament is dedicated to raising awareness and funds to find a cure for ALS and to support families affected by this disease. This group was formed in honor of Danny Harris who is currently battling this disease. We are a 501 (c) (3) nonprofit organization, and all money raised is donated to the Alabama Chapter of the ALS Association.

ALS (Amyotrophic Lateral Sclerosis), better known as Lou Gehrig's Disease, is a progressive neurodegenerative disease that robs a person of the ability to walk, use their hands, speak, swallow and eventually to breathe. It is always fatal. Life expectancy is typically 2-3 years. Every 90 minutes someone is diagnosed with ALS and every 90 minutes someone dies from ALS.

Wallace Welcomes Warhol

The Evelyn Burrow Museum at Wallace State Community College is hosting a special exhibit featuring works celebrating American artist, director and producer Andy Warhol. **"FIFTEEN MINUTES: Homage to Andy Warhol, an Exhibition of Sight and Sound"** from now to October 31 in the main gallery of the museum.

The "FIFTEEN MINUTES" exhibition, which includes reflections on the legacy of Andy Warhol, was curated and produced by conceptual artist Jeff Gordon and painter Path Soong. It features both audio and visual artistry in its collection of silkscreen prints and original recordings. The audio works range from spoken word to music and sound created by a diverse roster of artists, writers and performers who knew, worked with or were inspired by Andy Warhol.

Complementing "FIFTEEN MINUTES" are 15 pieces of Warhol's artwork on loan from the Abrams-Engel Institute for the Visual Arts at the University of Alabama at Birmingham, the Huntsville Museum of Art, and the Booth Western Art Museum.

The Evelyn Burrow Museum is open Tuesday-Friday, 9 a.m. to 5 p.m., and Saturday, 10 a.m. to 2 p.m. Admission is FREE.
