In an increasingly connected world, today's patients find themselves communicating more frequently while also dealing with the demands of different listening environments. With a hearing loss, any situation can easily become overwhelming.

Our revolutionary new product lines - **Muse™ iQ**, **Halo® iQ** and **SoundLens® Synergy® iQ** - allow patients to be immersed in the world around them like never before. Built on our proven **Synergy platform** with **Acuity™ OS 2**, our new iQ lines help patients engage in life in a richer and more personal way.

**100%** of professionals\* agree that hearing aids improve the quality of life for their patients with hearing loss.<sup>1</sup>

Insights from  
**WebMD**

WebMD does not endorse any products or services.

<sup>1</sup>2017 WebMD Healthcare Professional and Hearing Aid Wearer Study, commissioned by Starkey Hearing Technologies.

\*Healthcare professionals (physicians, audiologists and hearing care professionals) who regularly diagnose hearing loss as part of their practice.

Adults with hearing loss experience a **30-40% faster decline in cognitive abilities** than their peers with normal hearing.<sup>1</sup> Scientists believe extra effort exerted by the brain to listen and comprehend "steals" resources from the part of the brain used for memory and decision-making.

However, treating hearing loss reduces the risk of cognitive decline. A 25-year study, published in 2015, validated that hearing loss accelerated cognitive decline, but suggests that **hearing aid use could slow that decline.**<sup>2</sup> At Starkey, we believe when a patient makes the decision to wear hearing aids, they begin a journey to overall health that starts with auditory wellness and ends with a richer, more complete life.

# FALL CAR CARE

## Prepare vehicles for harsh weather

### Battery

Old batteries should be replaced before winter begins. Without a strong, properly functioning battery, engines cannot turn over. Most batteries last between three and five years. However, extreme cold can compromise batteries, especially those that have been around awhile. Batteries are made up of acid and water, and cold temperatures can freeze the water, thereby affecting battery performance. Newer batteries can be protected by starting the vehicle each day to warm up and recharge the battery. Let the car run for at least 10 minutes if you cannot take an extended drive.

### Exterior maintenance

Keeping a car waxed and sealed can help maintain a durable exterior finish. This includes not only the paint, but the rubber and vinyl parts of the car's exterior. Winter is a good time to switch to a heavy-duty synthetic wax that can shield against water and road salts. High-quality sealants can be used on bumpers, trim and rubber door seals as added protection. Do not stop washing your car just because the weather is cold. Slushy, wet roads and snow-melting salts can speed up the formation of rust or other decay on the undercarriage of the vehicle. These materials will need to be periodically cleaned off. Flush the underside of the vehicle whenever possible, taking advantage of any dry, slightly warmer days.

### Tire pressure

Vehicle tires lose a pound of air pressure for every 10-degree drop in temperature. Many modern cars will alert to changes in air pressure, and drivers should be diligent in maintaining the proper tire pressure. Fuel economy as well as handling ability can decline when tires aren't inflated properly. Tires can be refilled at many gas stations for little cost.

### Wipers

Visibility is key in hazardous weather conditions, and keeping the windshield clean is a priority. This means ensuring there is enough windshield wiper fluid in the car and that it is a product that will not freeze. Wiper blades can freeze and crack in the winter. Older blades may be more susceptible to damage. It's a worthy investment to replace existing wiper blades at the start of each winter. When vehicles are parked, pull the wipers off of the windshield to safeguard them from sticking and cracking.

Cold weather requires drivers to amp up their vehicle maintenance routines. Consult with a mechanic or automotive retailer for more ideas and products that can help your vehicles operate safely and efficiently this winter.

# We simplify digital marketing for businesses everywhere.

We are your partner, not your vendor.

We strive to build strong, long-term partnerships built on transparency, trust, and most importantly, performance.

If It's not right for our client, It's not right.

Our clients' goals are at the center of our operation. We are focused on driving results, ROI, and customer experience.

We focus on our core competencies.

We have a continually expanding portfolio of solutions. Digital moves fast. It's extremely important to maintain mastery of the basics: Premium News, Programmatic, and Search, as these are the most common building blocks for successful campaigns.

We continue to learn and Innovate.

The world of digital marketing is in a constant state of change. Solutions that are effective today may be rendered obsolete tomorrow. Adtaxi stays ahead of the curve. Furthermore, we learn from experience and leverage our institutional knowledge to develop key digital insights and best practices.

## The spy glass that made naval history... Admiral Farragut Telescope™

(with table tripod)  
**Our Low Price, Just \$69.95**  
(Why pay more?)\*  
**BUT READ THIS AD FOR A MUCH BETTER DEAL.**

When Admiral Farragut ("Damn the torpedoes; full speed ahead!") fought his legendary naval battles, he used a telescope just like this to monitor the movements of the enemies' fleets. This beautiful optical instrument, a faithful replica of the famous original (except that Admiral Farragut's was made of brass - ours is fully chromed over its pure brass body), is about 5" long in its collapsed position and 13" when extended to full operating length. Enlargement is 25x, which means that it brings everything 25-times closer, and in needle-sharp focus, than if viewed with the unaided eye. Compare that to binoculars, which usually give you not more than 6x or perhaps 8x magnification. Admiral Farragut's Telescope™ comes with a belt-loop vinyl carrying case. There is also a table-top tripod for extended observations. This beautiful instrument is something you always wanted but thought you couldn't afford. It is a small luxury that you will really enjoy and that will give you wonderful service for many years. It is now available from us at a most affordable price.

*The optics of Admiral Farragut's Telescope are 25x30. This means that you get 25x magnification and the great light-gathering capacity of a 30mm objective lens. The scope is fully chromed (over brass) for extra beauty, protection and durability. Admiral Farragut's Telescope comes with a vinyl belt-looped carry case and a table-top tripod for extended observations.*

**\*Here is the even better deal: Buy two TELESCOPES for \$139.90 and we'll send you the third a third one with our compliments--absolutely FREE! Be sure to let us know if you want this deal.**

**How to order**  
You may order by toll-free phone, by mail and pay by check /money order, or major credit card. Please give the order code shown. Add \$12.95 for one and \$15.95 for three ship./ins. And sales tax for WA delivery. You have 30-day refund and one-year warranty. We do not refund postage. For customer service or wholesale information, please call (425) 264-6393.
