Fall color cruisin'

Driving through the fall colors in Wisconsin is one of the prime tourism attractions. Color enthusiasts can vote for the Kettle Moraine Drive, which includes areas around Elkhart Lake as one of their Wisconsin favorites. See the adjacent article.

Scenic routes

Kettle Moraine Scenic Drive part of Travel WI fan nominations for fan balloting

Travel Wisconsin asks fans to vote for their favorite scenic route in Wisconsin.

In anticipation of the arrival of vibrant fall colors across the state, Travel Wisconsin is asking fall foliage fans to join the fun and help pick the this year's best fall drive in the state. Cast your vote for Kettle Moraine Scenic Drive on TravelWisconsin.com during Sept. 8-Oct. 2.

In the 1940s, residents of the glacier-formed hills between Madison and Milwaukee envisioned a scenic drive that would draw city folks to the region's state parks and forests.

Today, ubiquitous green acorn signs make that navigation a snap. The 115-mile drive traverses six Wisconsin counties. The northern end begins near pristine Elkhart Lake in northern Sheboygan County and winds south to Whitewater Lake in southeastern Walworth County. There are numerous places to picnic, hike, camp, bike, swim, fish, visit historical sites, shop and find lodging along the way.

Enjoy the beauty, variety and geology of southeast Wisconsin. Visit ElkhartLake.com for fall getaway packages when exploring the Kettle Moraine Scenic Drive.

The Ultimate Fall Drive Showdown includes 10 scenic routes throughout the state perfect for viewing fall colors. The complete list includes Wisconsin Lake Superior Byway, Door County Coastal Byway, Nicolet-Wolf River Scenic Byway, Chippewa County Ice Age Drive, Rustic Road 62 featuring Timm's Hill in Price County, Wisconsin Great River Road National Scenic Byway, Kettle Moraine Scenic Drive, HWY 33 from Baraboo to La Crosse, Cranberry Highway Wisconsin Rapids Area, Rustic Road 29 featuring Snake Road in Lake Geneva.

The best and brightest fall colors throughout the state can be found by visiting Travel Wisconsin's Fall Color Report. Visitors can use the interactive map to locate peak foliage along with nearby

Conversation starters and stoppers

Most of us know how to start a conversation with someone we know. For example, "Hi John, how is Mary getting along? We heard she had a knee operation for that limp that's been bugging her and we hope she's on the road to a complete recovery." Or, "Well hello Jane, haven't seen much of you since the beginning of the fall semester. The kids' schedules sure cut into one's social life, don't they?"

Conversation starters—even with strangers—aren't that difficult to initiate. For instance, you have just been introduced to the new neighbor who has moved next door. You might open a conversation as follows, "Hello Michael, and welcome to our neighborhood. We understand that your wife is a teacher in the public grade school. What does she teach?" A brief question is always a useful conversation starter, particularly for a new acquaintance. Or, taking a position on a non-controversial issue is also good, "Hi there, as your new neighbor, I sure would like your views on the neighborhood betterment movement that is going around. I have some literature that you might find of interest."

Most of those conversation starters are pretty easy to initiate. But what about a polite, but effective way to terminate a conversation that has already become either deadly boring and/or irritating? For example, a new neighbor has decided to spark up his autumn leaf raking and lawn mowing chores with a lengthy

discussion with you about politics—local and national. He has just finished a decimating review of all that your governor has recently done in the area of police control and has begun a negative analysis of the national scene, starting with President Trump.

A polite way to end that discussion would be to take it over with your own remarks like, "Well, I've never become terribly interested or involved in politics. Too many personal problems get in the way." Then return to your leaves and raking. Another tactic is to agree (to excess) with your neighbor's position so that he or she will almost have to re-enter the debate in opposition to his or her original position. For example, you might argue, "Yeah, Trump is something, isn't he? A real case for impeachment." Since that is further than your neighbor wanted to go, he's likely to drop the argument entirely.

But, in the final analysis, it's simply a matter of who wants to control the discussion—either by simply letting it go in the first place, or stopping it when (if) it gets out of hand. The next time you are faced with the desire to add something to an ongoing conversation that has gotten out of hand, just remember these few tricks of the trade, ask a relevant question or challenge the speaker's own position by stealing it and stating it firmly as your own. It's surprising how well it works.

Four diamonds for Osthoff

Osthoff Resort earns AAAs Four Diamond Rating 19 years in a row

Fewer than four percent of nearly 59,000 AAA Approved properties receive this prestigious rating.

The Osthoff Resort in Elkhart Lake, Wis. has received the prestigious AAA Four Diamond Rating for the 19th consecutive year.

The resort has been continuously recognized for its distinctive design concept, extensive array of amenities and its comfort and elegant appeal to a unique audience, friendly toward both business travelers and leisure enthusiasts.

The Osthoff Resort's General Manager, Lola Roeh, stated, "We are honored that AAA has recognized our vision, hard work and leadership. This award reflects a commitment from our entire team for setting the standard in service excellence and dedication by providing the ultimate Midwest guest experience."

"To maintain the exceptional standards required for this rating on a daily basis is an outstanding achievement," said Michael Petrone, director, AAA Inspections and Diamond Ratings. "AAA Four Diamond establishments are attentive to guests needs and consistently deliver memorable travel and dining experiences."

It is also a fitting complement to other recent awards for the resort, including being ranked one of the Top 500 Hotels and Resorts in the World for 2016 by the readers of Travel + Leisure magazine, a top 10 ranking from the prestigious Readers' Choice Awards by Condé Nast Traveler magazine and ranking number three on the list of the Top 10 Resorts in the Midwest for 2016. The resort's Aspira Spa was recently named the number two spa in the nation, according to Spas of America.

The Osthoff Resort is located just one

hour north of Milwaukee, less than two hours from Madison and approximately three hours from Chicago. It hugs the shoreline of pristine Elkhart Lake and features spacious all-suite accommodations, two restaurants, the acclaimed Aspira Spa, classic cooking school, lakeside deck with dining and live music, year-round recreation and events, gift boutiques, and grand conference rooms.

To be among the first to know of resort specials, sign up for the resort's e-newsletter at osthoff@osthoff.com. Seasonal packages are posted on the resort's website and you can also follow them on social media: Facebook, Instagram, Twitter, YouTube, and Pinterest.

For more information on the resort, please visit www.Osthoff.com.

About AAA Inspections

For more than 80 years, AAA has used professional inspectors to conduct anonymous, in-person property evaluations. AAA offers the only rating system using comprehensive, on-site professional hotel and restaurant evaluations using published guidelines weighted by member priorities. With a far greater inventory than any other rating entity, AAA's rating system covers the United States, Canada, Mexico and the Caribbean.

Travelers can find Diamond Rated establishments and inspector insight in AAA trip planning products: the AAA Mobile® app for tablets and smart phones, the desktop and mobile versions on the TripTik® Travel Planner online mapping and routing tool, searchable online Travel Guides on AAA.com and AAA TourBook® guides available to members at AAA/CAA offices.

The Osthoff Resort's General Manager, Lola Roeh, accepts the AAA Four Diamond plaque from a representative of the AAA.

Nestled just off the east shore of Elkhart Lake, The Osthoff Resort continues to draw accolades in the Midwest and across the country as one of the top places to stay.

Travel + Leisure places Osthoff in Midwest Top 5

Travel + Leisure has announced its 2017 World's Best Awards and The Osthoff Resort in Elkhart Lake, WI, was named number three in the Best Resort Hotels in the Midwest.

Every year for the World's Best Awards survey, Travel + Leisure asks readers to weigh in on travel experiences around the globe—to share their opinions on the top hotels, resorts, cities, islands, cruise ships, spas, airlines, and more. Hotels are rated on their facilities, location, service, food, and overall value. Hotels are classified as City or Resort based on their locations and amenities.

Commenting on the inclusion of The Osthoff Resort, Travel + Leisure states, "The Osthoff Resort, on Wisconsin's Elkhart Lake, also earned raves from our readers—"the lake is spectacular, clean

and blue," said one fan."

The AAA Four Diamond Osthoff Resort features all-suite accommodations, multiple restaurants, full-service spa, classic cooking school, year-round recreation, signature events, gift boutiques, and grand conference center and meeting rooms. It is located just one hour north of Milwaukee, less than two hours from Madison and approximately three hours from Chicago. For reservations, call 800.876.3399 or book online at www.osthoff.com.

In recent years, The Osthoff Resort was named in Travel + Leisure's Top 500 Hotels in the World and readers of this same venerable publication voted The Osthoff Resort one of the Top Resorts in the Continental U.S.—the only Wisconsin resort to make the Top 50 list.

Lake 98.1 features music, local announcers

By Mike Mathes
for the Depot Dispatch

Lake 98.1 serves as Eastern Wisconsin's local adult contemporary music station.

A new member of the Elkhart Lake Chamber of Commerce, Lake 98.1 calls itself the "official at-work radio station" because it is the choice of many workplaces in the area.

Sales manager Terry Stevenson said the music format of the radio station appeals primarily to adults between the ages of 35-54, featuring music from the 80s, the 90s and today.

"Our format fits great in an office environment," Stevenson said, "but more than that, we are an effective voice for the community and for our advertisers."

Lake 98.1, also known by the call letters WLKN, broadcasts 24 hours a day and is available for streaming online at wlkn.com.

Primarily a music station, Lake 98.1 also offers local news on weekday mornings, and occasional news updates throughout the day.

Programming on Lake 98.1 includes local radio personalities Sandi Davis and Chris Logan who serve as the "voices" of the radio station.

Stevenson said the strong local personalities are a key focal point for Lake 98.1. "Listeners still want to hear the disc jockey chime in. They enjoy the conversational presence of the announcer."

The announcers are also connected to the many contests and giveaways promoted by the radio station.

Syndicated programming includes nightly shows by Delilah and a national jazz show hosted by Dave Koz on the weekends.

A popular feature program with listeners is the Saturday morning shopping spree. Listeners can tune in to buy products and services at 40-60 percent off the normal costs. The live program features a different array of products and services every Saturday.

Part of Seehafer group

Lake 98.1 is a key component of a family of radio stations owned by Seehafer Broadcasting, a company founded by Stevenson's grandfather, Don Seehafer.

Today, the parent company Seehafer Broadcasting owns 10 radio stations, six of which serve the eastern Wisconsin marketplace.

Other stations in the area including WQTC - 102.3 FM - classic rock,

SANDI DAVIS
WLKN radio personality

WOMT - 1240 AM - News sports talk, WCUB - 980 AM - classic country, WLTU - 92.1 - today's hot country and WEMP - 98.9 FM - beautiful listening music.

"We are excited for Lake 98.1 to become connected with the Elkhart Lake Chamber of Commerce," Stevenson said. "It will help us to be more involved in the community."

Backing community functions

Some of the greater community functions which have seen the stamp of sponsorship from Lake 98.1 include Sheboygan County events such as the of Miesfeld's Lakeshore weekend, the lead sponsor for Sheboygan Holiday Parade and a strong supporter for Big Brothers Sisters of Sheboygan County through the Chowdown

in Cheese town event.

"Events like these demonstrate our commitment to being community-minded and locally focused," Stevenson said.

Stevenson noted that Lake 98.1, like all of the Seehafer Broadcasting properties, is always seeking innovative ways to serve listeners advertisers.

Symphony opens season Oct. 7

Opening concerts are always celebratory and the Sheboygan Symphony Orchestra's is especially so this year as it celebrates its 99th year of continuous operation.

The concert is Saturday, Oct. 7 2017 at 7:30 p.m. at the Stefanie H. Weill Center for the Performing Arts.

Tickets prices are \$39, \$35, \$30 and \$15 for students. Please call the Weill Center Office at (920) 208-3243. Tickets are also available in the box office two hours prior to concert.

The Interludes Pre-Concert talk begins at 6:30 p.m. It is a free event for concert ticket holders. Space is limited, and an R.S.V.P is required. For more information contact us at business@sheboygansymphony.org or call 920-452-1985.

The concert opens with music of Mozart's Symphony No. 36 "Linz" and continues with Tchaikovsky's Variations on a Rococo Theme and Symphony No. 2 "Ukrainian." Jichen Li, the SSO's principal cellist, will be performing Variations on a Rococo Theme.

Variations on a Rococo theme, Op. 33, for cello and orchestra, was the closest Tchaikovsky ever came to writing a full concerto for cello and orchestra. Influence of his role model, Mozart, was evident with the instrumentations' strong leanings toward the late 18th Century Rococo style.

The Sheboygan Symphony Orchestra caps their opening performance with a presentation of Tchaikovsky's Symphony Number 2 "Ukrainian." Symphony No. 2 was one of his joyful compositions, which enjoyed great success immediately. The composer used the themes of three Ukrainian folk songs in this work - resulting in the work being nicknamed the "Little Russian."

"The Symphony will feature its principal cellist, Jichen Li, as he performs Tchai-

Born in China, Guest Cellist Jichen Li studied cello at the Tianjin Conservatory of Music and the China Conservatory of Music before continuing his education in the US. He is working toward a master's degree from UW-Milwaukee, under the tutelage of Stefan Kartman.

Li has served as the principal cellist in various orchestras including Tianjin Conservatory of Music, China Conservatory of Music, and currently principal cellist of the Sheboygan Symphony Orchestra. In addition to performing in the cello section of the UW-Milwaukee Symphony Orchestra, Li was the featured soloist in the 2015 UWM Concerto Competition and received first prize in the Sheboygan symphony orchestra concerto competition. Currently he is a cello teacher at the String Academy of Wisconsin.

Celebrated architect

Frank Lloyd Wright's 150th birthday observance continues

Wade House Historic Site will celebrate the 150th birthday of famed architect Frank Lloyd Wright with season-long exhibits, lectures, and educational activities focusing on Wright's life and work in Wisconsin and his relationship with Sheboygan carriage collector and restoration expert Wesley W. Jung.

The next event in our celebration will be a presentation titled "What Taliesin Looked Like, 1911-1912" by Jack Holzhueter, Wright expert and retired Wisconsin Historical Society staff member. On Thursday, Oct. 12 from 7-8:30 p.m. at the Wade House Visitor Center, Mr. Holzhueter will tell the story of the acquisition of the Taliesin albums as well as explain the significance of the photos in the albums. Mr. Holzhueter's presentation will be preceded by a complimentary reception featuring microbrews and light hors d'oeuvres, which will begin at 6:30 p.m.

Two sets of photographs survive from the brief, three-year period when Frank Lloyd Wright's first version of his home and studio, Taliesin, stood on the brow of a hill outside Spring Green, Wisconsin. One set, taken by one of his draftsmen, Taylor Woolley, appears in a photo album acquired in a famous 2005 eBay purchase. After a hectic, four-day fundraising effort, that album was bought for the Wisconsin Historical Society. The other set was taken by Wright's preferred architectural photographer out of Chicago, Henry Fuermann and Sons. A set of Fuermann's Taliesin proofsheets was bought in 2011 for the society, again after a hectic fundraising effort. In 1914, an arson fire destroyed the house and left seven persons dead, so these two groups of photographs provide the best record of Wright's initial vision for his home. Wright rebuilt

Taliesin in 1914; it burned again in 1925; and he rebuilt it a final time - Taliesin III, the version that survives today.

The ninth event in our "Frank Lloyd Wright: A Wisconsin Original" monthly speaker series will take place on Saturday, Nov. 4 at 1 p.m. and will feature a representative of Kubala Washatko Architects. In their presentation, which is titled "First Unitarian Society Meeting House Addition," Kubala Washatko Architects will describe their 2008 LEED Gold addition to the Frank Lloyd Wright designed First Unitarian Society Meeting House in Madison, Wisconsin. Built in 1951, the original Meeting House has been hailed as one of the world's most innovative examples of church architecture. A Kubala Washatko representative will describe how the firm helped the congregation maintain the integrity of Wright's original design while providing more space and modern environmental technology. Besides the afternoon lecture at Wade House on Nov. 4, there will be related programming in the morning at the John Michael Kohler Arts Center, whose 1997 addition was designed by Kubala Washatko Architects.

The "Frank Lloyd Wright: A Wisconsin Original" monthly speaker series will take place at the Wade House Visitor Center located at W7965 Hwy. 23 in Greenbush, WI, halfway between Sheboygan and Fond du Lac. Admission to "What Taliesin Looked Like, 1911-1912" on Oct. 12 is complimentary. For more information, please visit our website at wadehouse.org or call 920-526-3271.

Enchanted Florals celebrates five year mark

Located in beautiful Elkhart Lake, Enchanted Florals is your full-service florist, tuxedo rental shop, design boutique and gift shop, specializing in custom floral designs for weddings and other important events. The charming shop is brimming with lovely blooming plants, stylish home accessories, unique jewelry and gifts, and specialty gourmet foods and coffees.

This year, Enchanted Florals is celebrating its fifth anniversary.

At Enchanted Florals, we specialize in creating dream weddings, providing a "one-stop shop" for wedding flowers, ceremony and reception decorations, tuxedo rentals, wedding party gifts, and more.

Floral Artist Mary Forster, the co-owner and lead design consultant, provides the creative direction for nearly all of Enchanted Florals' designs. Her passion for flowers grew out of the inspiration she received as a child in her mother's beautiful gardens on her family's farm. After completing her bachelor's degree in art education with design emphasis from Marian University in Fond du Lac, Mary honed her floral skills with notable designer Michael Gaffney and others at the Milwaukee School of Floral Design, where she earned her floral design certificate. She teaches art and is currently working to complete her master's in floral design with the Wisconsin Upper Michigan Florist's Association (www.wumfa.org).

For Mary, art and floral design go hand in hand. "I believe that my art background helps me with designing floral arrangements because I use the elements and principles of art in every floral sculpture," she shares.

While Mary and the rest of her design team are busy creating floral designs, co-owner Craig Forstner makes sure all other aspects of the shop are running smoothly, managing weekly shipments of fresh flowers, tending the shop and making deliveries with a smile seven days a week.

A retired iron worker and artist in his own right, Craig designs and builds decorative pieces in his spare time, and his stunning arbors are available to brides to add an elegant touch (draped with fragrant flowers of course) for their outdoor weddings.

For over 18 years, floral designer Dianne Stellflug managed the floral department of the business she owned with her husband Mark. She has always been a "crafty" person, so working with and designing floral arrangements came very easy to her. She learned her craft on the job, with some formal training from wholesale floral suppliers she worked with. At the end of 2012 the couple sold their business after 25 years of ownership. Dianne says that although she was happy to leave the stress of day to day store operations behind, "I did miss the floral department, working with flowers, and customers." Dianne joined the Enchanted Florals design team in August 2013, and is thrilled to be doing

Enchanted Florals owners Mary and Craig Forstner are celebrating their fifth business anniversary.

what she loves. Dianne has many years of experience crafting wedding designs with both fresh and silk flowers, as well as beautiful floral designs for anniversaries, birthdays and funerals. She has created many custom silk wreaths and arrangements.

Assistant Floral Designer and Manager Kathy Uelmen's responsibilities at Enchanted Florals include floral design and merchandising. She grew up on a farm in south Eden, where she spent many of her summer days in her grandmother's garden. She fell in love with all of their different textures, fragrances and colors, and learned to combine colors, styles and shapes into beautiful bouquets. Kathy's artistic ability is complimented by her business savvy - she holds a master's degree in business from Marquette University.

She feels very fortunate to have the opportunity to work with Mary Forstner and the other Enchanted Florals designers. "Transforming the beauty of nature into a work of art for a client is truly rewarding," Kathy shares. "I love bringing a smile to someone's face through the gift of flowers."

At Enchanted Florals, taking good care of customers is very much a family affair. Craig and Mary's daughter, Jennifer, and their daughter-in-law Kelly, each with design experience and an artistic eye, lend a hand during busy times to help make sure that customers receive the friendly, prompt service that they have come to expect from Enchanted Florals. Kelly and Jennifer previously co-owned

an event planning and decorating company, and they often assist in the set-up and decorating for corporate events and larger weddings.

Shop hours are Tuesday through Friday, 11 am to 5 pm; Saturday, 10 am to 3 pm; event consultations and other times by appointment. Delivery is available seven days a week.

Enchanted Florals is located at 114 East Rhine Street. You can contact the business by phone at 920-781-5017

Elkhart Lake Village Report

Elkhart Lake leads county growth

Elkhart Lake led the county in increase of assessed value for commercial and manufacturing. The village added \$6,323,000, or 31% to our Commercial assessed value. We added \$4,112,700 or 59% to our manufacturing assessed value. This pace will not continue but we will see more increases as projects are fully assessed by the State.

Below are two articles about the economic development in the county.

Historical aerial photo of the old Schwartz Hotel, now the site of Victorian Village.

Is TIF investment important? Ask Elkhart Lake

Sheboygan County - TIF investment is the number one tool to stimulate growth in Wisconsin. Sheboygan has done well, in part, stimulating new multi-family housing with this tool. The benefits will have a supportive impact on future retail growth.

Elkhart Lake has also used TIF to stimulate growth, and it is providing broad based results. While the Village represents about .6% of the county's population, it delivered nearly 4.0% of the new commercial construction for the past year, and over 7.8% of the cumulative new construction combining residential, commercial, and industrial.

Report reveals Sheboygan County significantly outgrowing the state

From mysheboygan.com staff September 13, 2017

Wisconsin's annual report on property tax reveals that Sheboygan County is significantly outgrowing the state.

The just-completed report revealed strong commercial and industrial growth in Sheboygan County, which added nearly \$160 million in new construction value, or a 5.4% growth rate, over one entire percentage point faster than the State of Wisconsin's growth of 4.1%. Growth across Sheboygan County was not even. Achieving the lion's share of development was:

- Village of Elkhart Lake
- City of Sheboygan
- Village of Waldo
- Village of Oostburg
- City of Sheboygan Falls
- Town of Wilson
- Village of Howards Grove

The bulk of development in Sheboygan County was commercial development, easily outgrowing many comparable areas such as Rock, Fond du Lac, and Outagamie counties. The local growth in commercial was over 30% faster than the state overall. Industrial development was 230% greater than state average, again vastly outpacing most comparable areas.

"The growth in industrial and commercial is highly encouraging. This data aligns perfectly with Sheboygan County's recent history. We have seen tremendous

job growth. Our Achilles Heel remains, that we are not building enough housing. Even with the boom in apartments and knowing what is in the development pipeline, we still expect a significant housing shortfall by 2020 worth nearly \$50,000,000 in untapped development," said Dane Checolinski, Director of the Sheboygan County Economic Development Corporation (SCEDC).

Where Sheboygan County underperformed was residential development. Comparing similar data reveals residential new construction was 40% less than Wisconsin's average. Sheboygan County's new home construction value was only \$349 per capita, while communities such as Outagamie, Eau Claire and Brown built well over \$600 of new homes per capita.

Checolinski stated, "It has become a real dilemma for our area. Our employers are hiring many Americans from outside the area, but available housing is not keeping up with demand."

October mystery photo

Down Memory Lane— Recognize these photos?

Take a look at October's mystery photo at the top. Do you know anything about it? Where was the location? What was the approximate year? Do you know specific buildings in the photo?

If so, let us know!

To enter the October contest, send an email or letter with as many details as you can include to the Elkhart Lake Chamber.

The person with the best submission will receive a finely matted, quality enlarged print of the original, courtesy of Schamberger Gallery in Elkhart Lake.

Winners must pick their prize up at the Elkhart Lake Chamber office.

Conrad Barrows was the winner for September.

In his entry, he shared,

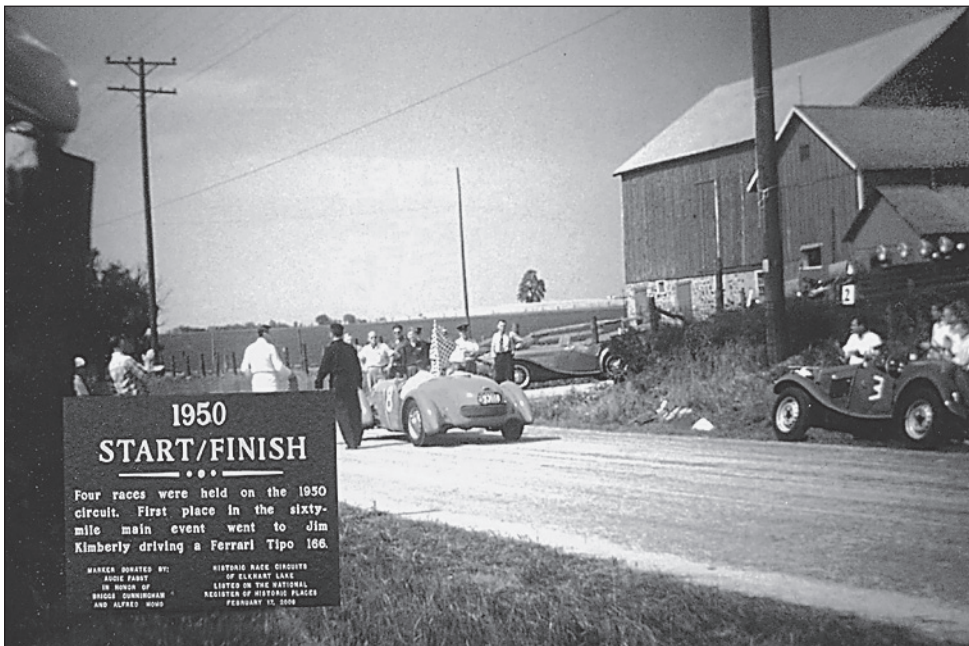

"As the insert states, this is a photo of the start/finish line of the 1950 original 3.35-mile circuit north of Elkhart Lake.

The Theel Farm is in the background along County Highway P. The race course proceeds northwest toward the Marsh followed by a sharp right turn on Highway J and then a right turn on Highway JP with another right turn back on County Highway P.

"The racers passed the start/finish line 10 times for a total distance of 33 miles. This was the first race of four races on July 23, 1950 and was for novices with cars having under 1500 cc. The picture shows a blue MG-TD, one of many MGs entered in this race and was won by Larry Whiting of Chicago in a French built Simca,

"Some reports stated there were 1,500 spectators while others said 5,000 attendees. Merchants were happy and looked forward to 1951."

II Cool Band plays sounds of the 60s

Only 150 tickets will be sold, so please order your tickets early. Costumes are optional, although prizes will be awarded for the best homemade costumes. Tickets are \$9 in advance Adults; \$11 at the door—children under 12 are free.

The ticket box office will open at 6 p.m. Doors to the greatroom will open at 6:30 p.m. There will be a cash bar and sweet treats will be available. Call 920-892-8409; Email: info@plymoutharts.org, www.plymoutharts.org, MasterCard & Visa accepted.

About the music of the 60's. The 60's decade produced some of the best music of all time. Countless songs from the 60's generation have been remade by others and television commercials used the recordings to sell their products. Movies such as Dirty Dancing and American Graffiti immortalized this period of our history. In the 60's rock music dominated the popular music charts. Elvis Presley continued to score hits in the early part of the decade, but the music continued to diversify with the folk revival, girl groups, and surf music, all impacting the early part of the decade. The Motown Record label brought more African American artists back to the forefront of the pop charts. By 1964 American artists are sharing the top of the charts with U.K. bands led by the Beatles and The Rolling Stones. In the U.S. garage bands emerge, inspired by the British Invasion sound. Sixties songwriting moves beyond pop love songs and begins to include social consciousness

and political statements. In the latter half of the decade psychedelic music reflects the growing hippie culture. Bubblegum music is created to generate radio friendly pop singles. Album sales begin to gain importance, as a harder rock sound emerges and sows the seeds for heavy metal.

About the Tradition of Halloween. The American Halloween tradition of "trick-or-treating" probably dates back to the early All Souls' Day parades in England. During the festivities, poor citizens would beg for food and families would give them pastries called "soul cakes" in return for their promise to pray for the family's dead relatives. The distribution of soul cakes was encouraged by the church as a

way to replace the ancient practice of leaving food and wine for roaming spirits. The practice, which was referred to as "going a-souling" was eventually taken up by children who would visit the houses in their

neighborhood and be given ale, food, and money.

The tradition of dressing in costume for Halloween has both European and Celtic roots. Hundreds of years ago, winter was an uncertain and frightening time. Food supplies often ran low and, for the many people afraid of the dark, the short days of winter were full of constant worry. On Halloween, when it was believed that ghosts came back to the earthly world, people thought that they would encounter ghosts if they left their homes. To avoid being recognized by these ghosts, people would wear masks when they left their homes after dark so that the ghosts would mistake them for fellow spirits. On Halloween, to keep ghosts away from their houses, people would place bowls of food outside their homes to appease the ghosts and prevent them from attempting to enter.
