The ABCs of Leadership For Women

Fueled by a passion to help women become the best leaders that they can be, Dr. D combined her extensive training and coaching background with her doctoral research in the field of strategic leadership and change management to create a stellar signature program. Her model was built to help women master three key leadership principles: authenticity, boldness and change. These three components of leadership (the ABC's) are threads that run throughout the program, synergistically building upon one another and strengthening a woman's capacity to lead as she progresses from one level of leadership to the next. The result – a hands-on training experience synced with the heartbeat of women and tuned into the unique challenges that they face as leaders.

Don't miss this OPPORTUNITY to empower the women in your church, business or organization.

In this full-day program, women engage in hands-on activities and gain practical take-aways undergirded by the following principles:

- Authenticity, boldness and change play a critical role in enhancing the quality of life both personally and professionally
- "Self-care" is not synonymous with selfishness; but, rather, self-care is a vital and essential key to maximizing one's ability to care for others
- Self-leadership increases one's influence, confidence and effectiveness
- Assertiveness and boundary setting are "must-have" tools for women in leadership
- Women in leadership must be intentional in creating and sustaining work-life balance.
