DORDT COLLEGE
 Assistant Coaching Opportunities for Men's & Women's Soccer

Dordt College is accepting applications for a part-time assistant for both the men's and women's soccer programs. The college is also looking to fill a graduate assistant (GA) coaching position. As a GA, the assistant coach would also be a part of the Master of Education program.

Duties for both positions may include but are not limited to: assisting the head coach with varsity practices and games, managing and coaching the junior varsity program, implementing extensive summer camps, working individually and with small groups of players, maintaining the social media network, breaking down game film, and assisting with scouting reports and making recruiting calls/visits.

A Bachelor's degree along with admission to the Dordt College Master of Education program is required for those interested in the graduate assistant role. For those interested in the part-time coaching position, 1-3 years of soccer coaching experience is preferred along with the ability to establish and maintain effective working relationships with student-athletes, athletic officials, and college constituents. For both positions, commitment to the mission of Dordt College is a must.

For more information, please contact human resources at hr@dordt.edu. A cover letter of interest and resume can be sent with additional application requirements to follow depending on the track you are interested in. A review of applications will begin immediately and continue until the positions are filled.

NORTHWESTERN COLLEGE

DIRECTOR OF FACILITIES MANAGEMENT

Northwestern College is seeking applicants for a director of facilities management to begin mid-January 2018. This is a full-time, 12-month position managing the physical plant of the college.

Overseeing a department of approximately 20 FTE staff, the director provides general management, supervision and professional direction to a comprehensive facilities department that includes facilities planning; facilities maintenance and repair; renovation; utilities distribution; custodial, landscape and other maintenance services; and environmental sustainability initiatives. The physical plant of the main campus sits on 100 acres and includes 29 buildings with floor space of approximately 825,000 square feet and athletic fields. The position reports directly to the vice president for financial affairs.

Qualifications: The successful candidate will have an associate's degree or 1-3 years of post-high school training in building trades areas such as construction, electrical, plumbing, etc., with preference given to those with 5-10 years of progressive experience in building trades, supervision, and contractor or vendor negotiations. The ability to read schematics for building projects is also preferred. The candidate must be a person with strong organizational and computer skills with proficiency in Microsoft Office products such as Outlook, Word and Excel; outstanding interpersonal, oral and written communication skills; and the ability to multi-task. The candidate must be a self-starter with attention to detail and a team player willing to contribute in a collegial environment.

The successful candidate will have an authentic Christian faith and support the college's mission (www.nwciowa.edu/mission) and identity as expressed in our Vision for Learning (www.nwciowa.edu/vision), Vision for Diversity (www.nwciowa.edu/vision4diversity) and Statement of Christian Identity (www.nwciowa.edu/Christian-identity).

Northwestern College is affiliated with the Reformed Church in America and seeks to more fully reflect the cultural and ethnic diversity of the body of Christ in its faculty, staff, administration and students. Women and candidates from historically underrepresented groups are enthusiastically encouraged to apply. To apply, send letter of application, résumé and Northwestern College application form by Nov. 10 to:

Director of Human Resources

Get smart about heating and cooling

"Smart" thermostats are wireless internet-enabled devices that automatically adjust heating and cooling settings for optimal performance. Most smart thermostats will "learn" the temperature you like and automatically adjust to save energy when you are asleep or away. Smart thermostats can be controlled through your smartphone, and provide energy use data you can track and manage.
