A new analysis of patients who have undergone treatment for prostate cancer shows a connection between androgen deprivation therapy (ADT)-a testosterone-lowering therapy and a common treatment for the disease-and dementia, according to researchers from the Perelman School of Medicine at the University of Pennsylvania. Their previous studies have shown men who undergo ADT may be at an increased risk of dementia, including Alzheimer's disease, compared to men who were not treated with the therapy. This new analysis-the largest of its kind ever performed on this topic-shows that all existing studies taken together support the link to dementia and show a possible link to Alzheimer's. The findings are published this week in Prostate Cancer and Prostatic Diseases.

Taking the common oral thyroid hormone medication levothyroxine with a glass of cow's milk significantly decreases the body's ability to absorb the drug, a preliminary study presented at ENDO 2017, the Endocrine Society's 99th annual meeting finds.

A recent study in the Journal of Clinical Pharmacology found that women with overactive bladder who received antimuscarinics were 38% more likely to be diagnosed with depressive disorder within the next 3 years than those who did not receive antimuscarinics. Although antimuscarinics can significantly depress bladder contractions and improve symptoms by blocking muscarinic receptor, studies have found that several unwanted side effects frequently occur when patients with overactive bladder receive the drugs.

Many so called Christian churches preach Christ fulfilled the law. Christ fulfilled the prophecies not the covenant law. Christ was manifested to destroy the devil's works (1Jn 3:8-10) and said sin (1Jn 3:4) no more (Jn 5:14, 8:11). Yet these churches teach Christians cannot live without sinning. One who goes to these churches and claims to believe Christ that He is their Lord (master), yet not obey Him (Mt 16:22-23), are church Christians and everlasting life is promised by their church (Ezek 13:22)! So Be It!

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
