TO MAKE EVERY DOLLAR COUNT-YOU HAVE TO MAKE EVERY CUT COUNT

with Inline Squeeze

 For prime lumber cut to length or Precision End Trimming needs, our Selecut®-V uses a Fixed Frame Assembly with a moveable cutting platform to meet your production needs in a limited space environment and is available with our Inline Power-Squeeze Package Alignment system.

For high-volume automated crosscutting of industrial length stock, our Autocut®-V uses a computerized carriage assembly with PLC controls enabling you to process lumber without an operator present.

We're proud of the fact that HOLTEC pioneered the concept of precise package cutting over 40 years ago. Today our industry's technological and manufacturing advances have enabled us to achieve the fastest cut in the industry and an unmatched precision on every cut. So, if you're considering investing in a package-crosscut saw, consider these facts^{*}:

 At 55 seconds per cut HOLTEC systems cut up to twice as fast as other systems available today;

• With our own team of dedicated Field Technicians and service vehicles, HOLTEC is the only company that provides you a service response time of 24 hours or less on-site and on-time;

• Our state of the art Germany manufacturing facilities are ISO-9001 certified, ensuring that you're getting the highest quality manufacturing standards available today;

• With an unmatched precision of +/- 1mm (.040"), HOLTEC systems exceed precision-end-trim tolerances;

• HOLTEC systems are designed with the highest safety standards in the world, ensuring that your employees are working in the safest environment for package-crosscutting available today;

• HOLTEC has almost 2,000 systems in North America and over 8,000 systems delivered worldwide, ensuring that we'll be here for you in the future as we have been for the last 40 years

- For custom manufacturers, our Transcut[®] II Station will cleanly cut through a unit of hardwood or softwood in less than a minute using generic chain-saw chain and with a precision of +/- 1/16th" or better*.
- For simple crosscutting of EWP or lumber, our versatile Transcut[®] Portable saws are priced and designed to offer a significantly safer and faster alternative to hand-held chain saws.

WE ENSURE EVERY DOLLAR COUNTS BY ENSURING EVERY CUT COUNTS

Holtec [USA] Corporation, 2802 Sydney Road, Plant City, Florida 33566 • [813] 754-1665 • Fax [813] 752-8042 TOLL FREE 1-800-346-5832 • eMail: info@holtecusa.com

*All specifications are subject to change without notice. Pricing is FOB Tampa, Florida and subject to change without notice. Photographs may show systems with optional accessories. On-site service may not be available in certain remote locations. Proper maintenance procedures are essential for accuracy and longevity, and accuracy results are based on HOLTEC installed systems using Scratcher® chain technology. Stroke speed may vary based on specie and dimension of lumber. HOLTEC, TRANSCUT, SELECUT, AUTOCUT & MAXIMUS are registered trademarks of HOLTEC GmbH. DISMANTLE MORE PALLETS PER BLADE. PERIOD.

NEW! PALLET HAWG® PALLET DISMANTLING BANDSAW

60" width capacity-up to 96" available!

Designed for a full range of pallet recycling including pallet prep, repair, dismantle, and recovery, the Pallet Hawg® Pallet Dismantler from Wood-Mizer has earned a worldwide reputation for being extremely durable and reliable through simple and innovative engineering. Due to the unique combination of high torque and low RPMs with a bimetal blade, the Pallet Hawg® has an expected blade life of 1,200 to 1,500 dismantled pallets per blade which is nearly double the blade life of competitive pallet dismantling saws. With one or two operators, easily remove stringer boards, blocks, and deck boards of a pallet with the Pallet Hawg® from Wood-Mizer.

FEATURES

No fail mechanical blade

10 hp motor with gear reduction drive

Pneumatic hand valve moves

South Bloomingville, Ohio **Guaranteed Products** + Quick Delivery **SERVICE & SUPPLY** + Proven Experience = Your Success 621 US 41A • Henderson, KY 42420 e-mail: eric@bartlettsaw.net We also supply Edger Saws, VISA Slasher Saw Bits, Saw Grinders & Lots More! NEW Tech® PCN-55M The better alternative Try our tool risk free for NEW for pallet recyclers PRECISION More power, less weight & 58" Chipper

we proudly introduce the new Tech PCN-55M nailer.

Page 26

After many years of experience working with pallet recyclers, we've designed our new tool with features like a thicker reinforced nose and contact arm for extra durability, and air flow that is optimized to generate more power with less weight - a third to a half a pound lighter than competitive tools.

Our customers also report that the new PCN-55M holds up better in colder winter temperatures.

Although nail pricing is one component when choosing a company, an even greater consideration for us is the nail guns. Being a recycler, wood density varies from softwood to rock hardwood. The Tech 55M handled all materials with ease. It has increased production by approximately 30%. A single individual was able to increase his output from 200 to 300 pallets per day, very impressive. Overall its proven itself as a money maker for the company.

- Cuts Chips Using The Entire Knife
- One Person Knife Change
- Eliminates Counter-Knives
- ◆ 48", 60" and 70" Disc

www.stringerind.com

Join Tusco Hardwoods in Sugarcreek, OH as a Stringer Chipper **Operator...** Here's Why:

"The standout feature of the Stringer Chipper is their rugged, heavy duty design. The beefiness of their spout and housing really turned our heads. They went above and beyond to make the 70" chipper fit into our existing space. They built the equipment to match our needs, not the other way around."

Joe Miller Tusco Hardwoods - Sugarcreek, OH

601.876.3376

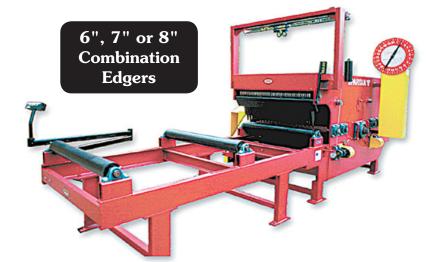

- Easily Adjust Anvils
- Helical Wear Plates
- ♦ 5 5/8" Thick Disc, without Wear Plates
- Maximized Throat Size **To Handle Large Slabs**

Over 12,000 Edgers Built And Still Going Strong

Meadows Mills' acquisition of Miner Edger means we have more edger building experience and more edgers in operation worldwide than anyone else. So trust your next edger investment to the real experts. We've been building better sawmill equipment since 1902!

Morbark® Hosts 11th Demo Days Event, **Celebrates 60th Anniversary**, **Welcomes Guests from** Around the World

During two exciting days Morbark, LLC, welcomed about 250 customers, members of its authorized dealer network, and other guests from 15 countries for its 11th Demo Days event on September 28-29. This year Morbark is celebrating its 60th anniversary and one of its first Eeger BeeverTM brush chippers, built in 1980, was refurbished and on display during the event.

Morbark's Demo Days give its customers and other attendees, the opportunity to watch equipment in action and meet the people who build and support the equipment as they see firsthand the manufacturing processes utilized. Events included factory tours, networking opportunities, vendor booths, and a chance to see the equipment up close.

Demo Days participants also had the opportunity to learn about Association of Equipment Manufacturers' "I Make America" program. I Make America is a grassroots campaign launched in September 2010 to dramatically improve American manufacturing policies to create more jobs in the U.S. and keep our economy competitive with other countries. Also on display were Morbark's latest equipment additions, the 3400XT Wood Hog horizontal grinder and the Morbark Pronar Trommel Screen, both introduced this year.

For more information on Morbark equipment, visit www.morbark.com or call 989-866-2381.

If You're Eager, Call the Beaver for All Your Auction & Appraisal Needs!!!

Don't Pay Sky High Commissions to Sell Your Business or Equipment. Keisling Auctions has the solution! Our team has over 50 years experience in the lumber and forestry industry. We know what works! We're here to help!!!

Auctions • Certified Appraisals • Surplus Equipment

The Team is Back!!!

Faron Daniel is the latest addition to our growing team. He brings over 30 years experience as an auctioneer and certified appraiser in the agriculture and forest products industry. We are eager to welcome him to our team! Give Faron a call at 931-209-7620.

Ed Mitchem worked for industry pioneer George Kittrell during the 80's and 90's, then owned and operated Kittrell Auctions during the 2000's. Ed knows the industry like no one else and brings this extensive knowledge and experience as a consultant for Keisling Auctions. Give Ed a call at 931-619-4781.

Toll Free 844-522-5925 Direct: 931-823-6744

BRIEF

This dumpster speeds up waste removal. When the hopper is full, you can easily pick it up with almost any forklift and dump it simply by unlocking and pulling a lever. The Steel Hopper has a reinforced base & continuous weld for long lasting use.

From the designers and builders of the popular M2L Stacker/Unscrambler, the TS300 Stacker and the Center Cut Saw comes the New AIT Block Saw. This new block saw, manufactured by Automated Industrial Technologies and sold exclusively by Pallet Machinery Group, cuts boards, blocks and cants at a rate of up to 2,000 cuts per hour. This production, combined with its high reliability and low maintenance, gives you everything you need in a block saw. No pallet operation should be without it!

For more information, contact: **Pallet Machinery Group** 540-644-9220 info@palletmachinery.com • www.palletmachinery.com

Morgan Chop Saw has just introduced its new Stationary Multi-trim saw. This new trim saw is super efficient and requires less labor to

Stack boards at up to 20 layers per minute with Pendu's new 4700B High Speed Bottom-Up Stacker! The bottom-up feed design is lower to the ground than an over the top stacker for easier access to the stick placer and the infeed. The 4700B can handle material from 24 inches to 72 inches long, 1 1/2 inches to 5 1/2 inches wide, and 3/8 inches to 2 inches thick. The stacker can be used with or without an optional pit.

Call 717-354-4348 or visit www.Pendu.com today to find out how the 4700B High Speed Bottom-Up Stacker can speed up your production!

Band Headrig

Mellott Manufacturing

has introduced its new M-640 Model Band Headrig. Built Mellott Tough for low maintenance, it is available in 17° Slant with a larger throat opening to handle the biggest grade logs. Thinner kerf gives you wider boards and that means more profit for your operation!

For more information, contact:

operate. It is custom designed with as many blades as you need, for the ultimate in versatility. It features split blades for easy on/off and slightly adjustable heads. Waste conveyors are available. If you're looking for an easy to use multi-trim saw that increases your production and lowers your labor costs, this new saw is for you!

For more information, contact: Morgan Chop Saw Sarepta, LA 800-840-4741 • www.morganchopsaw.com **Mellott Manufacturing** Co., Inc. 717-369-3125 www.mellottmfg.com e-mail: sales@mellottmfg.com
