### ~ Rain or Shine ~

The Cullman County celebration of Veterans Day will take place from 9am-5pm, at Cullman Airport, this Saturday, November 4, rain or shine! CARTS buses will transport everyone from the parking area to the venue. Parking and admission are free. You can enjoy your lunch and interviews with our Veterans, including a Medal of Honor Recipient from 11am-1pm, inside the big double tent, and out of the weather. We have three large, covered exhibit tents, a 1920's movie and music show inside the terminal lounge and a DJ with 60's favorites under cover as well. Also, unless it is a steady rain all day, we are going to make every effort to fly riders aboard our Huey and Cobra Helicopters and aboard the Ford Trimotor.

Please don't let a little rain spoil our Veterans Celebration this Sat. Be brave and come out to thank your vets. They were brave for us, and, they did it in all kinds of weather. See you Saturday.

**SHOP TODAY'S LOW PRICE TAGS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

The U.S. Food and Drug Administration has approved supplemental applications for Sovaldi (sofosbuvir) and Harvoni (ledipasvir and sofosbuvir) to treat hepatitis C virus (HCV) in children ages 12 to 17. Harvoni and Sovaldi were previously approved to treat HCV in adults. These are the first direct-acting antiviral treatments approved for children and adolescents with HCV. Direct-action antiviral drugs reduce the amount of HCV in the body by preventing the virus from multiplying, and in most cases, they cure HCV. HCV is a viral disease that causes inflammation of the liver that can lead to diminished liver function or liver failure. According to the Centers for Disease Control and Prevention, an estimated 2.7 to 3.9 million people in the United States have chronic HCV, and children born to HCV-positive mothers are at risk for HCV infection. It is estimated that there are 23,000 to 46,000 children in the United States with HCV infection.

\*\*\*

The U.S. Food and Drug Administration has expanded the approved use of Stivarga (regorafenib) to include treatment of patients with hepatocellular carcinoma (HCC or liver cancer) who have been previously treated with the drug sorafenib. This is the first FDA-approved treatment for a liver cancer in almost a decade. According to the National Cancer Institute, approximately 40,710 people will be diagnosed with liver cancers in 2017 and approximately 28,920 will die of these diseases. HCC originates in the liver and is the most common form of liver cancer.

Older people newly prescribed sleeping pills like benzodiazepines and 'Z-drugs' have over double the odds of a hip fracture in the first two weeks compared with non-users, according to a new study published in PLOS ONE.

SHOP TODAY'S LOW PRICE TAGS: We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS: Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
