## Do You Hear But Not Understand?

You May Have Hearing Loss...  
or Maybe it's just WAX...

## We Can Find Out!

*Never put anything smaller than your elbow in your ear.*

Even this X-Large cotton swab is too small to put in your ear. Your ears are actually self-cleaning! Using a cotton swab to clean your ear pushes wax deeper into the ear canal and can create a blockage. Wax blockage is one of the most common causes of hearing loss, and we have an easy and painless way to check your ears. We'll use a miniaturized camera to do a complete inspection of your ear canal and ear drum to see if there's a wax blockage problem. Please call today to make an appointment for your FREE Ear Canal Inspection!

"I have had at least 8 sets of hearing aids over the past 32 years. Nothing has matched the quality of sound nor the price of these devices from The Hearing Aid Center. Service is outstanding, readily given and with a cheerful smile. These people are all terrific and the products are excellent."
