STAND WITH US

\$3.29

\$4.73

On January 1, 2018, Premier Communications' contracts with local broadcast providers (ABC, CBS, NBC and FOX) are up for renewal. These rates change every year. The local broadcast providers have indicated that they intend to dramatically raise the fees they charge Premier to carry their station on our channel lineup; the **increase could be as much as 40-60% higher!** Premier does not keep or profit from these fees, they are sent directly back to the broadcasters.

TO PUT THIS INCREASE IN PERSPECTIVE:

Imagine you are grocery shopping and you discover that a gallon of milk has gone from \$3.29/gallon to \$4.73/gallon – overnight! This is the scale of the fee increases local broadcasters are demanding.

WHAT IS THE ALTERNATIVE TO PAYING THESE FEES?

Premier would not be able to carry any of the local channels. We stop paying, the broadcasters take their channel away.

This isn't fair! You, the customer, are being forced to shoulder the cost of local TV. This problem isn't limited to Premier, any Cable or Satellite providers that have local channels on their lineups are facing the exact same increases.

OUR COMMITMENT:

We are doing everything we can to fight these fee increases.
Please stand with us as we do our best to keep your costs low.

WHAT CAN YOU DO?

GENERAL DESCRIPTION: What better way to ring in the new year than to have an opportunity to become the proud owner of one of the areas highest quality, beautiful farms. This gently rolling farm has been the envy of many for decades as they have driven past on Highway C-38. The Tracey's and the Ehrp's before them have done an enviable job of conservation with terraces and waterways that have been so well maintained and make this a post card picture perfect farm. Located so close to the Marcus Ethanol Plant and the areas great grain marketing facilities, not to mention the huge livestock influence surrounding the farm, makes all the things going for this farm even better.

The Plymouth County FSA shows 145.07 Cropland Acres with a 84.39 acre Cornbase w/a 161 bu. PLC yield index and a 57.4 acres Soybean base w/a 49 bu. PLC yield index. The Plymouth County NRCS & Assessors Office shows the main soil types to be Galva with a smaller amount of Radford. The farm has a weighted average CSR II of 84.5, making this a good high indexing high quality farm. The farm is enrolled in the ARC County Program. Containing approx. 156 acres M/L per original government survey. Best of luck to all! *Bruce R Brock*
