Minocycline, a common acne medication, can slow the progress of relapsing-remitting multiple sclerosis (MS) in people who have recently experienced their first symptoms, according to a study trial published in the New England Journal of Medicine. In addition to being an unexpected discovery-an acne drug benefitting a neurological disorder-the discovery is significant as it offers a safe and affordable treatment option for those with early onset MS. This discovery could impact thousands of newly diagnosed MS patients around the world. MS is thought to be an autoimmune disease of the central nervous system (brain, spinal cord). The disease attacks myelin, the protective covering of the nerves, causing inflammation and often damaging the myelin. The drug works by reducing the inflammation.

Probiotics may relieve symptoms of depression, as well as help gastrointestinal upset, a new study published in the medical journal Gastroenterology has found.

Among long-term colorectal cancer survivors, use of nonsteroidal anti-inflammatory drugs, or NSAIDs, is associated with about a 25-percent reduction in all-cause mortality, according to new research published in the Journal of Clinical Oncology. NSAIDs such as aspirin, ibuprofen and naproxen have a particularly advantageous effect when taken after diagnosis by colorectal, or CRC, patients without tumor mutation in the KRAS gene (KRAS wild-type tumors). The study shows that NSAID use by this group is associated with a survival benefit of 40 percent. CRC is the second-leading cause of cancer-related deaths in the United States, and about 70 percent of CRC patients in this study have tumors without mutations in the KRAS gene.

SHOP TODAY'S LOW PRICE TAGS:

We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:

Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.

Other methods are temporary, painful and expensive too! Accept the only recognized permanent method of hair removal. With 17 years experience and the latest equipment you can expect better, faster results with far less discomfort than seen with older machines.

I am accepting new clients and all Nita Rhoads former clients are cordially invited to continue your treatment plans here. CDC guidelines for infection control and equipment sterilization are strictly observed.

Some so-called preachers teach to live by the new testament, not the old, and will even promise life (Ezek 13:22). But what is written in the new that shews this teaching is a sham, it is said does not apply to them! Words against The Holy Bible is by man, not by Christ (Mt 15:9, 7:21-27, 16:22-23, Jn 14:6, 2Cor 11:13-15)! So Be It!
