Here's How It Works:

Fun By The Numbers Like puzzles? Then you'll love sudoku! This mind-bending

to the test!

3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve

HARD Sudoku puzzles are formatted as a 9x9 grid, broken down into nine
