Orange City Area Health System now offers this advanced, state-of-art screening technology for early detection of breast cancer.

The Genius 3D exam provides better, earlier breast cancer detection compared to the previous 2D alone. Greater accuracy means better breast cancer detection and a reduced chance of additional screenings.

- Our 3D exam finds, on average, 20-65% more invasive cancers than conventional mammography alone.
- Unnecessary call-backs are reduced by up to 40 percent.
- Accurate for women of all ages, with both dense and non-dense breasts; the only mammogram FDA approved as superior for women with dense breasts.

*Talk to your healthcare provider about what's right for you and the women in your life regarding breast cancer screening and mammography. Or call us today at 712-737-5380 to schedule an appointment.*
