Notch Size: Depth: 0"– 3" with spacers
Length: 9" standard
Chamfering: 9" length maximum

TO MAKE EVERY DOLLAR COUNT- YOU HAVE TO MAKE EVERY CUT COUNT

Selecute® V with **Inline Squeeze**

- For prime lumber cut to length or Precision End Trimming needs, our Selecute®-V uses a Fixed Frame Assembly with a moveable cutting platform to meet your production needs in a limited space environment and is available with our Inline Power-Squeeze Package Alignment system.
- For high-volume automated crosscutting of industrial length stock, our Autocut®-V uses a computerized carriage assembly with PLC controls enabling you to process lumber without an operator present.

Transcut® II Station
from \$26,999*

Transcut® II Portable
from \$7,999*

Autocut® V

We're proud of the fact that HOLTEC pioneered the concept of precise package cutting over 40 years ago. Today our industry's technological and manufacturing advances have enabled us to achieve the fastest cut in the industry and an unmatched precision on every cut. So, if you're considering investing in a package-crosscut saw, consider these facts*:

- At 55 seconds per cut HOLTEC systems cut up to twice as fast as other systems available today;
- With our own team of dedicated Field Technicians and service vehicles, HOLTEC is the only company that provides you a service response time of 24 hours or less on-site and on-time;
- Our state of the art Germany manufacturing facilities are ISO-9001 certified, ensuring that you're getting the highest quality manufacturing standards available today;
- With an unmatched precision of +/- 1mm (.040"), HOLTEC systems exceed precision-end-trim tolerances;
- HOLTEC systems are designed with the highest safety standards in the world, ensuring that your employees are working in the safest environment for package-crosscutting available today;
- HOLTEC has almost 2,000 systems in North America and over 8,000 systems delivered worldwide, ensuring that we'll be here for you in the future as we have been for the last 40 years

- For custom manufacturers, our Transcut® II Station will cleanly cut through a unit of hardwood or softwood in less than a minute using generic chain-saw chain and with a precision of +/- 1/16th" or better*.
- For simple crosscutting of EWP or lumber, our versatile Transcut® Portable saws are priced and designed to offer a significantly safer and faster alternative to hand-held chain saws.

WE ENSURE EVERY DOLLAR COUNTS BY ENSURING EVERY CUT COUNTS

✓ Quick, easy installation

✓ 5-man operation 8hrs - 20,000 to 25,000+ bd/ft

✓ Low maintenance

✓ Fast payback

MADE IN
Moscow, TN
USA

“We currently run four Hurdle mills and they give us the versatility to cut cants, ties, grade, and feed our thin-kerf resaws ... Hurdle has been a big part of our success for the last 25 years. You could spend 4 or 5 million dollars building a mill to square logs for a resaw, but why? Hurdle is the MOST cost effective headsaw, no other sawmill can produce like this and keep total capital investment this low!”
Brandon Clark, Clark Lumber Company

“When sourcing machinery for a new mill, I was looking for quick delivery, reliability, productivity, and support. Hurdle met my expectations and their parts support is excellent.”
F.S. Beal, Beal Lumber Company, Inc

**SIMONDS®**
PreSharp™
IS REAL SHARP!
PreSharp™ IS AVAILABLE IN 3 WIDTHS:
• 1" OS wide • 1-1/4" wide • 1-1/2" wide

**Not all Ground
Tooth blades are
created equal!**

PreSharp™
SQUARE FACE BLADE DETAIL
Simonds PreSharp™
blades have a unique,
square-face cutting edge.

Conventional blades, even
"ground tooth" types, have
a twist on the face. This
twist pushes saw dust to
the sides of the blade,
potentially causing poor
tracking and dust spillage.

**BANDSAW BLADES FOR
ALL CUTTING APPLICATIONS**

Start Your Recovery Today With a West Plains Grade Resaw System!

West Plains Machines are Built to Last and Built to Run!

Find us on Facebook
@ West Plains Resaw Systems

There is nothing more frustrating than constant breakdowns and lost production from machinery being built too light and with low quality parts.

We Also Offer:

- Pallet Bandsaws — Single & Multi-Head
- Chopsaws — Single & Multi-Head Trimsaws, Mini Edgers,
- Whole Tree Cut-Up, Package Decks, Unscramblers,
- Log Decks, Green Chains, Belt & Roll Conveyors.

ALL of our Resaw Systems...

- Come completely wired and tested — ready to install!
- Feature Hydraulic Networks and Full Return Systems

200 Series
Economical Grade Resaw to make your thin kerf, specialty mill or lower production circle mill more profitable. Standard cap. 16" x 16"

400/500 Series
The "Next Step" in production and profit. The perfect fit in medium & high production mills. Standard cap. 18" x 18"

600 Series
The "Ultimate" in production and profit. With the 6" band & 75 HP head motor you can easily cut grade lumber at 150 fpm and higher. Standard cap. 18" x 18". Optional — 20" x 20"

Jones Slasher Saw Grinder

AC or Air

ITCO Model SX33
\$425

Save big money on teeth, down time and saw repair.

GRINDS FROM FRONT OR REAR OF TOOTH

Diamond Wheel included.

Jones Saw Tools

812-354-6981 or your local dealer

"The Saw Boss"

Handle rotates 360° to most convenient operating position.

AC or Air

Model 7
\$525 with Grit Wheel

Wear Pins rest on saw, not on tooth. Prevents damage to carbide bits.

Tension Release Lever assures accurate grind and allows quick, easy movement around the saw.

Excellent on Headsaws & Vertical Edgers
Specially designed for Seraggs and Small Edgers where overhead guards are a problem.

\$595 w/Diamond Wheel for Carbide

DC, Flex Shaft, 240 volt AC & Carbide Grinders also available.
Better Grinders, at a Better Price.

Pallet Dip Tank

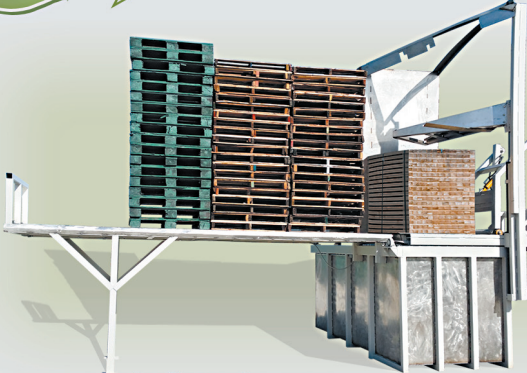

Key Design Features:

- Dip tank is fabricated in 1/8" thick stainless steel, type 304, with external painted enamel mild steel structure.
- Standard pallet carriage for pallet stack up to 114" tall and maximum 2500 lbs weight. Dead packed cut stock can also be dipped.
- Tilting carriage is fabricated in stainless steel and mild steel.
- Tilting carriage has clamp system to insure pallets or lumber is submerged.
- Hydraulic system is used for all mechanical operations.
- Estimated dip cycle for pallets is 4 minutes and is user defined.
- PLC control system with remote control for initiating the dip cycle. Dip time and other parameters are adjustable in the control cabinet display.

Industry's Most Trusted Source

UPDATED DAILY!

www.benjones.com

E-Mail: sales@benjones.com

TECH

Although nail pricing is one component when choosing a company, an even greater consideration for us is the nail guns. Being a recycler, wood density varies from softwood to rock hardwood. The Tech 55M handled all materials with ease. It has increased production by approximately 30%. A single individual was able to increase his output from 200 to 300 pallets per day, very impressive. Overall its proven itself as a money maker for the company.

- Steven Streeter: Enpac Pallets & Crates Inc.

The better alternative
for pallet recyclers
More power, less weight &
better durability.

For driving nails 1-3/4" to 2" with diameters .083" to .090", we proudly introduce the new Tech PCN-55M nailer.

After many years of experience working with pallet recyclers, we've designed our new tool with features like a thicker reinforced nose and contact arm for extra durability, and air flow that is optimized to generate more power with less weight - a third to a half a pound lighter than competitive tools.

Our customers also report that the new PCN-55M holds up better in colder winter temperatures.

www.stringerind.com

Join Allegheny Wood Products in Smoot, WV as a Stringer Chipper Operator... Here's Why:

I take great pride in running the Stringer 70" Chipper for several reasons –
1) It is easier to change knives, and requires less employees
2) Stringer's sales and service staff are friendly and knowledgeable
3) In my 32 years in the sawmilling industry, this chipper is the most dependable that I have operated.

OUR UNIQUE & INNOVATIVE WOOD DRYING PROCESS DELIVERS RESULTS

TIMBER DRY MANAGEMENT CONTROLS OFFER FLEXIBILITY AND EASE OF USE

When using the Timber Dry Management System kiln operators have a straight forward, simple to use, flexible program. Kiln operators can make instant changes on the touch screen interface that is provided for each individual kiln. This drying control technology uses the exclusive proven and cost-saving Nova Dry Kiln methodology.

CONTACT US FOR FURTHER DETAILS

We provide turnkey construction services along with excellent customer service as part of our dry solutions. Call our technical staff today for further information about Nova Dry Kiln and our Timber Dry Management system.

BRIGHTER LUMBER MEANS HIGHER SALES

Nova Dry Kiln's innovative technology offers a unique drying method that is kinder and gentler to the wood drying process. This process results in brighter lumber and gives our customers higher sales. Nova Dry Kiln builds and designs medium and large kilns ranging from 5,500 to 120,000 or more board feet.

INNOVATIVE TECHNOLOGY SAVES MONEY ON UTILITIES AND DEGRADE

Our kilns not only save money on utilities but our customers experience end results of only a 1 to 1 1/2% degrade. Using the combination of a thermal blanket created from our heated floors, with fans that do not reverse rewetting the lumber surface, also moisture is not reintroduced into the drying chamber for humidity control or conditioning, to the aluminum-lined walls that offer a superbly insulated chamber, the Nova Dry Kiln saves you money on your utilities and provides you with a superior end product and in most cases only a 1 to 1 1/2% degrade.

Wood-Mizer®
PALLET HAWG®
PD200
PALLET DISMANTLER

ONE-MAN OR TWO-MAN PALLET DISMANTLER

The Wood-Mizer Pallet Hawg® PD200 Pallet Dismantler is designed for a **full range of pallet recycling** including pallet prep, repair, dismantle, and recovery. Due to the unique combination of high torque and low RPMs, the PD200 pallet dismantler has an expected blade life of **1,000 to 1,500 dismantled pallets per blade*** which is nearly **double the blade life** of competitive pallet dismantling saws.

"The bulk of our equipment by far in terms of quantity and usage are the Pallet Hawgs (20 units). All of our machines run eight hours per day and half of them run sixteen hours per day. We have dismantlers here with more than 30,000 hours on them. The Pallet Hawg product itself is excellent and very durable."

—Wade Kohler
President of Pioneer Packaging

NEW! PALLET HAWG® OPTIONS

NEW! Optional Center Drop Table or Rear Drop Table

- One-person operation/1,000 double notched stringers per hour
- Notches new or recycled lumber
- 48" to 96" stringer capacity standard
- 9" x 1-1/2" notches, with 18" between notches
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Single Head Notcher

- 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterhead
- One-man operation/500 double notched stringers per hour
- Notches new or recycled lumber
- 72" stringer capacity standard
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

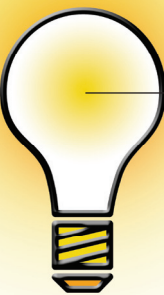

Double End Power Feed Trim Saw

Trim Saws

- Power Feed Trim Saws trim boards 2" thick from 18"- 60" in length on the single end, and 18"- 66" in length on the double end
- Inclined board feed and overhead saw design help eliminate board kickback
- Manual Trim Saw handles boards up to 6" thick and 6" wide
- 18" diameter nail resistant saw blades and 10 HP motors
- Heavy duty steel tube construction
- Multiple adjustable board stops on Single End and on Manual Feed Trim Saws
- Easy blade change
- Easily moved with built-in fork lift pockets
- Right saw head on double end easily adjusts to cut desired board length

\$49,000

**24" Cambio Debarker
w/Lindsay Air**

CHIPPERS:

We supply and stock parts for most makes and models of stationary chippers. In the field rebuilds and rebuilt spout exchanges can be quoted upon request.

DEBARKERS:

We are a stocking supplier of parts for Cambio Debarkers. Rebuilt rotors are kept in stock to eliminate downtime. Rosserhead parts are also available.

KILNS:

We provide many sizes of kiln wheels with bearings or bushings to your specifications. Custom axles are available. Woodland Parts is the southeast distributor for Muhlbock drying technology.

ATS SPIKES

Featuring a weld-lock design & created from a solid, high-quality chrome alloy, ATS Spikes are American-Made & easy to install.

We have many different shapes & sizes to choose from. Custom sizes are available upon request!

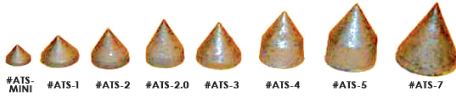

OPTIONS

#1) Long Life Spikes or Tips

Made from a tough, durable alloy, outlasting common products by at least 7 times.

#2) Tungsten Carbide Sprayed Spikes or Tips
Only second to the ATS Long Life Spikes, these last much longer than the machined ones.

#3) Heat Treated Spikes or Tips
Machined spikes, when it is not necessary for either #1 or #2.

INLAID COUNTER KNIVES
FOR DRUM CHIPPERS. THEY LAST LONGER.

For over 50 years, we have manufactured inlaid counter knives for disc-type chippers. We now offer the same quality counter knives for drum chippers. Inlaid counter knives last 3-6 times longer than comparable steel knives. We also utilize the same silver alloy brazing techniques to manufacture carbide anvils for drum and disc chippers.

KEEP YOUR OPERATION COVERED WITH A
CLEARSPAN STRUCTURE

FOR NEARLY 40 YEARS ClearSpan FABRIC STRUCTURES has been covering lumber and forestry operations of all kinds by providing structural solutions that promote efficiency.

VERSATILE DESIGNS - Whether you need a structure that is temporary or permanent, for workspace or storage, there is a ClearSpan structure.

COST-EFFECTIVE BUILDING SOLUTIONS - Drastically reduce construction costs, monthly utilities and maintenance requirements, with a structure that is superior in quality.

IN-HOUSE FINANCING IS BACK - As low as 4.99%.

VISIT WWW.CLEARSPAN.COM OR CALL 1.866.643.1010
TO FIND OUT HOW WE CAN HELP WITH YOUR STRUCTURE NEEDS

**THE AWARD-WINNING
LOGGERS' EXPO**
— ESSEX JUNCTION, VERMONT —

Where serious business is conducted

Thousands of hard-working people plan to get together in Essex Junction, Vermont this May to conduct serious business. The Loggers' Expo is the largest and best exposition of supplies and services, heavy equipment and trucks – for loggers and land clearers, tree care professionals and firewood dealers, sawmillers and landowners. If you're serious about your business, you need to attend – or exhibit at – the Champlain Valley Exposition.

2018 Loggers' Expo | May 11-12, 2018 | Champlain Valley Exposition | Essex Junction, Vermont

For information about attending or exhibiting at the **2018 Loggers' Expo**, visit us online at www.northernlogger.com or call toll-free 800-318-7561 or 315-369-3078.

We Offer:

- Quality manufacturing of new band saw blades 3" to 7" wide with Uddeholm Strip Steel
- Repair & Sharpening service

Send us your bandsaws for REPAIR & SHARPENING service!

The Richmond Show

EXPO RICHMOND 2018

Richmond Raceway Complex * Richmond, Virginia
Friday May 18th, 8:30 a.m. until 5:00 p.m.

and

Saturday May 19th, 2018 8:30 a.m. until 3:30 p.m.

The 36th East Coast Sawmill and Logging Equipment Exposition

will be 2018’s largest collection of sawmill, logging, biomass, pallet and related manufacturing equipment, supplies and services in the Eastern United States. More than 300 exhibiting companies and thousands of forest products industry people will convene for the 36th Richmond Show. The newest and most advanced machinery, equipment and technology in the industry will be on display. There will be acres of active hands-on machinery and equipment demonstrations outside, plus hundreds of indoor displays of new products, methods, technology and trends. Examine and compare products or services before making your purchasing decisions to improve the efficiency - and profitability - of your operation. Please fill out and return the pre-registration form below to the exposition office by April 1, 2018. Confirmations will be mailed

to all pre-registered individuals by May 4, 2018. If no email address is provided, hard copy confirmation will **NOT** be provided due to increased processing, handling, and mailing costs. There will be a **\$10.00** charge for those who register **on-site**. Pre-registrants receive HALF-OFF the on-site registration fee. All registration fees will be collected at EXPO Richmond entrance - **DO NOT SEND MONEY** with this form. Registration entitles attendees admission to BOTH EXPO 2018 exhibition days. Virginia Forest Products Association (VFPA) members who pre-register will **NOT** be assessed registration fees. For further information on becoming a VFPA member or regarding EXPO Richmond 2018, please call **(804)737-5625**. Don’t miss this opportunity to invest in your future.

EXPO RICHMOND 2018

Co-sponsored by Virginia Polytechnic Institute
& State University Cooperative Extension and
Virginia Forest Products Association

Return by April 1, 2018 to: EXPO RICHMOND 2018 • P.O. Box 160 • Sandston, VA 23150-0160

Please fill out completely and legibly. Incomplete or illegible forms can not be processed.

Only industry personnel should complete this form. Please copy this form for additional registrants. Spouses and children under 18 **DO NOT** complete this form. EXHIBITORS: Please contact Show Management for registration forms.

TRI-STATE AUCTION & REALTY, LLC

EQUIPMENT AUCTION
ALLIED WOOD PRODUCTS

246 UNION HILL ROAD ■ WHITLEYVILLE, TN 38588

SATURDAY, APRIL 14 • 10 AM CST

Note: There will be a 10% onsite and 13% online Buyers Premium added to the final sale price on all items sold. All equipment will be sold onsite by digital photos and live online bidding will be available at www.bidspotter.com. All announcements made sale day take precedence over any/all written material. A bank letter is required when paying with a company or personal check. All sales are final and buyer is responsible for removal of equipment. We do not accept credit/debit card. If you are tax exempted bring your tax exemption letter on the day of the auction when you register, if you do not bring it you will have 2 weeks after the auction date to send in your tax exemption letter or you will not be reimbursed, no exception.

European Technology: Storti & Pallet Machinery Group Celebrate 15 Years of Innovation and Customer Service Focus

With the broadest product line serving the lumber and pallet sectors, Storti has successfully pioneered the European pallet equipment market in North America. Its key alliance with Greg Wine and Pallet Machinery Group seeks to apply European technology in a way that works in this market. Storti sold its first full pallet nailing line in 2000 to Williamsburg Millwork for the production of CHEP block-style pallets. That original nailing line is still in operation today and can produce about 300 block pallets per hour.

Says Greg Wine, president of PMG, “Storti offers the largest catalog of sawmill and pallet machinery in the world, and it does not produce a standard machine. Every machine is customized to fit what the customer needs in terms of size, layout, operator requirements and automation level.” Storti is the only machinery company in the world that can produce a fully integrated line that takes logs and turns them into finished pallets.

To find out about the latest Storti innovations including the new Freedom nailing machine, which will be on display at Expo Richmond in May, **contact Pallet Machinery Group at 540-644-9220; e-mail: info@palletmachinery.com or visit www.palletmachinery.com.**

COMMERICAL REAL ESTATE BEING SOLD
by Ken Byrd, broker and auctioneer.

26 +/- Acres currently being surveyed, improved with office (building #1) 2900 square foot frame construction with a corrugated steel roof. The floor is concrete with particle board walls, fixed panel windows, aluminum gutters and downspouts, and central air conditioning in front section. Real Estate also improved with (building #2) a 40' x 120' strand steel structure with 3 bump-outs, a 25' x 25', a 20' x 25', and a 40' x 20'. This structure houses the mill operations. The floor is concrete with partial steel walls and roofing. Gross building area is 6,925 square foot).

TERMS ON REAL ESTATE: SELLING ABSOLUTE 15% deposit at time of sale, balance with deed on or before 30 days. Property will be selling "as is" both surface and subsurface. Prospective purchasers are invited to inspect property to their satisfaction, also complete their own due diligence on property prior to bidding. Information herein obtained from sources deemed to be reliable, however accuracy not guaranteed by sellers or agents. A 10% BUYERS PREMIUM WILL BE ADDED TO FINAL BID TO ESTABLISH CONTRACT AND SALES PRICE. All announcements day of sale supersede advertising. Real Estate sales and mill equipment will be sold separately but reserve the right of combination.
